## FOREWORD

THIS book will quickly teach you all the basic patterns of Coptic, mainly at the level of phrases and sentences. It contains drills to help you gain fluency as well as translation exercises, both from Coptic to English and from English to Coptic. A vocabulary list is given at the end of most lessons. If you memorize these lists thoroughly, you will know all the words that occur more than fifty times in the Sahidic Coptic New Testament<sup>1</sup>. In order to read Coptic it is absolutely essential to memorize these lists. Once you have finished learning the contents of this book, you will be ready to read the Gospel of Mark in Coptic<sup>2</sup>. The first three chapters of Mark are included in this book, with vocabulary glosses. Ordinarily one academic year should be enough time to complete both the grammar and all sixteen chapters of the Gospel.

The book can be used in the classroom or to teach yourself Coptic.

The vocabulary lists include common Greek equivalents for *Egyptian* Coptic words, based on the Coptic translation of the New Testament. (For more information, consult the *Concordance du nouveau testament sahidique*<sup>3</sup>). In the vocabularies, *Greco-Coptic* words are starred (\*).

Bold face numbers occurring within the text—for example in the phrase “double vowel (9)” on page 8—make cross-reference to section numbers of the grammar. Some information of an advanced level is provided in boxes.

A very inclusive Reference List of Coptic Forms is provided for your convenience

<sup>1</sup> To instructors of elementary Coptic, I recommend giving a vocabulary quiz whenever a lesson is finished, perhaps ten words from Coptic to English and ten more from English to Coptic.

<sup>2</sup> Easiest to read will be Horner's text in normal classical spelling: [George Horner, ed.] *The Coptic Version of the New Testament in the Southern Dialect Otherwise Called Sahidic and Thebaic* (Osnabrück: Zeller, 1969 reprint of 1911 edition) vol. 1, pp. 352–639. Students interested in early, non-standardized Coptic may wish instead to study Quecke's edition of an early Barcelona manuscript: Hans Quecke, ed., *Das Markusevangelium saïdisch: Text der Handschrift PPalau Rib. Inv.-Nr. 182 mit den Varianten der Handschrift M 569* (Barcelona: Papyrologia Castroctaviana, 1972), distributed by Biblical Institute Press (Rome). Quecke's introduction includes a detailed discussion of the spelling of the manuscript.

<sup>3</sup> In 5 vols. (Corpus Scriptorum Christianorum Orientalium, Subsidia; Louvain: CSCO). *Les mots d'origine grecque*, by L.-Th. Lefort (Subsidia 1; 1964); *Les mots autochtones*, 3 vols., by Michel Wilmet (Subsidia 11, 13, 15; 1957, 1958, 1959); *Index copte et grec-copte*, by René Draguet (Subsidia 16; 1960).

## FOREWORD

in the back matter of this book. You should use this list whenever you have trouble identifying a form, or difficulty making sense of a passage. You will also find a Subject Index, which lists all the topics discussed in this book.

You may want to pursue some grammatical topics in greater detail and to read a wide selection of real examples taken from the Coptic literature. This information can be found in Bentley Layton, *A Coptic Grammar* (ISBN 3-447-04833-6; 2d edition, Wiesbaden: Harrassowitz, 2004; [www.harrassowitz-verlag.de](http://www.harrassowitz-verlag.de)), to which I have provided references throughout the present book, using the siglum “CG” followed by paragraph number. You can get more practice reading Coptic by using the chrestomathy and vocabulary printed at the end of that work. You should purchase a copy of W.E. Crum, *A Coptic Dictionary* (Oxford: Clarendon, 1939 and various reprints) and start learning its contents once you’ve finished this grammar, or even before.

I am extremely grateful to Dr. Sofia Torallas Tovar for obtaining the photograph reproduced in lesson one; to Dr. Alberto Nodar for photographing it; and to the Archivo General de la Compañía de Jesús en Catalunya (Barcelona) for permission to reproduce it here. Several colleagues who have taught Coptic from a draft of this book kindly sent me corrections and suggestions, and to them I am also very grateful: David Brakke, Paul Dilley, and Colleen Manassa.

Good luck! I hope you enjoy Coptic!

Yale University, New Haven (Connecticut)

# LESSON 1

## COPTIC. THE ALPHABET. REGULAR REPLACEMENTS. SIMPLIFICATIONS. ABBREVIATIONS.

---

**1.** COPTIC is the final stage of the indigenous language of Egypt as it was written in the Nile Valley, the Egyptian Delta, and the Oases about AD 300–1000. It is the direct descendent of Ancient Egyptian, which was once written in the hieroglyphic, hieratic, and Demotic writing systems. Philologists treat Egyptian as a language group unto itself; it has some affinities with Semitic and various African languages. Coptic Egyptian flourished in Egypt until about AD 1000, by which time it had been replaced by Arabic as the language of daily life in Egypt. Unlike the notation of all previous stages of Egyptian (stretching back to before 3000 BC) Coptic was written in an alphabet, based on Greek. The Coptic writing system must have been standardized by the Christian religious establishment in the third century AD. Coptic comprised a number of dialects, of which *Sahidic* (centered perhaps in Shmoun-Hermopolis-Al Ashmunein) had the greatest literary importance and the widest use in the Nile valley. Almost all native Coptic literature was composed in Sahidic, between AD 325–800<sup>5</sup>. Sahidic is the dialect taught in this grammar. Because the climate of Egypt is especially favorable for the preservation of antiquities—desert conditions prevail south of Cairo, as one goes up the Nile Valley—an astonishing number of very early Coptic manuscripts have been discovered, dating from AD 300 onwards, and the number continues to grow. The book as we know it (the codex format) was invented in Egypt, and these earliest Coptic manuscripts are the earliest known examples of the book.

Coptic literature, which survives in a number of dialects, comprises both original works and translations from the Greek and was mostly intended for use in the non-Greek churches and monasteries of Egypt. It includes several translations of the Bible made from Greek starting about AD 300, which are a very early indirect attestation of the Greek text and a direct indication of an Egyptian (perhaps Alexandrian) understanding of what it meant: the Coptic versions are of great importance to mod-

<sup>5</sup> The liturgy of the present day Coptic Orthodox Church in Egypt is written in a mixture of Arabic, Greek, and Bohairic Coptic, the ancient dialect of the Delta and the great monasteries of the Wadi Natrun. Coptic is no longer a living language.

## LESSON ONE

ern scholars of Biblical textual criticism. In antiquity, the Bible text in Coptic was the foundation on which Coptic literary style was erected. Organized, coenobitic Christian monasticism began in Egypt, and the writings of the early monastic founders—Pachomius, Theodore, Horsiese, Shenoute, Besa (all of them Copts)—give us precious and unique documentation of daily life in the monastery and the ideology of coenobitic asceticism. This is especially true in the case of Shenoute, the leader of a monastic federation from AD 385–465, whose Coptic writings (spanning seventy years) survive in great quantity; Shenoute is the most prolific native Coptic author and its first real stylist. Also extant are business documents and personal letters, concerning both monastic and secular life.

Because the survival of early Coptic manuscripts was dictated more by climate than by theological orthodoxy, a very wide selection of apocryphal and heretical works has also survived. Most famous among these are the fourth-century Nag Hammadi manuscripts, which are of paramount importance for the study of ancient Gnosticism; it is not clear who read and paid for the copying of these manuscripts. Coptic Manichean texts are also of great interest for the Western branch of Mani's world religion; not only scriptural works but also everyday letters of Manichean Copts have been discovered. Most Nag Hammadi and Manichean texts are not written in the pure classical Sahidic dialect and so require some additional study once classical Sahidic has been mastered. Native Egyptian (pre-Christian) religion continued to find literary expression in Coptic, in a corpus somewhat prejudicially labelled Coptic magic. Other ecclesiastical literature includes all the apparatus needed to operate Coptic Orthodox churches and monasteries: lectionaries, hymnals, missals, books of hours, homilies and antiphons for the feasts of saints and martyrs, canon law, monastic rules and biographies, sayings of desert father and mothers, etc. On the other hand, *not* represented in Coptic are corpora of systematic theology by the great fathers of the church, verse by verse Biblical commentary, secular works of science, education, belles lettres, and the like: for these, Egyptians would have turned to the Greek originals (or even Syriac), and later to their Arabic counterparts. [CG 1–6]

**2.** Coptic vocabulary comes from two sources. *Egyptian Coptic words*, as well as the grammatical structure, are from the indigenous language of the Nile Valley. *Greco-Coptic words* were adopted from Greek, especially after the Macedonian conquest of Egypt (332 BC), which imposed upon the Egyptians a Greek-speaking government based in Alexandria. Greek was also the administrative language of the Roman and Byzantine province of Egypt and was gradually replaced by Arabic after AD 642. About one fourth of the Sahidic Coptic New Testament word list is Greco-Coptic. [CG 7]

**3.** The authoritative dictionary is W. E. Crum, *A Coptic Dictionary* (1939 and reprints); it contains only Egyptian-Coptic words. Greco-Coptic vocabulary must be looked up in the standard Greek dictionaries: H. G. Liddell, R. Scott, and H. S. Jones, *A Greek-English Lexicon* (1939 with reprints and later revisions);

## THE ALPHABET

W. F. Arndt, W. Bauer, and F. W. Danker, *A Greek-English Lexicon of the New Testament and Other Early Christian Literature* (2000, and earlier editions); G. W. H. Lampe, *A Patristic Greek Lexicon* (1968).

## THE ALPHABET

**4.** The Coptic alphabet is the twenty-four Greek letters written in rounded form (thus ε c ω), to which are added six additional letters taken from Egyptian (Demotic script): ϣ ϥ ϧ Ϩ ϩ Ϫ. Approximate pronunciations of these thirty letters are given in table 1. In ancient manuscripts there is no space between words, as you can see in the photograph below. Coptic has no question mark to distinguish questions from affirmations. [CG 8]

TABLE 1  
PRONUNCIATION OF THE ALPHABET

	Pronunciation	Modern Name		Pronunciation	Modern Name
Ⲁ	a	Alpha	ⲡ, ⲱ	ˈp	Pi
Ⲃ, Ⲅ	b ˈb	Beta	Ⲣ, Ⲵ	ˈr	Rho
Ⲅ, Ⲇ	g ˈg	Gamma	ⲣ, Ⲷ	ˈs	Sigma
Ⲇ	d	Delta	Ⲥ, Ⲹ	ˈt	Tau
Ⲉ	e	Epsilon	Ⲩ	w	Upsilon
Ⲋ	z	Zeta	Ⲭ	ph	Phi
Ⲍ	ā <sup>1</sup>	Eta	Ⲯ	kh	Chi
Ⲏ	th	Theta	Ⲱ, Ⲳ	ps ˈps	Psi
Ⲑ	y i	Iota	Ⲵ	ō <sup>3</sup>	Omega
Ⲓ, Ⲕ	k ˈk	Kappa	Ⲷ, Ⲹ	š <sup>4</sup> ˈʃ	Shai
Ⲍ, Ⲏ	l ˈl	Lambda	Ⲱ, Ⲳ	f ˈf	Fai
Ⲑ, Ⲓ	m ˈm	Mu	Ⲵ, Ⲷ	h ˈh	Hore(h)
Ⲕ, Ⲇ	n ˈn	Nu	Ⲯ, Ⲱ	č <sup>5</sup> ˈtʃ	Djandja
Ⲗ, Ⲙ	ks ˈks	Xi	Ⲳ, Ⲵ	kʸ ˈkʸ	Kyima
Ⲙ	o <sup>2</sup>	Omicron	Ⲵ	ty ti	Ti

NOTES: <sup>1</sup>ā is pronounced "AY," as in *ate*. <sup>2</sup>Be sure to make a difference between Ⲁ and Ⲑ: Ⲁ like "hat" and Ⲑ like "hot." <sup>3</sup>ω like "old." <sup>4</sup>As in *ship*. <sup>5</sup>As in *church*.

Five count as vowels (Ⲁ Ⲉ Ⲏ Ⲑ Ⲵ) and the remaining twenty-five are either consonants or combinations of letters.

Almost every consonant has two possible pronunciations, depending on where it appears. [CG 35]

i. A non-syllabic pronunciation, e.g. *b* or *k* (cf. Greek β and κ).

Ⲃ as in Ⲃⲱ bō, and in ⲒⲱⲂ hōb

Ⲅ as in Ⲅⲱⲥ kōt, and in ⲢⲱⲄ rōk

# THE ALPHABET

ii. A syllabic pronunciation, with an insignificant resonant sound (e, i, or the like) *just before* the letter, e.g. *eb* or *ek*. The syllabic pronunciation helps to form a syllable. Letters with a syllabic pronunciation are often written with a superlinear stroke above them<sup>6</sup>. Thus

$\bar{\mathbf{b}}$  (or simply  $\mathbf{b}$ ) =  ${}^e\mathbf{b}$ ,  ${}^i\mathbf{b}$ , etc., as in  $\tau\bar{\mathbf{b}}\mathbf{v}\mathbf{o}$   $t^e\mathbf{b}$ -bo

$\bar{\kappa}$  (or simply  $\kappa$ ) =  ${}^e\kappa$ ,  ${}^i\kappa$ , etc., as in  $\tau\bar{\kappa}\tau\sigma$   $t^e\kappa$ -to

The syllabic pronunciations of the consonants ɪ and γ are *i* (“EE”) and *u* (“OO”); these are *not* marked with the superlinear stroke.

*Position of the superlinear stroke.* Some Coptic scribes write the stroke directly above a letter that has a syllabic reading, i.e. above a single letter. This “single-stroke system” is used in the present book: ⲥⲱⲧⲙ̅. Other Coptic scribes write a longer stroke, connecting all (or some) of the letters in any syllable formed by a letter with syllabic reading, ⲥⲱⲧⲙ̅: this is the “connective-stroke system.” Both systems are ancient, and in both systems the stroke is sometimes shifted slightly to the right. The letters ⲃ ⲗ ⲙ ⲛ ⲣ are more persistently marked than any others. [CG 38]

**5.** The trema (diaeresis) symbol (¨) is sometimes written over ι or γ, with no apparent meaning: ῑ, ῑ̃: μωῖ̃χμ̃ς. Likewise, the circumflex (ˆ) is sometimes written over a single letter or connects a pair of letters, again with no apparent meaning: ῑ̂, ἐ̂ι. [CG 12]

<sup>6</sup> The superlinear stroke is optional. It is written most often above the sonorant consonants *ɸ* *λ* *ɱ* *ɳ* and *ɹ*.

(Facing page) *Gospel of Mark* 1:1–1:6. P. Palau Ribes inv. 182 in the Archivo General de la Compañía de Jesús en Catalunya, Barcelona. Parchment. Written in a regular uncial script without word division; dated to AD 400–450 by H. Quecke. © Archivo General de la Compañía de Jesús en Catalunya, reproduced by permission. Photo by Alberto Nodar. Scale 1:1. In the photograph, note the title  $\mu\alpha\rho\kappa\omicron\varsigma$  centered in the upper margin; to the right is the page number  $\bar{\alpha} = 1$ . In the left column, 5 lines from the bottom, is a straight paragraphos sign (above  $\alpha\varrho\omega\omega\pi\epsilon\lambda\epsilon$ ), marking the end of the prologue to Mark. Note the use of connective superlinear strokes ( $\zeta\bar{\eta}$ ,  $\bar{\eta}\tau\epsilon\bar{\eta}$ ) [many of the strokes are very faint]; tremas ( $\varsigma\alpha\iota\acute{\iota}\varsigma$  “Isaiah,”  $\mu\omicron\iota\tau$ ,  $\chi\alpha\iota\epsilon$ ); and a few raised points to conclude sections of text (left column  $\phi\eta\tau\eta\varsigma$ ,  $\mu\omicron\iota\tau$ ; right column  $\bar{\eta}\nu\omicron\beta\epsilon$ ,  $\nu\omicron\beta\epsilon$ ,  $\epsilon\tau\epsilon\varrho\uparrow\pi\epsilon$ ). In the left column at the end of line 9, the letter  $\kappa$  is written small and “stacked” over  $\omicron$  to prevent the word  $\bar{\eta}\mu\omicron\kappa$  from running too far into the margin. The left margin of each column is justified; but note that the letters  $\tau$ ,  $\phi$ , and  $\uparrow$  are aligned on their central upright strokes.

## 6. A modern American scholar's rapid writing of the Coptic letters

Α Β Γ Δ Ε Ζ Η Θ Ι Κ Λ Μ Ν Ξ Ο Π Ρ Σ  
Τ Υ Φ Χ Ψ Ω Ω 4 2 8 6 † Ñ M̄ N̄ T̄

## 7. Ambiguities in the Alphabet.

When you learn to play a new game, you first have to listen carefully to some abstract rules before you start to play. The same is true at this point in lesson one. The following, abstract-sounding information is dull but basic; but once you start reading Coptic aloud and doing exercises it will become second nature. Actually as languages go, it's not particularly complicated.

(a) *Monograms*. The alphabet is slightly redundant, for six characters (the "monograms") each represent a pair of other letters found in the alphabet. Their use is a matter of spelling convention, which must be learned word by word. [CG 13]

- Θ represents τ + ζ. E.g. ΘΕ (t<sup>e</sup> he) = the way
- Ξ represents κ + σ. E.g. ΞΟΥΡ (k<sup>e</sup> sur) = ring
- Φ represents π + ζ. E.g. ΦΙΛΙΠΠΟΣ (p<sup>e</sup> hi lip pos) = Philip
- Χ represents κ + ζ. E.g. ΧΑΡΙΣ (k<sup>e</sup> ha ris) = grace
- Ψ represents π + σ. E.g. ΨΥΧΗ (p<sup>e</sup> suk hē) = soul
- † represents τ + ι. E.g. †ΜΕ (ti me) = village

Note: pronounce *th*, *ph*, and *kh* as *t + h*, *p + h*, and *k + h*.

For purposes of grammatical rules, the monogram characters count as two letters.

Θ is also spelled as τζ, Ξ as κσ, Φ as πζ, Χ as κζ, Ψ as πσ, † as τι, depending on the word. Ξ, Φ, Χ, and Ψ mostly occur in Greco-Coptic words.

(b) *Digrams*. There are two ways to represent *y* (and its syllabic reading *i*)—both ι and ει, according to spelling convention. Also, there are two ways to represent *w* (and its syllabic reading *u*)—both γ and ογ. [CG 15–16] Thus:

- ι = *y* or *i*
- ει = *y* or *i*
- γ = *w* or *u*
- ογ = *w* or *u*

The pairs ει and ογ are "digrams": two characters in place of one letter.

NOTE: The spellings ἰ, εἰ, ῥ, and οῦ also occur, without any obvious distinction in meaning. [CG 11–12]

For readers, the results are somewhat ambiguous:

- ει could represent either *y* or *i*, or else *ey* (ε + ι)
- ογ could represent either *w* or *u*, or else *ow* (ο + γ)

## Some spelling conventions [CG 16]

(1) Conventional spellings of *y/i* according to three word types:

- a. παι, παῖ, παει, or παεῖ (fluctuation)
- αι, αῖ, αει, or αεῖ (fluctuation)
- b. ϣι, ϣιϥ, ϣιμε, ϣιη, νιμ (simple)
- c. εινε, ειωρμ (digram)

(2) Conventional spellings of *w/u*:

- a. Simple, after λ, ε, η, α-, and ε-: ναγ, μααγ, νεγ-, μεεγε, σνηγ, α-γψε-  
λεετ ωωπε
- b. Simple, after double vowel οο manifesting glottal stop (9): χοο-γ
- c. Otherwise, digram: μοογ, νογ, ρωογ, ειερωογ, ογωη, ωογο, ωογ-  
ωογ

8. *Bound groups; the meaning of hyphen (-)*. The smallest, basic units of grammatical or dictionary meaning are by definition called 'morphs'. (Or call them 'words' if you like.) You should carefully note which morphs (words) end with a hyphen and which do not, and learn this feature as part of the morph. (These hyphens are not part of the ancient writing system; they have been added only by modern linguists and are not used in text editions.) Coptic morphs group themselves into an unintermittible string until they reach a morph that has no hyphen at the end.

ζñ-τε-ρογειτε h<sup>e</sup>ntehwite = In the beginning

Such a string of morphs is called a *bound group*. Bound groups are arranged in various grammatical patterns to make intelligible phrases and sentences. These patterns, and their permissible constituents, are the subject matter of grammar. [CG 27–29]

For example, the opening sentence of the Gospel of John contains three bound groups:

ζñ-τε-ρογειτε νε-γ-ωοοπ ñδι-π-ωαχε  
In-the-beginning past tense marker-He-exists subject marker-the-Word  
= In the beginning was the Word

Some groups consist of only one morph:

αγω νε-γ-νογτε πε π-ωαχε  
And past tense marker-a-god is the-Word  
= And the Word was God

## LESSON ONE

Note carefully that the hyphen does *not* mark the end of a syllable: it should not be pronounced. Thus the bound group π-ωαχε should be pronounced in two syllables, *pša je* or even *\*pša je*, etc. (The exact pronunciation of syllables in a non-living language like Coptic is impossible to know.)

**9.** *Double vowel* mostly stands for vowel + glottal stop consonant (a catch in the throat so that the flow of breath is briefly interrupted). The technical notation for a glottal stop is an apostrophe. [CG 36]

μααγ (mother) = *ma'u*  
 μεεγε (think) = *me'we*  
 τηηβε (finger) = *tā'be*  
 ετοοτ-̄ (to her) = *eto'ts*  
 τωωβε (mud brick) = *tō'be*

But the sequence οογ is ambiguous, for in some words it = *o'u* (χοο-γ = say them) while in others it = *ow* (χο-ογ = sow them).

**10.** *Stress accent.* Within each bound group the main stress (tonic) accent probably fell on the last or next to last syllable of the group. If this syllable occurs in an Egyptian Coptic morph and if it contains the letter η, ο, or ω, or a double vowel (9) the stress accent probably fell on that sound. (But many bound groups do not contain these letters, or else they end with a Greco-Coptic morph: in such cases, more complicated theories are required.) [CG 32]

### SOME REGULAR REPLACEMENTS

**11.** *̄- Instead of ̄-.*

i. The morphs spelled ̄- (in all their meanings) [CG 21]

̄- = to, for  
 ̄- = of  
 ̄- = the (plur.)

become ̄- before π or non-syllabic м (i.e. м without superlinear stroke). Thus

̄- + πετροс becomes ̄-πετροс = to Peter  
 ̄- + π-ειωτ becomes ̄-π-ειωτ = of the father  
 ̄- + μααγ becomes ̄-μααγ = the mothers

ii. ̄- = to, for, of, becomes ̄- also before ψ and φ.

̄- + ψυχη нιμ becomes ̄-ψυχη нιμ = to or of every soul  
 ̄- + φιλοσοφος нιμ becomes ̄-φιλοσοφος нιμ = to or of every philosopher

## SCRIBAL SIMPLIFICATIONS

iii. The preposition 2̄- (= in) becomes 2̄- before π, or non-syllabic м, or ψ, or φ. Thus

2̄- + π-ηī becomes 2̄-π-ηī = in the house  
 2̄- + ψυχη нιμ becomes 2̄-ψυχη нιμ = in every soul

Final ̄- of the prenominal state of compound prepositions (55) is normally replaced by ̄- before a following π, ψ, φ, or non-syllabic м. Thus ετ̄- but ετ̄-π-ειωτ = to the father, ετ̄-ψυχη нιμ = to every soul; εχ̄- but εχ̄-π-κοσμος = upon the world, εχ̄-μαρτυρος сηαγ = upon two martyrs. [CG 21]

**12.** *моγ and νογ Instead of мω and нω.*

Whenever the vowel *ō* forms a syllable with a preceding м or н, it is spelled as ογ. [CG 20] E.g. in the paradigm

πω = "(the) one belonging to" (57)  
 τω =  
 νογ = (instead of нō)

**13.** *м̄т Instead of м̄т.*

Whenever *mt* forms a syllable, it is spelled as м̄т. E.g. ογом = "eat" + -т "me" is written ογом̄т = eat me. [CG 26]

**14.** *г and ̄. Instead of κ or ̄.*

Whenever *k* or syllabic *\*k* forms a syllable with preceding ̄ or н it is spelled as г or ̄, optionally. [CG 23] Thus

̄- + -κ- = ̄г *ng*  
 н- + -̄- = н̄ *ng*

### SOME SCRIBAL SIMPLIFICATIONS

**15.** Scribes sometimes simplify αα to αα, εε to ε, and ογογ to ογ. [CG 24] Thus

на-αα-γ "will do it" can be written as наαγ  
 анок пе-εε- "It is I who ..." as анок петε-  
 ογ-ογннв "a priest" as ογннв

**16.** Scribes often omit the one-letter morph ε- before a morph beginning ̄, ̄, ̄, ̄, or ̄. Thus ε-̄π-̄-сωт̄ without his having chosen is also written simply ̄π̄сωт̄. [CG 25]

# LESSON ONE

## NOMINA SACRA ABBREVIATIONS

**17.** A small set of sacred words are almost always abbreviated and marked with a superlinear stroke, e.g.  $\overline{\text{IC}} \overline{\text{PEXC}} (= \text{ICOCYCE} \text{PEXCISTOC})$  Jesus Christ. You will encounter them in printed editions as well as manuscripts. [CG 41]

$\overline{\text{AA}} = \text{AAVEIA}$  David (in Old Testament books)

$\overline{\text{EILHM}}, \overline{\text{EIH}} \text{ etc.} = \text{TZIEPOYCALHM}$  Jerusalem

$\overline{\text{IH}} = \text{ICPAH}$  Israel

$\overline{\text{IC}}, \overline{\text{IHC}} = \text{ICOCYCE}$  (i) Jesus, (ii) Joshua

$\overline{\text{CPOC}} = \text{CTAYPOC}$  cross

$\overline{\text{CPOY}} = \text{CTAYPOY}$  crucify

$\overline{\text{XC}}, \overline{\text{XPC}} =$  (i)  $\text{XCISTOC}$  Christ, (ii)  $\text{XCISTOC}$  excellent

# EXERCISES 1

A. Carefully write the letters of the Coptic alphabet in alphabetical order, three times. Study minutely the photograph above of a fifth-century manuscript to see how the letters are formed. A magnifying glass may be helpful.

B. Write in Coptic letters. Consult box "Some Spelling Conventions" (above) for the spellings of i and w.

ba	ia	ka	la	ma	na	pa	ra	sa	ta	wa	ša	fa	ha	ja	k <sup>y</sup> a
be	ie	ke	le	me	ne	pe	re	se	te	we	še	fe	he	je	k <sup>y</sup> e
bā	iā	kā	lā	mā	nā	pā	rā	sā	tā	wā	šā	fā	hā	jā	k <sup>y</sup> ā
bi	ii	ki	li	mi	ni	pi	ri	si	ti	wi	ši	fi	hi	ji	k <sup>y</sup> i
bo	io	ko	lo	mo	no	po	ro	so	to	wo	šo	fo	ho	jo	k <sup>y</sup> o
bu	iu	ku	lu	mu	nu	pu	ru	su	tu	wu	šu	fu	hu	ju	k <sup>y</sup> u
bō	iō	kō	lō	mō	nō	pō	rō	sō	tō	wō	šō	fō	hō	jō	k <sup>y</sup> ō

C. Read aloud the following words. (Hint: underlined syllables receive the stress accent; you should be able to figure out the others 10.)

a.  $\overline{\text{WA}}, \overline{\text{WO}}, \overline{\text{WU}}, \overline{\text{WOU}}-, \overline{\text{WI}}, \overline{\text{VAL}}, \overline{\text{VOL}}, \overline{\text{WOL}}, \overline{\text{VHL}}, \overline{\text{WLE}}, \overline{\text{WRE}}, \overline{\text{WNE}}, \overline{\text{WE}}, \overline{\text{WY}}-, \overline{\text{WB}}-, \overline{\text{WAB}}, \overline{\text{WIBE}}, \overline{\text{WOUWOU}}, \overline{\text{WINE}}, \overline{\text{WIK}}. b.  $\overline{\text{WHRE}}, \overline{\text{WEERE}}, \overline{\text{WARE}}-, \overline{\text{WAPPE}}, \overline{\text{WONE}}, \overline{\text{WIPPE}}, \overline{\text{WINE}}, \overline{\text{WOOP}}, \overline{\text{WY}}-, \overline{\text{WY}}-, \overline{\text{WWE}}, \overline{\text{WDOM}},$$

# EXERCISES ONE

$\overline{\text{KAM}}, \overline{\text{BOM}}, \overline{\text{KIM}}, \overline{\text{BIN}}, \overline{\text{KITE}}, \overline{\text{BINE}}, \overline{\text{CINE}}, \overline{\text{WINE}}, \overline{\text{CMINE}}, \overline{\text{WMIN}}. c. \overline{\text{COLC}}, \overline{\text{TOBT}}, \overline{\text{ZE}}, \overline{\text{ZA}}, \overline{\text{ZO}}, \overline{\text{ZW}}, \overline{\text{ZI}}, \overline{\text{ZOKZK}}, \overline{\text{BE}}, \overline{\text{BW}}, \overline{\text{BOMB}}, \overline{\text{T}}, \overline{\text{TO}}, \overline{\text{TONTN}}, \overline{\text{XO}}, \overline{\text{XW}}, \overline{\text{XI}}. d.  $\overline{\text{XOOC}}, \overline{\text{XWX}}, \overline{\text{WORWR}}, \overline{\text{BOXBX}}, \overline{\text{KOCKC}}, \overline{\text{POTPT}}, \overline{\text{WOWWQ}}, \overline{\text{TATZT}}, \overline{\text{N-}}, \overline{\text{NN-}}, \overline{\text{MPHYE}}, \overline{\text{NMPHYE}}, \overline{\text{KHYE}}, \overline{\text{NKHME}}, \overline{\text{ZNKHME}}, \overline{\text{RMNKHME}}, \overline{\text{MNTRMNKHME}}, \overline{\text{TMNTRMNKHME}}, \overline{\text{NTMNTRMNKHME}}. e.  $\overline{\text{TZIME}}, \overline{\text{EIME}}, \overline{\text{PROME}}, \overline{\text{PAI}}, \overline{\text{PAEI}}, \overline{\text{PHI}}, \overline{\text{PZO}}, \overline{\text{FO}}, \overline{\text{QWOT}}, \overline{\text{SME}}, \overline{\text{SKW}}, \overline{\text{KEIME}}, \overline{\text{TETME}}, \overline{\text{TME}}, \overline{\text{TODADA}}. f.  $\overline{\text{CBBE}}, \overline{\text{CBBE}}, \overline{\text{CABH}}, \overline{\text{CABEEYE}}, \overline{\text{NBE}}, \overline{\text{MMHNE}}, \overline{\text{RPHYE}}, \overline{\text{LZHM}}, \overline{\text{OWW}}, \overline{\text{OWWH}}, \overline{\text{OWOEI}}, \overline{\text{OWWOW}}, \overline{\text{WW}}, \overline{\text{AAQ}}, \overline{\text{EIRE}}, \overline{\text{EINE}}, \overline{\text{EIME}}, \overline{\text{EIVE}}. g.  $\overline{\text{AN}}, \overline{\text{ON}}, \overline{\text{OYN}}, \overline{\text{OYN-}}, \overline{\text{ZN-}}, \overline{\text{ZEN-}}, \overline{\text{ZWN}}, \overline{\text{ZHN}}, \overline{\text{CAN-}}, \overline{\text{CON}}, \overline{\text{EW-}}, \overline{\text{AW}}, \overline{\text{WY}}, \overline{\text{WY-}}, \overline{\text{PETEWW}}, \overline{\text{EPETEWW}}, \overline{\text{NOWPETEWW}}. h.  $\overline{\text{MAAY}}, \overline{\text{AAAY}}, \overline{\text{MEEYE}}, \overline{\text{SEEP}}, \overline{\text{THNBE}}, \overline{\text{MHNWE}}, \overline{\text{ETOOTC}}, \overline{\text{XOOC}}, \overline{\text{NOYOC}}, \overline{\text{TOWBE}}, \overline{\text{ZOWT}}. i.  $\overline{\text{FILOCOFOS}}, \overline{\text{FONOC}}, \overline{\text{EALACCA}}, \overline{\text{OLIBE}}, \overline{\text{FONOC}}, \overline{\text{HAIRE}}, \overline{\text{HARIC}}, \overline{\text{PSALLEI}}, \overline{\text{XCISTOC}}, \overline{\text{PROME}}, \overline{\text{TETZIME}}, \overline{\text{PEIOT}}, \overline{\text{TMAAY}}, \overline{\text{PCON}}, \overline{\text{TCWNE}}, \overline{\text{PWYHRE}}, \overline{\text{TWEERE}}.$$$$$$$

D. Working with another person, take dictation from this list, writing each word as you hear it.

E. Practice reading aloud the following text (the Lord's Prayer, Luke 11:2-4).

- 1  $\overline{\text{PENEIOT ETZNMPHYE}}$   
 $\overline{\text{MAREPEKPAH OYOP}}$   
 $\overline{\text{MARETEKMNTERO EI}}$   
 $\overline{\text{MAREPEKOWW WAPPE}}$
- 5  $\overline{\text{PENOEIK ETNHY}}$   
 $\overline{\text{TAAQ NAN MMHNE}}$   
 $\overline{\text{KANENNOBE NAN EBOA}}$   
 $\overline{\text{KAIGAP ANON}}$   
 $\overline{\text{TNNKW EBOA NOWON NIM}}$
- 10  $\overline{\text{ETEOYNTAN EPOQ}}$   
 $\overline{\text{AYW MPXITN}}$   
 $\overline{\text{EZOUN EPIRACMO}}$

Here is the same text grammatically divided into morphs. Read it aloud exactly the same way (do not try to pronounce the hyphens between morphs).

$\overline{\text{PEN-EIOT ET}}^{\theta}$ - $\overline{\text{ZN-M}}^{\theta}$ - $\overline{\text{PNHYE}}$	Our-father who-(is)-in-the-heavens
$\overline{\text{MARE-PEK-PAH OYOP}}$	Let-your-name be(come)-holy
$\overline{\text{MARE-TEK-MNT-ERO EI}}$	Let-your-quality-of-king come
$\overline{\text{MARE-PEK-OWW WAPPE}}$	Let-your-wish happen
$\overline{\text{PEN-OEIK ET}}^{\theta}$ - $\overline{\text{NHY}}$	Our-bread which-(is)-coming
$\overline{\text{TAA-Q NA-N MMHNE}}$	Give-it to-us daily

## LESSON ONE

κα-νην-νοβε να-ν εβολ	Put-our-sins for us away
καιγαρ ανον	For we
τη-κω εβολ η-ογον νιμ	We-put away (direct object)-everyone
ετε-ουντα-ν ερο-α	Such-that-have-we (anything) against-him
αγω μη-χιτ-η	And do-not-take-us
εζογν ε-πιρασμος	In to-temptation(s)

F. Read aloud the following personal names. ιησοϋς, μαρια, μαθθαιος, μαρκος, λοϋκας, ιωζαννης, παϋλος, πετρος, αντωνιος, μακαριος, παρωμ, ζωρσινσε, πβωλ, ψενοϋτε, αθανασιος, κυριλλος.

G. Looking ahead to lesson 2, pronounce the following. πρωμε, προϋτ, φοϋτ, τεσζιμε, νεζιομε, πειωτ, ηειοτε, τμααγ, ησον, νεσνηγ, τσωνε, πωηρε, τωεερε, πωηρε ψημ, τωεερε ψημ, πζαϊ, τζιμε, θιμε, πεψβηρ, τεψβεερ, πζεθνος, φεθνος, πλαος, πχοεις, πζμζαλ, τζμζαλ, θμζαλ, τβομ, πεοογ, πταειο, πρρο, πρρωογ, τμντρρο, μμντρρωογ.

H. Copy out some (or all) of the text in the photograph above, which is part of a fifth-century Gospel of Mark.

# LESSON 2

ARTICLES AND WHAT THEY EXPRESS.  
NOUN. PROPER NOUN. OMISSION OF ARTICLE.  
ARTICLE PHRASE. 'AND', 'OR', AND 'OF'.

## ARTICLES AND WHAT THEY EXPRESS

### 18. Coptic distinguishes

two numbers: singular, plural

two grammatical genders: masculine, feminine

two kinds of determination 21: indefinite ("a, some"), definite ("the")

These distinctions are expressed in pronouns

#### Indefinite Pronoun

ογα wa = one, someone (sing. masc.)

ογει wi = one, someone (sing. fem.)

ζοεινε hoyne = some (plur.)

#### Definite (Demonstrative) Pronoun

παϊ = this one, this (sing. masc.)

ταϊ = this one, this (sing. fem.)

ναϊ = these (plur.)

and in articles

#### Indefinite Article

ογ- = a (sing.)

ζεν- = [some]<sup>7</sup> (plur.)

#### Definite Article

π- = the (def. sing. masc.)

τ- = the (def. sing. fem.)

η- or ν- = the (def. plur.)

(Also πε-, τε-, νε- 22.)

<sup>7</sup> ζεν- [some]: In English we often express the indefinite plural by omitting the article before a plural noun: a house (sing.), houses (plur.).

## Definite (Demonstrative) Article

πεῖ- = this (def. sing. masc.)

τεῖ- = this (def. sing. fem.)

νεῖ- = these (def. plur.)

Note that gender is not expressed in the plural, nor in the indefinite singular article ογ-. [CG 42]

**19. Gender.** Every noun has a gender, either masculine or feminine. Gender is not expressed by the form of the noun but can be seen when the noun has a definite singular article. [CG 46, 105-6]

π-ογοειν *pwoin* The lightτ-με *tme* The truth

You should memorize each noun together with its def. sing. article ("π-ρῆμαο the rich man").

The gender of a noun is also expressed when any of the following cross-refers to it; 2d and 3d person sing. personal morphs, gendered cardinal numbers **45**.

The gender of nouns denoting people (and proper names) corresponds to sex.

π-ειωτ *pyōt* (masc.) = the fatherτ-μααυ *tma'u* (fem.) = the motherπ-καζ *pkah* (masc.) = the landτ-με *tme* (fem.) = the truth

Greek masculine and feminine nouns keep their same genders in Coptic; Greek neuters are masculine in Coptic.

π-λαος *plaos* (masc.) = the people ὁ λαόςτ-σαρξ *tsar'ks* (fem.) = the flesh ἡ σὰρξπ-σωμα *psōma* (masc.) = the body τὸ σῶμα

Every verbal infinitive **66** can be used as a masc. noun.

ωνζ (infinitive) = to live, π-ωνζ *pōn'h* (masc. noun) = life

Otherwise the gender of nouns is unpredictable.

A few nouns occur in formal pairs expressing biological sex: ἄρρ, ἄρρω = emperor, empress; κον, κωνε = brother, sister; etc. A very few nouns can be used with either masc. or fem. article: πχοεικ, τχοεικ = the lord, the lady; πζμζαλ, τζμζαλ = the male servant, the female servant. [CG 107]

**20. Number.** For nouns, the distinction of singular/plural is primarily expressed by the article.

ογ-ρωμε = a man, ζεν-ρωμε = men or some men

π-ρωμε = the man, ἡ-ρωμε = the men

But about one hundred nouns also have a *special plural form*, whose use is optional. [CG 108(b)]

π-κον = the brother

ἡ-κον = the brothers

νε-κνηυ = the brothers

The difference in usage between the two plurals is hard to perceive.

*Collective nouns* (naming a collection of individuals, e.g. π-μνηυε = the crowd, τ-πολις = the city) take a singular article but are plural in meaning and can optionally be referred to by plural personal pronouns. E.g. τ-πολις τηρ-κ λυ-κωυζ = As for the (sing.) whole city, they (plur.) gathered. [CG 108(a)]

**21. Determination** ("a" versus "the") can be illustrated by three contrasts in meaning between the indefinite and definite articles. [CG 45]

(a) Unknown versus known

i. ογ- *Indefinite*: unknown to the listener but known to the speaker, as at the beginning of a story.

There was a man (ογ-ρωμε) who had two sons ... (Luke 15:11)

ii. π- *Definite*: known or anticipated by both listener and speaker.

A cloud (ογ-κλοολε) came ... And a voice came out of the cloud (τε-κλοολε) (Luke 9:34-35)

πε-πνευμα ετ<sup>θ</sup>-ογααβ The Holy Spirit

τ-μῆτ-ερο ἡ- ... The kingdom of ...

(b) Individual versus class

i. ογ- *Indef.*: one or more limited instances of a class.

ογ-ρωμε = a man ζεν-ρωμε = some men

ογ-μοου = some water

ογ-εου = glory (on one particular occasion)

ογ-νουβ = some gold or a golden coin

ογ-οεικ = a loaf of bread or some bread

## LESSON TWO

ii. π- *Def.*: the class name of an entity.

π-μοοϋ = water (as such)

π-σοφος = a wise person (as a type)

π-ρωμε = humankind

π-πονηρον = evil (as such)

π-νοϋβ = gold

Or the name of a unique entity.

τ-πε = the sky

πε-ροοϋ = daytime

(c) Ordinary versus typical

i. οϋ- *Indef.*: an ordinary instance.

π-θε π-οϋ-ωνρε = like a child

ii. π- *Def.*: the most typical instance.

π-νομος = the Law

π-νοϋτε = God

Note that the Coptic use of "a" and "the" does not exactly correspond to English usage!

*Composite noun formation.* Gendered prefixes forming composite nouns are the following. [CG 109]

βω-π- (fem.), species of tree or vine: χοειτ = olive, βω-π-χοειτ = olive tree.

ειεπ- (fem.), artifacts: νοϋβ = gold, ειεπ-νοϋβ = goldwork.

μα-π- (masc.), 'place of': ελοολε = vine, μα-π-ελοολε = vineyard.

μντ- (fem.), denoting abstracts. νοϋτε = God, μντ-νοϋτε = divinity.

πετ- (masc.), one who is . . . : ροοϋ = be evil, π-πετ-ροοϋ = the evil one.

σα-π- (masc.), maker or dealer: χηβε = purple dye, σα-π-χηβε = seller of purple goods.

οϋπ-, οϋπ-π-, ρε- (masc.), arithmetical fractions. ωομντ = three, οϋπ-ωομντ = one third.

ωοϋ- (masc. only?), one who is worthy of . . . : μεριτ-π = love him, ωοϋ-μεριτ-π = worthy of being loved.

ζαμ-, ζαμ-π- (masc.), types of artisan: ωε = wood, ζαμ-π-ωε = carpenter.

ροϋε-, ροϋο- (masc.), excess of, excessive, greater: ςζαἰ = learning, ροϋε-ςζαἰ = excessive learning.

βιν- (fem.), nouns referring to action. οϋωμ = eating, βιν-οϋωμ = diet, foodstuff.

## 22. Alternative forms of the simple articles.

(a) The indefinite singular article οϋ- is replaced by γ- after the morphs α- or ε-. [CG 50]

## THE PROPER NOUN

α-γ-δογμα ει εβολ = a decree (οϋ-δογμα) went out  
ε-γ-ζειετ = into a pit (οϋ-ζειετ)

(b) The simple definite article π-, τ-, π- is replaced [CG 52] by the long definite article

πε-, τε-, νε- = the

i. Before nouns beginning with two consonants, the second of which would not have a superlinear stroke.

πε-πρεσβυτερος = the elder, the priest

τε-χαρις [te-kharis] = the gift

νε-προφητης = the prophets

ii. Before nouns beginning with a syllabic consonant

ππε = temple, πε-ρπε = the temple

(and the syllabic consonant loses its superlinear stroke).

iii. Before ροοϋ (masc.) = day and ρομπε (fem.) = year.

(c) If νε- is not required, then the def. plur. π- is replaced by π- before π or non-syllabic μ.

π-πονηρον = the evil ones, π-μαλγ = the mothers

## PROPER NOUNS

23. Proper nouns—names of persons, places, months, etc.—mostly occur without any article and are largely used like a definite pronoun or definite article phrase. [CG 126–36] Each proper noun has a gender. Thus

ιωζαννης (masc.) John is treated like παἰ or πρωμε  
μαρια (fem.) Mary is treated like ταἰ or τεσζιμε

*The special grammar of proper nouns* [CG 129]

1. They are modified by apposition rather than the attributive construction 36. E.g. αβελ παικαιος = Abel the just.
2. A proper noun in apposition to an indefinite or demonstrative term must be introduced by χε-. E.g. ογα χε-σιμων = a certain person named Simon.
3. Proper nouns do not appear as predicate of a 1st or 2d person nominal sentence 32 (I am, you are); other constructions are used instead.
4. When a proper noun comes before a 1st or 2d person subject it is preceded by ανοκ (πτοκ etc.). E.g. ανοκ παυλος αἰ-ςζαἰ = I, Paul, have written.
5. A repeated proper noun calls attention to the speaker. E.g. αβραζαμ αβραζαμ = Abraham, Abraham!

## LESSON TWO

But some place names always occur with a sing. def. article:

τ-ΓΑΛΙΛΑΙΑ = Galilee  
π-ΙΣΡΑΗΛ (abbreviated ΠΙΝΛ) = Israel  
ΘΙΕΡΟΥΣΑΛΗΜ (abbreviated ΘΛΗΜ) Jerusalem

### OMISSION OF ARTICLE

**24.** Omission of article (where otherwise the indef. or def. article could occur) enables a speaker to be non-committal about gender, number, and determination. [CG 47–48] There is no single equivalent in English; often several English translations are implied, as illustrated below. Omission of the article typically occurs:

(a) *To provide general meaning in a compound expression.*

†-ΒΑΠΤΙΣΜΑ = give-baptism/give-baptisms, i.e. to baptize

(b) *To predicate a characteristic of someone or something.*

They took them *captive* (ΑΙΧΜΑΛΩΤΗΣ)

God sent him as *ruler* (ΑΡΧΩΝ)

Make yourself *rich* (ΡΪΜΑΟ)

(c) *In generalizations.*

ΜΗΝΤΕ-ΠΡΟΦΗΤΗΣ ΤΑΕΙΟ = No prophets have (No prophet has, A prophet does not have, Prophets do not have) honors (honor, any honor)

ΠΡΟΦΗΤΗΣ = prophet, prophets, any prophet

ΤΑΕΙΟ = honors, honor, any honor

(d) *In negative expressions.*

ΑΧΝ-ΦΟΒΟΣ = fearlessly (without fear, fears)

ΜΠΝ-ΩΙΝΕ ΝΣΑ-ΕΟΟΥ We did not seek honors (honor, any honor)

(e) *In comparisons and distributive ideas.*

ΖΩΣ-ΠΡΟΦΗΤΗΣ As a prophet

ΚΑΤΑ-ΩΑ At every feast (at the feast, feast by feast, at feasttime).

Omission of article is also non-committal about gender. Thus cross-references to a feminine noun without article can be made by the sing. masculine personal morph q, since masculine is the general (non-committal) gender. E.g. ΑΓΑΠΗ Ε-ΝΑΑΑ-q Ε-ΤΑΙ = greater love than this. [CG 48]

**25.** “Zero article”; the symbol <sup>0</sup>. [CG 47] In grammatical analysis an omitted article (where otherwise the indef. or def. article could occur) is called a ‘zero article’

## ‘AND’, ‘OR’, AND ‘OF’

(meaningful absence of article) and will be notated by a superior zero (<sup>0</sup>), e.g. †-<sup>0</sup>ΒΑΠΤΙΣΜΑ = baptize, ΑΧΝ-<sup>0</sup>ΦΟΒΟΣ = fearlessly, ΜΗΝΤΕ-<sup>0</sup>ΠΡΟΦΗΤΗΣ <sup>0</sup>ΤΑΕΙΟ = No prophets have honors etc. 103(i).

### THE ARTICLE PHRASE

**26.** The combination of article + noun, including the zero article, is called the *article phrase*. [CG 43] Definite and indefinite pronouns such as παῖ or οὐα, proper nouns, and certain other items are interchangeable with article phrases in grammar. [CG 141–51]

## ‘AND’, ‘OR’, AND ‘OF’

**27.** Expressions for ‘And’ before an article phrase etc. [CG 145]

(a) ΖΙ- = and, used before absence of article (zero article).

<sup>0</sup>ΜΑΕΙΝ ΖΙ-<sup>0</sup>ΩΠΗΡΕ = signs and wonders

<sup>0</sup>ΖΟΟΥΤ ΖΙ-<sup>0</sup>ΣΖΙΜΕ = males and females

(b) ΜΝ- = and, used before an indefinite or definite article, and before an indefinite or definite pronoun.

ΖΕΝ-ΜΑΕΙΝ ΜΝ-ΖΕΝ-ΩΠΗΡΕ = signs and wonders

Μ-ΜΑΕΙΝ ΜΝ-ΝΕ-ΩΠΗΡΕ = the signs and the wonders

ΝΕΪ-ΜΑΕΙΝ ΜΝ-ΝΕΪ-ΩΠΗΡΕ = these signs and these wonders

(c) ΑΥΩ = and, used under both of these conditions.

ΠΕ-ΣΜΟΥ ΜΝ-Π-ΕΟΟΥ ΜΝ-Τ-ΣΟΦΙΑ ΑΥΩ Τ-ΕΥΧΑΡΙΣΤΙΑ = glory and honor and wisdom and thanksgiving

<sup>0</sup>ΜΑΕΙΝ ΑΥΩ <sup>0</sup>ΩΠΗΡΕ = signs and wonders

ΖΕΝ-ΜΑΕΙΝ ΑΥΩ ΖΕΝ-ΩΠΗΡΕ = signs and wonders

ΝΕΪ-ΜΑΕΙΝ ΑΥΩ ΝΕΪ-ΩΠΗΡΕ = these signs and these wonders

(d) ΝΜΜΑ = completed by a personal suffix (to be studied in 51–52) = and.

ΠΑΥΛΟΣ ΝΜΜΑ-Ν = Paul and us

**28.** Expressions for ‘Or’ before an Article Phrase etc. [CG 145]

Η = and, or

ΕΙΤΕ ... ΕΙΤΕ = either ... or

ΧΝ- = or else, or (exclusive)

ΟΥΔΕ = nor

ΟΥΤΕ ... ΟΥΤΕ = neither ... nor

negation + ΑΛΛΑ = not ... but rather

For example, π-ΝΟΜΟΣ Η ΝΕ-ΠΡΟΦΗΤΗΣ = the law and the prophets, ΒΑΡΑΒΒΑΣ ΧΝ-ΙC Barabbas or Jesus, ΟΥΤΕ Θ200ΥΤ ΟΥΤΕ ΘC2ΙΜΕ = neither male nor female.

## 29. Expressions for 'Of' before an Article Phrase etc.

(a) Ordinarily, 'Of' (a very general kind of relationship) is expressed by  $\bar{n}$ - ( $\bar{m}$ - before π, ψ, φ, or non-syllabic  $\bar{m}$ ). [CG 147]

τ-ΜΑΛΥ  $\bar{n}$ -ΙC (i.e.  $\bar{n}$ -ΙΗΣΟΥC) = the mother of Jesus, Jesus' mother  
π-ΗΙ  $\bar{n}$ -ΟΥΠΡΟΦΗΤΗΣ = the house of a prophet, a certain prophet's house  
ΖΕΝ-ΩΗΡΕ  $\bar{n}$ -ΤΕΙ-C2ΙΜΕ = children of this woman, some of this woman's children  
ΖΕΝ-ΩΗΡΕ  $\bar{n}$ -Τ-2Μ2ΑΛ = children of the maidservant, some of the maidservant's children  
π-ΗΙ  $\bar{m}$ -Π-ΧΟΕΙC = the house of the Lord, the Lord's house  
π-ΧΟΕΙC  $\bar{m}$ -Π-ΗΙ = the lord of the house, the house's owner  
π-ΧΟΕΙC  $\bar{m}$ -Π-ΕΟΟΥ Μ $\bar{n}$ -Π-ΤΑΕΙΟ = the Lord of glory and honor  
Τ-ΒΟΜ  $\bar{m}$ -ΠΕΟΟΥ  $\bar{n}$ -Τ-Μ $\bar{n}$ Τ-ΡΡΟ  $\bar{m}$ -Π-ΧΟΕΙC = the power of the glory of the kingdom of the Lord

(b)  $\bar{n}$ ΤΕ- 'Of' [CG 148] can be optionally used to express appurtenance—the natural relation of part to whole, component to system, offspring to source. It is fairly rare.

$\bar{m}$ -ΜΕΛΟC  $\bar{n}$ ΤΕ-Π-CΩΜΑ = the parts of the body  
ΟΥ-ΠΟΛΙC  $\bar{n}$ ΤΕ-Τ-ΓΑΛΙΛΑΙΑ = a city of Galilee  
ΠΕΙ-ΟΥΧΑΙ  $\bar{n}$ ΤΕ-Π-ΝΟΥΤΕ = this salvation from God

*Repetition of an article phrase signals the following.*

(a) Definite article phrase repeated = *Each, Every, Each and every*

π-ΡΩΜΕ π-ΡΩΜΕ = Each man  
Τ-ΟΥΕΙ Τ-ΟΥΕΙ = Each one, each female  
Π-ΗΙ Π-ΗΙ = Each and every house  
ΝΕΙ-ΤΑΕΙΟ ΝΕΙ-ΤΑΕΙΟ = These various honors, Each and every one of these honors

(b) Zero article phrase repeated = *One... after another...*

ΘΡΩΜΕ ΘΡΩΜΕ = One person after another, Person by person  
ΘΜΑ ΘΜΑ = One place after another  
Θ200Υ Θ200Υ = Day by day

(c) Bare cardinal number 45 repeated = *... by...*

CΝΑΥ CΝΑΥ = Two by two

π-, τ-, ἡ-	the (18)
πε-, τε-, νε-	the (22)
παῖ, ταῖ, ναῖ	this one, these (18)
πεῖ-, τεῖ-, νεῖ-	this . . . , these . . . (demonstrative article, used like π-, τ-, ἡ-) (18)
οὐ- (or γ- 22), γεν-	a, some, plural often untranslated (18)
οὐα, οὐει, ροεινε	one, someone, some (18)
ἡ- or ἡ-	of (29)
ἡτε-	of (29)
αὐω	and (27)
ῥι-	and (27)
ἡ-	and (27)

\*Greco-Coptic words are starred (\*) in the vocabulary lists. Note that some Greek words that begin with a smooth breathing, such as ἔθνος *ethnos*, have come into Coptic with initial ρ: ρεθνος *het-hnos*. Thus ρελπισ (ἐλπίς), ραμην (ἀμήν), etc.

# EXERCISES 2

Translate each item, giving alternate translations where possible<sup>8</sup>.

A. a. παῖ. οὐα. π-χοειс. οὐ-χοειс. τ-бом. οὐ-бом. b. γεν-бом. γεν-εοογ ἡ-γεν-ταειο. γεν-εοογ αὐω γεν-ταειο. π-εοογ ἡ-π-ταειο. c. \*εοογ ρι-ταειο. \*сон ρι-сωνε. παῖ ἡ-ναῖ. τεῖ-сριме ἡ-παῖ. d. οὐει. νεῖ-ειοτε. ροεινε. ἡ-ειωτ. ἡ-ειοτε. νεῖ-ειωτ. e. πε-ψвнр. не-ψвнр. не-ψвеер. ἡ-ἡнт-ῥро. ἡ-μαаγ. τεῖ-мааγ. f. π-ραῖ ἡ-θιμε. οὐ-ψнре ψнм αὐω οὐ-ψеере ψнм. \*εοογ αὐω \*таειο. \*роογт ρи-сριме. g. πε-срос ἡ-ис πε-хс.

B. Translate into Coptic. a. Man and woman. b. Husband and wife. c. Men and women. d. The women. e. The brothers. f. The mothers. g. (Any) man (or men) and (any) woman (or women). h. These men and these women. i. A friend. j. Friends. k. The friends. l. The kingdoms. m. These kingdoms. n. The servants. o. Some servants. p. Honor and glory. q. A son and a daughter. r. Sons and daughters. s. Either a son or a daughter.

C. Translate. a. π-λαос ἡ-π-χοειс. π-χοειс ἡ-π-лаос. b. π-εοογ ἡ-τε-сριме. τ-ρμα ἡ-π-ῥро. π-ρμα ἡ-не-ῥроу. c. ἡ-ψнре ἡ-τεῖ-сριме. d. не-ψвнр ἡ-т-ἡнт-ῥро ἡ-π-χοειс. e. ἡ-бом ἡ-те-π-χοειс. f. π-ψнре ἡ-п-ρωме. g. τ-бом ἡ-те-πεῖ-лаос. h. π-лаос ἡ-τεῖ-бом.

D. Translate into Coptic. a. The father of this nation. b. John's father. c. The house of Mary. d. Mary's house. e. John and Mary's house. f. The nation of these women and the power of the emperor. g. (Any/Some) servants of this man. h. The lord's friends. i. The slave's sister. j. Some men of this kingdom. k. Male and female. l. The fear of the Lord. m. The door of this house.

<sup>8</sup> Although you may write out the exercises, it's very important to practice until you can do them without looking at written notes.

# LESSON 3

## POSSESSIVE ARTICLE. SIMPLE NOMINAL SENTENCE.

30. The possessive article follows the pattern π-τ-ν that was seen in the simple definite article. [CG 54]

	sg. masc.	sg. fem.	pl.
my	πα-	τα-	να-
your (sing. masc.)	πεκ-	τεκ-	νεκ-
your (sing. fem.)	πογ-	τογ-	νογ-
his	πεq-	τεq-	νεq-
her	πεc-	τεc-	νεc-
our	πεν-	τεν-	nen-
your (pl.)	πετν̄-	τετν̄-	νετν̄-
their	πεγ-	τεγ-	νεγ-

Thus with ειωτ (masc.) = father, μααγ (fem.) = mother, and η̄ = house:

my	πα-ειωτ	τα-μααγ	να-η̄
your (sing. masc.)	πεκ-ειωτ	τεκ-μααγ	νεκ-η̄
your (sing. fem.)	πογ-ειωτ	τογ-μααγ	νογ-η̄
his	πεq-ειωτ	τεq-μααγ	νεq-η̄
her	πεc-ειωτ	τεc-μααγ	νεc-η̄
our	πεν-ειωτ	τεν-μααγ	nen-η̄
your (pl.)	πετν̄-ειωτ	τετν̄-μααγ	νετν̄-η̄
their	πεγ-ειωτ	τεγ-μααγ	νεγ-η̄

The initial letters π, τ, ν express definite determination and the number/gender of the following noun. The personal marks α, εκ, ογ, eq, ec, εν, ετν̄, εγ express the person, number, and gender of the possessor:

π-α-ειωτ = the + of-me + father = my father.  
 π-ec-ειωτ = the + of-her + father = her father.  
 τ-εκ-μααγ = the + of-you [sing. masc.] + mother = your mother.  
 π-ογ-ειωτ = your (sing. fem.) father.  
 τ-ογ-μααγ = your (sing. fem.) mother.  
 ν-α-η̄ = my houses.

## THE SIMPLE NOMINAL SENTENCE

πα-ειωτ my father, τα-c2ime my wife, να-cνηγ my brothers, νεq-cνηγ his brothers, νετν̄-cνηγ your (pl.) brothers, πογ-η̄ your (sing. fem.) house, πεκ-η̄ your (sing. masc.) house, πετν̄-η̄ your (pl.) house, νεκ-ωεερε ωημ your (sing. masc.) female children, etc.

Since the possessive article expresses definite meaning like π-, τ-, ν-, indefinite meaning plus possessor must be expressed as ογ-η̄ ντα-q, "a house of his," ογ-η̄ ντε-πνογτε "a house of God's." ντε-/ντα- is declined like a preposition (lesson 7). [CG 61]

## THE SIMPLE NOMINAL SENTENCE

31. Minimally, Coptic nominal sentences consist of a pronoun as subject and an article phrase as predicate.

αν̄-λογ-q̄ντ = I am a worm (I a-worm)  
 subject + predicate

ογ-q̄ντ | πε = He is a worm (a-worm he)  
 predicate + subject

αν̄-λογ-προφητc = I am a prophet (I a-prophet)  
 subject + predicate

ογ-προφητc | πε = he is a prophet (a-prophet he)  
 predicate + subject

*Subject and predicate.* By definition, the subject presents (or reminds the reader of) the topic that is being discussed; it is familiar, or at least presupposed, information. The predicate states new information about the subject. You should bear in mind that, in the broader view, the term predicate does *not* necessarily mean 'verbal part of the sentence'. Rather we may conveniently say that the subject is the topic of conversation and the predicate is the comment that is made about it—and that languages differ in the ways they connect the topic and the comment. [CG 247]

Note that the Coptic nominal sentence does not contain a verb. In this, Coptic is different from our familiar Indo-European languages, which employ a copula verb *to be* (être, sein, εἶναι, esse, etc.) to connect subject and predicate. Indeed, in translating a Coptic nominal sentence into English we always *add* the English copula verb: "I *am* a prophet" (Coptic: I-a prophet), for Coptic has none. [CG 252]

32. The simplest nominal sentence has only two components. [CG 252, 263-67]

- i. A personal subject pronoun as subject (I, you, he, etc.)
- ii. An article phrase or other eligible item as predicate (a prophet, prophets, the prophet of God, this one, John, etc.)

The *personal subject pronouns* are

αν̄ρ-	...	= I
ν̄τκ-	...	= you (sing. masc.)
ν̄τε-	...	= you (sing. fem.)
...	πε	= he, it
...	τε	= she, it
αν-	οἱ ἀνόν-	... = we
ν̄τετν̄-	...	= you (pl.)
...	νε	= they

and

... πε [invariable] it (impersonal)<sup>9</sup>

Thus

αν̄ρ-οὐ-προφήτης = I am a prophet  
 ν̄τκ-οὐ-προφήτης = you (sing. masc.) are a prophet  
 ν̄τε-οὐ-προφήτης = you (sing. fem.) are a prophet  
 οὐ-προφήτης πε = he is a prophet  
 οὐ-προφήτης τε = she is a prophet  
 αν-ζεν-προφήτης οἱ ἀνόν-ζεν-προφήτης = we are prophets  
 ν̄τετν̄-ζεν-προφήτης = you (pl.) are prophets  
 ζεν-προφήτης νε = they are prophets

Into this paradigm we can insert any appropriate article phrase, pronoun, or other eligible item as the predicate.

αν̄ρ-οὐ-ζῆζαλ	αν-ζεν-μ̄ντρε
ν̄τκ-π-ῤρο	ν̄τετν̄-νε-προποφήτης
ν̄τε-τ-μααγ	
πес-сon πε	ναῖ νε
μαρια τε	

Literal translations:

I-a-servant                      we-(some)-witnesses  
 you-the king                    you-the-prophets  
 you-the-mother

<sup>9</sup> Sometimes πε corresponds to the expletive pronoun, "It is I who am the light of the world"; "It is winter."

her-brother he                      these they  
 Maria she

I.e. "I am a servant, you are the king, you are the mother, he is her brother, she is Mary, we are witnesses, you are the prophets, they are these (they are the following)."

33. Obviously two different patterns are united in the nominal sentence. (a) The 1st or 2d person subject pronoun (αν̄ρ- etc.) always comes first, immediately followed by the predicate. (b) The 3d person subject pronoun (πε, τε, νε) always comes after the predicate, and is connected more loosely.

(a) αν̄ρ- ...

(b) ... πε

Note carefully where a hyphen (-) does and does not occur. When two words, e.g. the predicate and subject (πεπροφήτης πε), are *not* connected by a hyphen we call this an *open group*, and it can be interrupted by another word or phrase, such as a connective particle or an 'Of' construction.

οὐ-сζιμε γαρ τε = For (γάρ), she is a woman

τ-μααγ ν̄-ιωζαννης τε = She is the mother of John

and

τ-μααγ τε ν̄-ιωζαννης = She is the mother of John

But where subject and predicate are connected by a hyphen they form a *bound group* 8 and cannot be interrupted.

αν̄ρ-οὐ-сζιμε γαρ = For, I am a woman

ν̄τε-τ-μααγ δε ν̄-ιωζαννης = And you are the mother of John

*Restrictions on the predicate.* The following may *not* occur as predicate with a 1st and 2d person subject pronoun: noun with absence of article, demonstrative, proper noun, and cardinal number or other specifier (except οὐα meaning 'such a one' and νιμ 'who?'). But the predicate with a 3d person subject pronoun is not restricted. [CG 259]

34. *Negation.* Nominal sentences are negated by inserting αν after the predicate. With 1st and 2d person subject pronoun:

αν̄ρ-οὐ-сζιμε αν = I am not a woman

αν̄ρ-οὐ-сζιμε γαρ αν = For, I am not a woman

ν̄τε-τ-μααγ αν = You are not the mother

ν̄τε-τ-μααγ αν ν̄-ιωζαννης = You are not John's mother

# LESSON THREE

ΝΤΕ-Τ-ΜΑΛΥ Ν-ΙΩΖΑΝΝΗΣ ΑΝ = You are not John's mother

In the simple 3d person pattern, ΑΝ always comes between the predicate and πε/τε/νε.

ΟΥ-ΕΖΙΜΕ ΑΝ ΤΕ = She is not a woman

ΟΥ-ΕΖΙΜΕ ΓΑΡ ΑΝ ΤΕ = For, she is not a woman

Τ-ΜΑΛΥ ΑΝ ΤΕ = She is not the mother

Τ-ΜΑΛΥ Ν-ΙΩΖΑΝΝΗΣ ΑΝ ΤΕ = She is not John's mother

Τ-ΜΑΛΥ ΑΝ Ν-ΙΩΖΑΝΝΗΣ ΤΕ = She is not John's mother

Sometimes the negative prefix Ν- (Ν- before π or non-syllabic μ) is also used. In the 1st and 2d person pattern, Ν- is prefixed (optionally) to the subject pronoun ΑΝΓ- (etc.): (Ν-) ... ΑΝ.

Ν-ΑΝΓ-ΟΥ-ΕΖΙΜΕ ΑΝ = I am not a woman

In the 3d person pattern, Ν- is prefixed (optionally) to the predicate:

Ν-ΟΥ-ΕΖΙΜΕ ΑΝ ΤΕ = She is not a woman

Optional negative Ν- occurs more frequently in the 3d person pattern.

## Long spellings of the 1st and 2d person subject pronouns:

ΑΝΟΚ- = ΑΝΓ-

ΝΤΟΚ- = ΝΤΚ-

ΝΤΟ- = ΝΤΕ-

ΑΝΟΝ- = ΑΝ-

ΝΤΩΤΝ- = ΝΤΕΤΝ-

Of these, ΑΝΟΝ- is especially common (perhaps the usual form).

# VOCABULARY 3

## Authority, power (continued)

Π-ΡΗΜΑΟ

rich person (man or woman)

Π-ΖΑΠ

judgement

\*Π-ΑΠΟΣΤΟΛΟΣ

apostle

\*Τ-ΕΞΟΥΣΙΑ

authority, ability

\*ΠΕ-ΘΡΟΝΟΣ

throne

\*ΠΕ-ΠΡΕΣΒΥΤΕΡΟΣ

elder, (Christian) priest

## Daily life

Π-ΘΕΙΚ

bread, loaf

Π-ΜΟΥ, pl. ΜΟΥΕΙΟΟΥΕ

water

Π-ΩΝΕ

stone

Π-ΧΟΪ, pl. ΕΧΗΥ

boat

Π-ΚΩΖΤ

fire

\*Τ-ΠΟΛΙΣ

city, polis

\*Π-ΚΑΡΠΟΣ

fruit, crop, profit

## Religion, ethics

Π-ΝΟΥΤΕ

god; God (always Π-ΝΟΥΤΕ)

ΙΗΣΟΥΣ (abbrev. ΙC or ΙΗΣ, 17)

Jesus

\*ΠΕ-ΧΡΙΣΤΟΣ (abbrev. ΠΕ-ΧC or ΠΕ-ΧΡC)

Christ, anointed

\*Π-ΑΓΓΕΛΟΣ

angel

Π-ΝΟΒΕ

sin

\*Π-ΒΑΠΤΙΣΜΑ

baptism

Π-ΟΥΧΑΪ

salvation, health

Π-ΩΝΖ

θάνατος

ἀλήθεια

βλασφημία

φῶς

σκοτία, σκότος

### LESSON THREE

π-μῆτρε	witness	μάρτυς
τ-μῆτ-μῆτρε	testimony	μαρτυρία
πε-ρπε, pl. ῥπnyε	temple	ἱερόν, ναός
*π-αρχιερεὺς	high priest	
*π-σαββατον	Sabbath	
*τ-συναγωγῇ	synagogue	
*π-δικαίος	just person, righteous person	
	(man or woman)	
*πε-προφήτης	prophet	

*Optional:* Learn the gendered prefixes forming composite nouns (above, box).

## EXERCISES 3

A. Translate. a. πα-ζαπ. b. τα-εξοῦσια. c. πεс-ζαп. d. τεq-εξοῦσια. e. πεк-ζαп. f. тек-εξοῦσια. g. neγ-ζαп. h. нек-ζαп. i. noγ-ζαп. j. нес-ζαп. k. neq-ζαп. l. τεγ-εξοῦσια. m. тек-εξοῦσια. n. нек-εξοῦσια. o. noγ-εξοῦσια. p. τογ-εξοῦσια. q. τεγ-εξοῦσια. r. нес-εξοῦσια. s. oγ-εξοῦσια. t. neq-εξοῦσια. u. τ-εξοῦσια. v. π-ζαп.

B. Translate rapidly into Coptic.

(a) My boat, your (pl.) boat, your (sing. masc.) boats, your (sing. fem.) boats, your (sing. fem.) boat, her boat, his boat, our boat, our boats.

(b) My testimony, your (pl.) testimony, your (sing. masc.) testimonies, your (sing. fem.) testimonies, your (sing. fem.) testimony, her testimony, his testimony, our testimony, our testimonies.

(c) My sister's house, her sister's house, his sister's house, their sister's house, his sisters' house, their sisters' house, your (pl.) sisters' house, your (pl.) sister's house, our sister's house, our sisters' house, your (sing. masc.) sisters' house, your (sing. fem.) sister's house.

(d) The judgement of God. God's judgement. Our sins and God's judgement. The kingdom of God and the power of salvation. The water of life. The waters of life. The authority of the apostles. The temple of Jerusalem.

C. Translate into Coptic. a. I am the light and the truth. b. I am God's witness. c. You are God's witnesses. d. She is the servant of the rich man.

### EXERCISES THREE

e. He is a just person. f. It is the fire of God's judgement. g. You are a just woman. h. You are a rich man. i. It is the fruit of death.

D. Translate into Coptic. a. I am not the light and the truth. b. I am not God's witness. c. You are not God's witnesses. d. She is not the servant of the rich man. e. He is not a just person. f. It is not the fire of God's judgement. g. You are not a just woman. h. You are not a rich man. i. It is not the fruit of death.

E. Translate. a. π-οεικ ἡ-τ-με πε. b. ζεν-οὔα νε. c. ανон-ζεν-ζῆζαλ ἡ-π-νοῦτε. d. ἡτετῆ-π-λαος ἡ-τ-με. e. тен-πολiс те. f. ἡτῆ-οὔ-ῤῡῡῡ. g. ἡτε-οὔ-δικαίος. h. πεq-θρονος πε. i. ζεν-ωne νε ἡ-τ-μῆτ-μῆτρε. j. ανок-οὔ-πρεсвyтеpос. k. ανῆ-τ-ζῆζαλ ἡ-π-χοεις.

F. Form the negative of each sentence in (E), giving alternate forms where possible.

G. Translate. a. ἡс πε-ἡс. b. ἡс πε πε-ἡс. c. π-αγγελος ἡ-π-ωνῆ. d. π-βαπτiсma ἡ-π-οὔχαῖ. e. π-αρχιερεὺς ἡ-πεῖ-ῤῡπε. f. π-χοῖ ἡ-π-αποστολος. g. π-μοοῦ ἡ-π-κωῆ. h. π-καке ἡ-π-δαιμονιον πε π-καρπος ἡ-π-нове. i. οὔ-οὔοειν ἡ-π-σαββατον πε π-νομος αὔω νε-προφήτης.

# LESSON 4

## ADJECTIVE. ATTRIBUTIVE CONSTRUCTION. ADJECTIVAL PREDICATE.

**35.** Adjectives<sup>10</sup> [CG 113–17] are not particular about gender: each adjective occurs freely with both π- and τ-. There are two main classes:

(a) Greco-Coptic adjectives (a huge list—potentially *all* Greek adjectives). Those of the Greek -ος declension come into Coptic as word pairs ending in -OC and -ON to distinguish animate versus inanimate. This is a very large class of Coptic words.

π-ΠΟΝΗΡΟΣ = the wicked one (man)	}	animate
τ-ΠΟΝΗΡΟΣ = the wicked one (woman)		
π-ΠΟΝΗΡΟΝ = the wicked one (thing)		inanimate

Note that the -OC ending is both masculine and feminine in Coptic (unlike Greek): π-ΠΟΝΗΡΟΣ, τ-ΠΟΝΗΡΟΣ.

(b) Egyptian-Coptic adjectives (about twenty in number), some of which have optional feminine and/or plural forms.

αc = old
βῤῥε = new
εβιηη = wretched
κογῖ = small
καμε = black
μεριτ, pl. μερατε = beloved
νοб = big
савε, fem. савη, pl. савееγ = prudent, wise
сaeie = beautiful
сωтπ = excellent
ωηη, fem. ωημε = small
ωῃμο, fem. ωῃμω = foreign
ωорп, fem. ωорпе = first
зае, fem. зан, pl. заееγ = last
зак = sober, prudent
знке = poor

<sup>10</sup> Called “genderless common nouns” in CG.

## THE ATTRIBUTIVE CONSTRUCTION

зλλо, fem. зλλω, pl. зλλοι = old

зоуеиτ, fem. зоуеиτε, pl. зоугаτε = first, original

αωωρε = strong

ααχε, pl. αιαееγ(ε) = hostile

All Coptic adjectives can also be used as nouns: π-ΠΟΝΗΡΟΣ = the wicked man, τ-ΠΟΝΗΡΟΣ = the wicked woman, π-εβιηη = the wretch, π-ααχε = the enemy, τ-знке = the poor woman, etc.

*Composite adjective formation.* Prefixes forming composite adjectives (i.e. without a particular gender) are the following. [CG 118–21, 123–25]

ατ- = privative, ‘not having, unable to’: ειωτ = father, ατ-ειωτ = fatherless

ρῃ- or ρῃῃ- = ‘person related to’: κημε = Egypt, ρῃῃ-κημε = Egyptian

ρεε- agential, ‘...-ing, doing ...’: ῤ-нове = to sin, ρεε-ῤ-нове = sinner

## THE ATTRIBUTIVE CONSTRUCTION

**36.** The attributive construction enables an adjective *or* noun to modify an article phrase. [CG 96–103] The modifier follows the article phrase, linked by ῃ- (ῃ- before π or non-syllabic м):

π-ΓΕΝΟC ῃ-ΠΟΝΗΡΟC the wicked race  
(adjective)

π-ΓΕΝΟC ῃ-βῤῥε the new race  
(adjective)

π-ΓΕΝΟC ῃ-ρωμε the human race  
(noun)

If, and only if, the modifier is an adjective (such as ΠΟΝΗΡΟC or βῤῥε), the construction can also be inverted, so that the modifier precedes its target of modification. This construction is fairly common, particularly with certain adjectives. It expresses a special nuance.

π-ΠΟΝΗΡΟC ῃ-ΓΕΝΟC the wicked race (inverted word order)

By the use of the attributive construction the number of modifiers is vastly increased beyond the words listed in 35, since all “nouns” as well as all “adjectives” can be modifiers. Thanks to this construction, every noun can express an adjectival meaning as well as a substantial one. Thus

ῃ-ρωμε = human

ῃ-ογоеиη = luminous

$\bar{n}$ -CON = fraternal  
etc. etc.

Several attributive constructions can modify a single article phrase; they can be optionally connected by  $\lambda\gamma\omega$  "and."

$\omicron\gamma$ - $\rho\omega\mu\epsilon$   $\bar{n}$ - $\chi\alpha\chi\epsilon$   $\bar{m}$ - $\pi\omicron\eta\eta\rho\omicron\varsigma$  = a wicked, hostile man  
 $\pi$ - $\rho\rho\omicron$   $\bar{n}$ - $\varsigma\alpha\beta\epsilon$   $\lambda\gamma\omega$   $\bar{n}$ - $\beta\omicron\mu$  = the powerful, wise emperor

37. The adjectives  $\omega\eta\mu$  = small,  $\kappa\omicron\gamma\bar{\iota}$  = small, and  $\nu\omicron\beta$  = big can be placed immediately after the target of modification *without* the presence of  $\bar{n}$ -. This is the usual construction of  $\omega\eta\mu$ . [CG 101]

$\omega\eta\rho\epsilon$   $\omega\eta\mu$  = little boy,  $\omega\epsilon\rho\epsilon$   $\omega\eta\mu$  = little girl

## ADJECTIVAL PREDICATES IN THE NOMINAL SENTENCE

38. "Adjectival" predicates in the nominal sentence are normally formulated with an indefinite article ( $\omicron\gamma$ -,  $\varsigma\epsilon\eta$ -), which is not translated into English when it has adjectival meaning. [CG 292(b)]

$\lambda\eta\bar{\Gamma}$ - $\omicron\gamma$ - $\pi\omicron\eta\eta\rho\omicron\varsigma$  = I am wicked ( $\omicron\gamma$ - $\pi\omicron\eta\eta\rho\omicron\varsigma$ )  
 $\lambda\eta\bar{\Gamma}$ - $\omicron\gamma$ - $\epsilon\beta\iota\eta\eta$  = I am wretched ( $\omicron\gamma$ - $\epsilon\beta\iota\eta\eta$ )  
 $\lambda\eta$ - $\varsigma\epsilon\eta$ - $\pi\omicron\eta\eta\rho\omicron\varsigma$  = we are wicked ( $\varsigma\epsilon\eta$ - $\pi\omicron\eta\eta\rho\omicron\varsigma$ )  
 $\omicron\gamma$ - $\chi\omega\omega\rho\epsilon$   $\tau\epsilon$  = she (or it) is strong ( $\omicron\gamma$ - $\chi\omega\omega\rho\epsilon$ )  
 $\varsigma\epsilon\eta$ - $\varsigma\alpha\beta\epsilon$   $\nu\epsilon$   $\omicron\Gamma$   $\varsigma\epsilon\eta$ - $\varsigma\alpha\beta\epsilon\epsilon\gamma$   $\nu\epsilon$  = they are prudent ( $\varsigma\epsilon\eta$ - $\varsigma\alpha\beta\epsilon$ )  
 $\varsigma\epsilon\eta$ - $\delta\iota\kappa\alpha\iota\omicron\varsigma$   $\nu\epsilon$  = they are righteous ( $\varsigma\epsilon\eta$ - $\delta\iota\kappa\alpha\iota\omicron\varsigma$ )

Note that nouns, too, are used as "adjectival" predicates in the nominal sentence, formulated in just the same way ( $\omicron\gamma$ -,  $\varsigma\epsilon\eta$ -). So with the noun  $\nu\omicron\gamma\tau\epsilon$  = god:

$\lambda\eta\bar{\Gamma}$ - $\omicron\gamma$ - $\nu\omicron\gamma\tau\epsilon$  = I am divine       $\omicron\gamma$ - $\nu\omicron\gamma\tau\epsilon$   $\tau\epsilon$  = she is divine  
 $\omicron\gamma$ - $\nu\omicron\gamma\tau\epsilon$   $\pi\epsilon$  = he is divine       $\varsigma\epsilon\eta$ - $\nu\omicron\gamma\tau\epsilon$   $\nu\epsilon$  = they are divine

Such predicates are ambiguous, since they might also be interpreted as referring to entities.

$\lambda\eta\bar{\Gamma}$ - $\omicron\gamma$ - $\nu\omicron\gamma\tau\epsilon$  = I am a god  
 $\omicron\gamma$ - $\nu\omicron\gamma\tau\epsilon$   $\pi\epsilon$  = he is a god  
 $\omicron\gamma$ - $\nu\omicron\gamma\tau\epsilon$   $\tau\epsilon$  = she is a god(ess)  
 $\varsigma\epsilon\eta$ - $\nu\omicron\gamma\tau\epsilon$   $\nu\epsilon$  = they are gods

Similarly

$\omicron\gamma$ - $\omicron\gamma\omicron\epsilon\iota\eta$   $\pi\epsilon$  = he/it is luminous = he/it is a light  
 $\omicron\gamma$ - $\rho\omega\mu\epsilon$   $\pi\epsilon$  = he/it is human = he/it is a person

etc.

## VOCABULARY 4

## Egyptian Coptic adjectives

$\lambda\varsigma$  old  
 $\beta\rho\rho\epsilon$  new  
 $\epsilon\beta\iota\eta\eta$  wretched  
 $\kappa\omicron\gamma\bar{\iota}$  small, insignificant  
 $\kappa\alpha\mu\epsilon$  black  
 $\mu\epsilon\rho\bar{\iota}\tau$ , pl.  $\mu\epsilon\rho\alpha\tau\epsilon$  beloved  
 $\nu\omicron\beta$  big  
 $\varsigma\alpha\beta\epsilon$ , fem.  $\varsigma\alpha\beta\eta$ , pl.  $\varsigma\alpha\beta\epsilon\epsilon\gamma$  wise

$\varsigma\alpha\epsilon\iota\epsilon$  beautiful  
 $\varsigma\omega\tau\bar{\pi}$  excellent, elect  
 $\omega\eta\mu$ , fem.  $\omega\eta\mu\epsilon$  small  
 $\omega\bar{\mu}\mu\omicron$ , fem.  $\omega\bar{\mu}\mu\omega$  foreign  
 $\omega\omicron\rho\bar{\pi}$ , fem.  $\omega\omicron\rho\pi\epsilon$  first  
 $\gamma\alpha\epsilon$ , fem.  $\gamma\alpha\eta$ , pl.  $\gamma\alpha\epsilon\epsilon\gamma$  last  
 $\gamma\alpha\kappa$  sober, prudent  
 $\gamma\eta\kappa\epsilon$  poor  
 $\gamma\bar{\alpha}\lambda\omicron$ , fem.  $\gamma\bar{\alpha}\lambda\omega$ , pl.  $\gamma\bar{\alpha}\lambda\omicron\iota$  old

$\gamma\omicron\gamma\epsilon\bar{\iota}\tau$ , fem.  $\gamma\omicron\gamma\epsilon\bar{\iota}\tau\epsilon$ , pl.  $\gamma\omicron\gamma\alpha\tau\epsilon$  first, original  
 $\chi\omega\omega\rho\epsilon$  strong  
 $\chi\alpha\chi\epsilon$ , pl.  $\chi\iota\chi\epsilon\epsilon\gamma(\epsilon)$  hostile, enemy

## Greco-Coptic adjectives

\* $\lambda\omicron\mu\omicron\mu\omicron\varsigma$ ,  $\lambda\omicron\mu\omicron\mu\omicron$  lawless  
\* $\lambda\varsigma\epsilon\beta\eta\varsigma$  impious  
\* $\delta\iota\kappa\alpha\iota\omicron\varsigma$ ,  $\delta\iota\kappa\alpha\iota\omicron\eta$  just, righteous  
\* $\epsilon\lambda\alpha\chi\iota\varsigma\tau\omicron\varsigma$ ,  $\epsilon\lambda\alpha\chi\iota\varsigma\tau\omicron\eta$  insignificant  
\* $\pi\omicron\eta\eta\rho\omicron\varsigma$ ,  $\pi\omicron\eta\eta\rho\omicron\eta$  wicked  
\* $\varsigma\alpha\rho\kappa\iota\kappa\omicron\varsigma$ ,  $\varsigma\alpha\rho\kappa\iota\kappa\omicron\eta$  fleshly, carnal

$\pi\alpha\lambda\alpha\iota\omicron\varsigma$  old  
 $\kappa\alpha\iota\bar{\nu}\omicron\varsigma$  new  
 $\epsilon\lambda\epsilon\epsilon\iota\bar{\nu}\omicron\varsigma$  wretched  
 $\mu\iota\kappa\rho\bar{\iota}\varsigma$  small, insignificant  
 $\mu\acute{\epsilon}\lambda\alpha\varsigma$  black  
 $\acute{\alpha}\gamma\alpha\pi\eta\tau\omicron\varsigma$  beloved  
 $\mu\acute{\epsilon}\gamma\alpha\varsigma$  big  
 $\phi\rho\bar{\omicron}\nu\iota\mu\omicron\varsigma$  wise  
 $\epsilon\bar{\upsilon}\mu\omicron\rho\phi\omicron\varsigma$  beautiful  
 $\epsilon\kappa\lambda\epsilon\kappa\tau\bar{\omicron}\varsigma$  excellent, elect  
 $\delta\lambda\iota\gamma\omicron\varsigma$  small  
 $\xi\acute{\epsilon}\nu\omicron\varsigma$  foreign  
 $\pi\rho\bar{\omega}\tau\omicron\varsigma$  first  
 $\xi\sigma\chi\alpha\tau\omicron\varsigma$  last  
 $\epsilon\pi\iota\epsilon\iota\kappa\bar{\eta}\varsigma$  sober, prudent  
 $\pi\tau\omega\chi\bar{\omicron}\varsigma$  poor  
 $\pi\rho\epsilon\varsigma\beta\bar{\upsilon}\tau\eta\varsigma$  old

$\acute{\alpha}\rho\chi\alpha\iota\omicron\varsigma$ ,  $\pi\rho\bar{\omega}\tau\omicron\varsigma$  first, original  
 $\iota\sigma\chi\upsilon\rho\bar{\omicron}\varsigma$  strong  
 $\epsilon\chi\theta\rho\bar{\omicron}\varsigma$  hostile, enemy

# LESSON FOUR

More nouns: Religion, ethics (continued)

*Τ-ΔΙΚΑΙΟΣΥΝΗ	righteousness
*Τ-ΕΙΡΗΝΗ	peace
*ΤΕ-ΨΥΧΗ	soul
*Τ-ΕΚΚΛΗΣΙΑ	church
*Π-ΕΥΑΓΓΕΛΙΟΝ	gospel

## EXERCISES 4

A. Translate, giving alternate translations where possible. a. Τ-ΜΝΤ-ΜΝΤΡΕ Ν-ΣΑΡΚΙΚΟΝ. b. ΠΕ-ΡΠΕ Ν-ΝΟΒ. Π-ΝΟΒ Ν-ΡΠΕ. c. Π-ΠΟΝΗ-ΡΟΣ Ν-ΑΠΟΣΤΟΛΟΣ. ΖΕΝ-ΝΟΒΕ Μ-ΜΟΥ. d. ΠΕΙ-ΡΡΟ Ν-ΕΟΟΥ. ΠΑ-ΜΕΡΙΤ Ν-ΧΟΕΙΣ. E. Translate into Coptic, giving alternate translations where possible. a. I am impious and wicked. b. You are strong. c. She is foreign. d. They are wise. e. We are beautiful. f. I am beautiful and black. g. He is wretched. h. I am not impious and wicked. i. You are not strong. j. She is not foreign. k. They are not wise. l. I am not beautiful and black. m. He is not wretched.

# LESSON 5

## NOMINAL SENTENCES WITH THREE MEMBERS.

**39.** If οὐ-προφήτης πε means He is a prophet ("A-prophet he") then how do we make a nominal sentence whose *subject* is an article phrase, pronoun, or proper noun—such as, *My father* is a prophet? One Coptic solution is to say: *My father, he is a prophet* ("My-father, a-prophet he"). [CG 272]

πα-εἰωτ οὐ-προφήτης πε = My father is a prophet

παῖ οὐ-προφήτης πε = This one is a prophet

μωϋσης οὐ-προφήτης πε = Moses is a prophet

In such a sentence we can call the initial component (πα-εἰωτ, παῖ, μωϋσης) an *extraposition*—literally, one that has been "put outside" of a simple form of sentence pattern such as οὐ-προφήτης πε.

μωϋσης | οὐ-προφήτης πε = Moses is a prophet

Extraposition is a typical way of speaking in Coptic, and we shall see that all kinds of sentences can be equipped with an extraposition, or even with several.

When the extraposed subject differs in number and/or gender from the predicate, the selection of πε, τε, or νε is unpredictable, sometimes having the number and/or gender of the subject, often that of the predicate, and rarely having the form of πε agreeing with neither.

**40.** *Extrapositions can also have the form of independent personal pronouns.* [CG 77]

	sing.	pl.
1st	ἀνοκ = I, me	ἀνον = we, us
2d masc.	ἡτοκ = you	ἡτωτῆ = you
2d fem.	ἡτο = you	
3d masc.	ἡτοϋ = he, him	ἡτοοϋ = they, them
3d fem.	ἡτος = she, her	

Note that these pronouns do not end in a hyphen.

## NOMINAL SENTENCES WITH THREE MEMBERS

This opens up the possibility of the extraposition of the 1st and 2d person subject [CG 264]

ἀνοκ ἀε | ἀνῖ-οὐ-ϣῆτ. ἀνῖ-οὐ-ϣῆτ ἀν.

As for me, I am a worm, I am not a man

ἡτωτῆ | ἡτετῆ-ἡ-ϣῆτ

As for you, you are My friends

as well as extraposition of a 3d person subject [CG 272]

ἡτοϋ γὰρ ἀϣω πεϣ-εἰωτ | οὐα νε

As for Him and His father, they are one

The extraposition of personal pronouns typically occurs when two persons or objects are being compared: "As for me (ἀνοκ), I am a worm; but as for you (ἡτοκ), you are a . . ."

**41.** *Negation* is exactly as in the simple, two-member nominal sentence patterns 34. [CG 272]

Extraposition | (ἡ-) Predicate ἀν πε

ἀν is inserted between the predicate and πε/τε/νε. Negative ἡ- is optionally prefixed to the predicate. ἡ- is optional, ἀν is always required.

πα-εἰωτ ἡ-οὐ-προφήτης ἀν πε

πα-εἰωτ οὐ-προφήτης ἀν πε

παῖ ἡ-οὐ-προφήτης ἀν πε

παῖ οὐ-προφήτης ἀν πε

μωϋσης ἡ-οὐ-προφήτης ἀν πε

μωϋσης οὐ-προφήτης ἀν πε

ἀνοκ ἡ-ἀνῖ-οὐ-ῥρο ἀν

ἀνοκ ἀνῖ-οὐ-ῥρο ἀν

ἡτοκ ἡ-ἡτῆ-πα-ῥοεἰς ἀν

ἡτοκ ἡτῆ-πα-ῥοεἰς ἀν

ἡτοϋ ἡ-π-ῥρο ἀν πε

ἡτοϋ π-ῥρο ἀν πε

"My father is not a prophet. This man is not a prophet. Moses is not a prophet. As for me, I am not a king. As for you, you are not my lord. As for him, he is not the king."

*The Three Member Nominal Sentence with Central πε.*

**42.** Very often, nominal sentences have the form of two components connected by central πε, τε, or νε. [CG 275, 277]

# LESSON FIVE

article phrase πε article phrase  
περ-ειωτ πε π-ρρο

This kind of sentence brings the two components together into a complete statement, but does not signal which is subject and which is predicate. Such sentences are ambiguous, and can be interpreted in two different ways according to what best suits the argument of the text. Here are two interpretations of the same sentence:

περ-ειωτ πε π-ρρο → = (1) His father is the king  
→ = (2) The king is his father

Both are normal interpretations of this sentence.

The article phrases that occur in this pattern can be built upon all kinds of articles (definite, indefinite, and zero article). Pronouns, proper nouns, and independent pronouns can occur in place of article phrases (as can prepositional phrases 49 expressing relationship, and specifiers 43). [CG 268 (end)]

**Negation.** αν is inserted before πε. Optionally, ν- is prefixed to the first component.

(ν-) First nominal component αν πε Second nominal component

(ν-)περ-ειωτ αν πε π-ρρο → = (1) His father is not the king  
→ = (2) The king is not his father

# NOMINAL SENTENCES WITH THREE MEMBERS

The many *sub-varieties* of the nominal sentence are described in CG 252, from which (p. 200) the following list is adapted.

1. αν-ουπροφνητς = I am a prophet.
2. ανοκ αν-ουπροφνητς = As for me, I am a prophet.
3. πωω πε = It's summer.
4. πεννουτε πε = He is our God.
5. νεϊρωμε ρενιουδαι νε = These men are Jews.
- 5a. πικατανας πικατανας ον πε = Satan is always the same.
- 5b. νсовт де нтоу нтоу он пе = Walls are always the same.
6. тагапи пе пноуτε = God is love. Love is God.
- 6a. ανοκ πε πουοειν ν-πκοσμος = It is I who am the light of the world.
7. πεϊαποτ πε таиθηκη ν-врре = This cup is the new covenant.
- 7a. ανοκ πε гавриηλ = I am Gabriel. [predicate is a proper name]
8. πκογι νζηт-тнүтн тнр-тн παϊ πε пноб = The one who is least among all of you is the great one.
9. ανοκ πε = It is I/It's me.
10. ανοκ πε = I am he/I am such.
11. ανοκ πε = I am someone important.
12. αλλα νερμαθενтς νε = Rather, it was His disciples (who were doing so) [continuing a cleft sentence].

# VOCABULARY 5

## Religion, ethics (continued)

π-ραυε	joy	χαρά
πε-ζμοτ	gift	χάρισμα, χάρις
*τ-αγαπη	love	
*τε-χαρις	divine grace, favor	
π-σοπς	entreaty, consolation	δέησις, παράκλη- σις
π-μαειν	sign	σημεῖον
τε-ωπηρε	omen, wonder, miracle	τέρας, θαυμαστόν
π-πετνανουγ	good (that which is good)	τὸ ἀγαθόν
π-πεθοογ	evil (that which is evil)	τὸ πονηρόν
*πε-γραμματεγς	scribe	
π-σαζ	teacher	διδάσκαλος
*π-μαθητης	disciple, student	
τε-свω, pl. свооуе	teaching (that which is taught)	διδασχί
π-сооуη	acquaintance, knowledge	γνώσις

*τ-πιστις	faith	
*π-πιστος (adjective)	faithful	
*πε-πνευμα (abbrev. πε-πνλ)	spirit	
<i>Time</i>		
πε-ζооу	day	ἡμέρα
τε-γυη (ογυη)	night	νύξ
τε-γнoу (ογнoу)	hour, moment	ώρα
τε-ромπε	year	ἔτος, ἐνιαυτός
πε-γoεиγ (ογoεиγ)	occasion, time	καιρός, χρόνος
<i>Other</i>		
π-μннψе	crowd, multitude	ὄχλος, πλῆθος

## VOCABULARY FIVE

### Postpositive connective words<sup>a</sup>

*γαρ	for	
*δε	and, but, now	
*μεν	now, to be sure <sup>b</sup> . . .	
он	once again, additionally, back	πάλιν once again, καί additionally
δε	then, therefore, any more	οὖν, δέ

<sup>a</sup>As in Greek these particles can never stand first in a sentence and tend to appear in, or compete for, the second available position. In Coptic they appear after the first or second bound group 33: π-сon γαρ н-ιωzанннc = For, the brother of John . . . ; αντ-ογ-qнт δε an = Thus, I am not a worm.

<sup>b</sup>In classical Greek a clause containing μέν is normally followed by a clause containing δέ. This is not so in Coptic.

# EXERCISES 5

A. Translate, giving alternate translations where possible. a. τεκ-σβω ογ-πετνανουφ τε. b. νεϊ-μαειν ζεν-με νε. c. του-πιστις ογ-νοβ τε. d. πε-πνα μ-π-νουτε ογ-χωρε πε. e. παϊ πε π-μαειν. f. π-ραφε μ-π-σαζ πε τ-βομ μ-περ-μαθητης. g. π-νομος μ-τε-χαρις πε π-σοογν μ-π-πεθοογ μν-π-πετνανουφ. h. πε-ζοογ μ-π-σοπς πε ογ-ογοειω μ-ογ-ραφε. i. τεν-χοεις τε τ-μααγ μ-π-νουτε. j. ντοκ ντκ-πα-χοεις αγω πα-νουτε. k. ανοκ αντ-εμζαλ μ-πα-χοεις. l. ντωτν νтетн-να-сннγ. m. ντωτн νтетн-на-сон. n. ντοογ ζεν-δικαιος μ-νοβ νε. o. ντοογ ζεν-δικαιος νε μ-νοβ.

B. Form the negation of each sentence in (1), giving alternate forms where possible, and translate.

C. Translate (cf. 35 [b]). a. ογ-σβω μ-βρρε. π-νομος μ-αc. b. ογ-σαζ μ-εβιη. π-κογι μ-μαθητης μ-μεριτ. πμεριτ μ-μαθητης ωημ. c. ζεν-ζοογ μ-σαειε. τε-ζουειτε μ-ρομπε. τ-ζαν μ-ρομπε. εαν μ-ρομπε. d. ογ-πνευμα μ-χαχε. ογ-πιστις μ-χωρε. π-σοογν μ-ζακ. e. π-βρρε. ζεν-εβιη. τ-κογι. π-κογι. f. μ-κογι. ζεν-σαειε. τε-ζουειτε. πε-ζουειτ. εαν. g. μ-χαχε. ογ-ζακ. τ-ωορπε μ-εκκλησια. h. π-νοβ μ-εγαγγελιον αγω π-εγαγγελιον ωημ. i. τε-ψυχη μ-π-δικαιος ογ-ειρηνη τε μν-ογαι-καιοςυνη.

D. Translate into Coptic, giving alternate translations where possible.

a. The year of the Lord is the joy of his people. b. The moment of grace is not an insignificant thing. c. The law of God is the joy of this nation. d. For your part, you are not the least of the apostles. e. As for them, they are a great crowd of witnesses.

# LESSON 6

## SPECIFIERS. CARDINAL AND ORDINAL NUMBERS.

### 43. The following six specifiers

- ογнр = how many? how much?
- ним = who? which (person)?
- ογ = what? what kind of (thing)?
- αω = which one? which?
- ζαζ = many
- λααγ = any at all, any

can be used alone as pronouns

ним = who? ζαζ = many

or can specify a noun or adjective in the specifier construction

specifier μ- noun/adjective

- ним μ-ρωμε = which person?
- ζαζ μ-ρωμε = many people

No article is required, since the specifier is in place of the article.

ζαζ μ-ρωμε = many men

ним μ-ρωμε = which man?

λααγ μ-ρωμε = any man

Specifier constructions are mostly used where a noun with indefinite article or zero article is permissible. [CG 63-64, 72-73]

44. In a few expressions, the indefinite article ογ-/ζεν- or the article κε- 'another' 61 can be used with ογ, αω, and λααγ. [CG 74]

ζεν-ογ νε = What sort of thing (some-what) are they?

ογ-λααγ πε = It is insignificant (an-anything)

κε-λααγ μ-ρωμε = Any other man (another-any-man)

# LESSON SIX

So with  $\zeta\epsilon$  and  $\mu\iota\kappa\epsilon$  = kind, sort, type. [CG 111(b), 301]

$\omicron\gamma-\alpha\omega \bar{\nu}-\zeta\epsilon \pi\epsilon$  = What kind (a-which kind) is he?

answered by

$\omicron\gamma-\tau\epsilon\bar{\iota}-\zeta\epsilon$  or  $\omicron\gamma-\tau\epsilon\bar{\iota}-\mu\iota\kappa\epsilon \pi\epsilon$  = He is of this kind, such, like this (plural  $\zeta\epsilon\bar{\nu}-\tau\epsilon\bar{\iota}-\zeta\epsilon$  etc.)

**45.** The *cardinal numbers* also belong to the specifier class. [CG 66–70] They are used both alone like pronouns

$\kappa\alpha\lambda\eta \eta \omega\mu\bar{\nu}\tau$  = two or three (people, things)

and in the specifier construction, specifying a noun.

$\omega\mu\bar{\nu}\tau \bar{\nu}-\rho\omega\mu\epsilon$  = three men

$\omega\mu\tau\epsilon \bar{\nu}-\kappa\alpha\tau\iota\mu\epsilon$  = three women

The numbers from one to ten and certain others occur in pairs, expressing masculine and feminine gender<sup>11</sup>, and the appropriate form is selected according to the gender of the noun to which the number refers. Letters of the alphabet, marked with a super-linear stroke, are used for the corresponding numerals as shown in the following table.

## CARDINAL NUMBERS FROM ONE TO TEN

		masc.	fem.
$\bar{\alpha}$	one	$\omicron\gamma\alpha$	$\omicron\gamma\epsilon\bar{\iota}$
$\bar{\beta}$	two	$\kappa\alpha\lambda\eta$	$\kappa\alpha\lambda\tau\epsilon$
$\bar{\gamma}$	three	$\omega\mu\bar{\nu}\tau$	$\omega\mu\tau\epsilon$
$\bar{\delta}$	four	$\eta\tau\omicron\omicron\gamma$	$\eta\tau\omicron$ or $\eta\tau\omicron\epsilon$
$\bar{\epsilon}$	five	$\eta\tau\omicron\gamma$	$\eta\tau$ or $\eta\tau\epsilon$
$\bar{\varsigma}$	six	$\kappa\omicron\omicron\gamma$	$\kappa\omicron$ or $\kappa\omicron\epsilon$
$\bar{\zeta}$	seven	$\kappa\alpha\omega\bar{\eta}$	$\kappa\alpha\omega\eta\epsilon$
$\bar{\eta}$	eight	$\omega\mu\omicron\gamma\bar{\nu}$	$\omega\mu\omicron\gamma\bar{\nu}\epsilon$
$\bar{\theta}$	nine	$\psi\iota\kappa$	$\psi\iota\tau\epsilon$
$\bar{\iota}$	ten	$\mu\eta\tau$	$\mu\eta\tau\epsilon$

*Cardinal numbers above ten*, if not round numbers (twenty, thirty, etc.), are compounds consisting of a prefixal component (teens, twenties, thirties, etc.) and a final component (-one, -two, -three). E.g.  $\chi\omicron\gamma\tau-\omega\mu\tau\epsilon$  (twenty + three) = twenty-three,  $\mu\bar{\nu}\tau-\omega\mu\tau\epsilon$  (ten + three) = thirteen.

<sup>11</sup> The numbers twenty and thirty and all those above ten whose last digit is 1, 2, 8, or 9 occur in masculine/feminine pairs.

## CARDINAL AND ORDINAL NUMBERS

	Round Numbers	Prefixal Components
$\bar{\iota}$ ten	masc. $\mu\eta\tau$ , fem. $\mu\eta\tau\epsilon$	$\mu\bar{\nu}\tau-$
$\bar{\kappa}$ twenty	$\chi\omicron\gamma\omega\tau$ , fem. $\chi\omicron\gamma\omega\tau\epsilon$	$\chi\omicron\gamma\tau-$
$\bar{\lambda}$ thirty	$\mu\alpha\lambda\beta$ , fem. $\mu\alpha\lambda\beta\epsilon$	$\mu\alpha\beta-$
$\bar{\mu}$ forty	$\zeta\mu\epsilon$	$\zeta\mu\epsilon-$ ( $\zeta\mu\epsilon\tau-$ before $\alpha\eta\tau\epsilon$ and $\alpha\kappa\epsilon$ )
$\bar{\nu}$ fifty	$\tau\alpha\epsilon\iota\omicron\gamma$	$\tau\alpha\epsilon\iota\omicron\gamma-$
$\bar{\xi}$ sixty	$\kappa\epsilon$	$\kappa\epsilon-$ ( $\kappa\epsilon\tau-$ before $\alpha\eta\tau\epsilon$ and $\alpha\kappa\epsilon$ )
$\bar{\omicron}$ seventy	$\omega\eta\epsilon$	$\omega\eta\epsilon-$
$\bar{\pi}$ eighty	$\zeta\mu\epsilon\bar{\nu}\epsilon$	$\zeta\mu\epsilon\bar{\nu}\epsilon-$ ( $\zeta\mu\epsilon\bar{\nu}\epsilon\tau-$ before $\alpha\eta\tau\epsilon$ and $\alpha\kappa\epsilon$ )
$\bar{\rho}$ ninety	$\pi\kappa\tau\alpha\iota\omicron\gamma$	$\pi\kappa\tau\alpha\iota\omicron\gamma-$

## TERMINAL COMPONENTS

$\bar{\alpha}$ ... -one	masc. $-\omicron\gamma\epsilon$ , fem. $-\omicron\gamma\epsilon\bar{\iota}$
$\bar{\beta}$ ... -two	masc. $-\kappa\alpha\omicron\omicron\gamma\kappa$ , fem. $-\kappa\alpha\omicron\omicron\gamma\kappa\epsilon$
$\bar{\gamma}$ ... -three	$-\omega\mu\tau\epsilon$
$\bar{\delta}$ ... -four	$-\alpha\eta\tau\epsilon$
$\bar{\epsilon}$ ... -five	$-\tau\eta$ (but $-\eta$ after $\mu\bar{\nu}\tau-$ and $\chi\omicron\gamma\tau-$ )
$\bar{\varsigma}$ ... -six	$-\alpha\kappa\epsilon$
$\bar{\zeta}$ ... -seven	$-\kappa\alpha\omega\eta\epsilon$
$\bar{\eta}$ ... -eight	masc. $-\omega\mu\eta\eta\bar{\nu}$ , fem. $-\omega\mu\eta\eta\bar{\nu}\epsilon$
$\bar{\theta}$ ... -nine	masc. $-\psi\iota\kappa$ , fem. $-\psi\iota\tau\epsilon$

*Hundreds*:  $\bar{\rho}$  (100)  $\omega\epsilon$ ,  $\bar{\tau}$  (200)  $\omega\eta\tau$ ,  $\bar{\iota}$  (300)  $\omega\mu\bar{\nu}\tau-\omega\epsilon$ ,  $\bar{\gamma}$  (400)  $\eta\tau\omicron\omicron\gamma \bar{\nu}-\omega\epsilon$  or  $\eta\tau\epsilon\gamma-\omega\epsilon$ ,  $\bar{\eta}$  (500),  $\bar{\kappa}$  (600),  $\bar{\psi}$  (700),  $\bar{\omega}$  (800),  $\bar{\phi}$  (900).

*Thousands*:  $\bar{\alpha}$  (1,000)  $\omega\omicron$ ,  $\bar{\beta}$  (2,000)  $\omega\omicron \kappa\alpha\lambda\eta$ ,  $\bar{\gamma}$  (3,000)  $\omega\mu\bar{\nu}\tau \bar{\nu}-\omega\omicron$  or  $\omega\mu\bar{\nu}\tau-\omega\omicron$ ,  $\bar{\delta}$  (4,000)  $\eta\tau\omicron\omicron\gamma \bar{\nu}-\omega\omicron$  or  $\eta\tau\epsilon\gamma-\omega\omicron$ , etc.

*Ten thousand*:  $\tau\beta\alpha$  is a noun of masculine gender.

Complex numbers go from highest to lowest:  $\mu\bar{\nu}\tau-\kappa\alpha\omicron\omicron\gamma\kappa \bar{\nu}-\omega\epsilon \mu\bar{\nu}-\kappa\epsilon$  (ten-and-two hundreds and sixty) =  $\bar{\alpha}\bar{\kappa}\bar{\xi}$  1,260. The use of  $\mu\bar{\nu}-$  "and" in the spelled-out form is optional.

**46.** As with the other specifiers no article is required since the cardinal number replaces the article. [CG 66]

$\omega\mu\bar{\nu}\tau \bar{\nu}-\rho\omega\mu\epsilon$  = three men

$\omega\mu\tau\epsilon \bar{\nu}-\kappa\alpha\tau\iota\mu\epsilon$  = three women

But cardinal numbers are also compatible with the *singular* definite article  $\pi-/τ-$  (only the singular!), though their meaning (from "two" on up) is plural. (The plural definite article is *not* used with the numbers.)

## LESSON SIX

π-ϣομῆντ = the three

περ-ϣομῆντ ᾱ-μαθητῆς = his three disciples

τ-ϣομτε ᾱ-ςτῖμε = the three women

In addition, cardinals can be used with the article κε- "another" (61)

κε-ϣομῆντ = another three, three more

κε-ϣομῆντ ᾱ-ρωμε = another three men, three more men

The special plural forms of nouns 20 do not occur with the cardinal numbers.

**47.** *One* and *Two* do not usually occur in the specifier construction. [CG 70]

(a) *One* is usually expressed by the indefinite article ογ-.

(b) *Two* (masc. σναγ, fem. σῆτε) usually follows the noun it quantifies, as a separate item.

ρωμε σναγ = two men

ςτῖμε σῆτε = two women

π-ρωμε σναγ = the two men

τε-ςτῖμε σῆτε = the two women

(Compare the construction of ϣημ 37.)

## ORDINAL NUMBERS

**48.** Ordinals ("second, third, fourth" etc.) are produced by prefixing με2- to any cardinal number from *Two* up. [CG 123] (*First* is expressed by the adjective ϣορῖ, ϣορπε.) με2- appears with both π- and τ-. It is used just like an adjective (lesson 4). If the cardinal number has masculine and feminine forms, the appropriate gender is selected. π-με2-σναγ = the second man, the second one. τ-με2-σῆτε = the second woman, the second one. π-με2-ϣομῆντ ᾱ-εγγαγγελιον = the third gospel. τ-με2-ϣομτε ᾱ-ςτῖμε = the third woman. πα-με2-ςμε ᾱ-ςοογ μῆν-τα-με2-ςμε ᾱ-ογϣη = my fortieth day and my fortieth night.

# VOCABULARY 6

Learn the six specifiers in 43.

Learn the cardinal numbers from one to ten and round numbers from twenty to ninety 45.

## Geography

π-μα

place

τ-πε, pl. πηγε

sky, heaven

π-εσχη

bottom, ground

π-καρ

earth, terra firma

\*θαλασσα, ραλασσα

sea

τε-ρην, pl. ριοογε

road, path, way

τ-μητε

midst, middle

π-τοογ, pl. τογειν

mountain, valley wall of Nile

πε-κρο

shore, bank (of river etc.)

\*π-κοσμο

world, universe

## The human being

π-ραν

name

\*π-σωμα

body

\*τ-σαρξ

flesh

πε-σνο

blood

π-μεεγε

thought

π-ρην

heart, mind

τε-σμη

voice

τ-απε, pl. απηγε

head

π-βαλ

eye

π-ρο

face

τ-οιχ

hand

τ-ογναμ

right, right hand

τε-ρβογ

left, left hand

τ-ογερητε

foot, leg

Classification (mostly occurring in adverbial expressions)<sup>a</sup>

τ-ρε (θε)

manner, way

τ-μινε

sort, quality, manner

<sup>a</sup>E.g. ᾱ-τεῖ-ρε = thus; ᾱθε ᾱ- = like, even as; ᾱ-τερ-ρε = like him.

# EXERCISES 6

# LESSON 7

A. Translate. a. αψ ᾠ-μα. πεῖ-μα. b. αψ ᾠ-καρ. πεῖ-καρ. c. νῆ-ρωμε πε. π-ῤρο ᾠ-τ-πε πε. π-ῤρο πε ᾠ-τ-πε. d. ᾠτε-οὔ-οὔ (44). ἀνῖ-τε-σμη ᾠ-π-χοεῖς. e. οὔηρ ᾠ-ζῖη. ζῖη σῖτε. οὔηρ ᾠ-τοοῦ. ψομῖτ ᾠ-τοοῦ. f. οὔηρ ᾠ-σῖμε. ψομτε ᾠ-σῖμε. γαῖ ᾠ-ραν. λααῦ ᾠ-ραν. g. οὔ ᾠ-πεθοοῦ. τεῖ-μῖνε ᾠ-πεθοοῦ. h. να-μεεῦε ζεν-λααῦ (44) νε. να-μεεῦε ᾠ-ζεν-λααῦ ἀν νε. να-μεεῦε νε ζεν-λααῦ. i. μῖτ-σνοοῦς ᾠ-ἀποστολος. π-μῖτ-σνοοῦς ᾠ-ἀποστολος. περ-μῖτ-σνοοῦς ᾠ-ἀποστολος. j. π-ψομῖτ ᾠ-ζο ᾠ-π-νοῦτε. τεῖ-μῖνε ᾠ-σαρῶ. k. τ-μῖτε ᾠ-νε-ζιοοῦε π-εσῖτ ᾠ-τε-θαλασσα.

B. Translate into Coptic. a. Eleven apostles of the Lord. The Lord's eleven apostles. b. Three women. The three women. c. My two hands. Your two eyes. d. How many men? Two men. How many girls? Two girls. e. The midst of the seventy-two nations. f. Its head, its feet, and its eyes. g. The two mountains are his feet, the two worlds are his eyes, his right hand is the sea and his left hand is its shore. h. This is the Lord's body and blood. i. His heart is a heart of stone. j. Who is the head of this faith?

C. Translate. a. ψομῖτ. π-ψομῖτ. b. ϣτοοῦ. κε-ϣτοοῦ. π-κε-ϣτοοῦ. πεῖ-ϣτοοῦ. πεῖ-κε-ϣτοοῦ. c. περ-κε-σαῶῥ ᾠ-ἡ. κε-σαῶῥ ᾠ-ἡ. περ-κε-σαῶῥ ᾠ-σῖμε. κε-σαῶῥ ᾠ-σῖμε. d. μῖτ-οὔε. e. ζμενετ-αῖτε. f. μῖτη. g. ϣτοοῦ-ψε μααβ. h. μῖτ-σνοοῦς ᾠ-ψε μῖ-σε. i. καρ σναῦ. j. ἀπε σῖτε. k. τερ-νοβ ᾠ-ἀπε σῖτε. l. πμερ-μααβ. m. τμερ-ταεῖοῦ. n. πμερ-μῖτ-πσνοοῦς ᾠ-ἀποστολος. o. τμερ-ῥοῦ ᾠ-ζᾶλῶ ᾠ-νοβ.

D. Translate rapidly, giving both masculine and feminine forms. One. Six. Eight. Two. Nine. Four. Ten. Eleven. Twenty-two. Thirty-three. Forty-four. Fifty-five. The sixty-sixth. The seventy-seventh. The eighty-eighth. The ninety-ninth. One hundred ten.

## PREPOSITION. PERSONAL SUFFIXES. POSSESSED NOUN. COMPOUND PREPOSITION. COMBINATIVE ADVERB.

49. This lesson mostly concerns the formation of prepositions. [CG 200–202] Coptic has many prepositions (well over a hundred), but fortunately you don't have to learn them all at once. The most common ones will be given in vocabulary lists spread out over several lessons, so you can memorize these a few at a time. For reference, a list of simple prepositions is given in a box later in this lesson. For compound prepositions, cf. 55.

50. Almost all prepositions appear in a pair of *states*, e.g. ε-, ερo = to, into, for, against, in comparison to. [CG 30, 200] These are

i. The *prenominal state* (ε-), which must be completed by an article phrase, pronoun, etc. ε-τ-πολις = against the city, ε-θιερουσαλημ = into Jerusalem, ε-παῖ = against this one.

ii. The *prepersonal state* (ερo=), which must be completed by a personal suffix. ερo-ϣ = against him/it, ερo-ς = against her/it.

In dictionaries, all prepersonal states are written with a slanted double hyphen (=), and prenominal states with a single hyphen (-). Prenominal and prepersonal states will return again and again as we study other kinds of morphs, so it's important to stop now and be sure you understand what they are.

In learning prepositions, be sure to memorize the pair of states along with the meaning ("ε-, ερo= to, into, for, against, in comparison to"). Simple prepositions are filed under the prenominal, thus ε-, ερo= is filed under ε-.

51. The inflection of the prepersonal states requires a bit of learning. Most prepositions are inflected like one of the following five paradigms. You should now memorize these paradigms thoroughly. This is your main task in the present lesson.

# LESSON SEVEN

## FIVE MODEL PREPOSITIONS

	Final Letter of Prepersonal State				
	α=	ο=	ω=	τ=	ωω=
	να=	επο=	εχω=	νητ=	ζιωω=
	'to', 'for'	'to'	'upon'	'in'	'on'
1st sing.	ναί	εποι	εχωί	νηττ or νητ	ζιωωτ
2d sing. masc.	νακ	εποκ	εχωκ	νητκ	ζιωωκ
2d sing. fem.	νε (sic)	επο	εχω	νητε	ζιωωτε
3d sing. masc.	ναq	εποq	εχωq	νητq	ζιωωq
3d sing. fem.	ναc	εποc	εχωc	νητc	ζιωωc
1st pl.	ναν	επον	εχων	νητν	ζιωων
2d pl.	νητν	επων	εχων	νητ-θυτν	ζιωτ-θυτν
3d pl.	ναγ	επογ	εχογ	νητογ	ζιωογ

Pay special attention to the 1st sing., 2d sing. fem., and 2d pl., which differ according to the ending of the prepersonal state.

1st sing.	να-ί	επο-ί	εχω-ί	νητ-τ or νητ	ζιωω-τ
2d sing. fem.	νε- <sup>θ</sup>	επο- <sup>θ</sup>	εχω- <sup>θ</sup>	νητ-ε	ζιωω-τε
2d pl.	νη-τν	επω-τν	εχω-τν	νητ-θυτν	ζιωτ-θυτν

**52. Personal suffixes.** As you can see, a regular set of personal suffixes is attached to the prepositions. If you memorize the five paradigms given above, you'll be in good shape for the moment. But here for reference is a table showing all the alter-

## THE PERSONAL SUFFIXES

Person	Final Letter of the Prepersonal State				
	Single Vowel	Consonant + B A M N P	Final τ	Other Consonant	Double Vowel
<i>Sing.</i>					
1st	ί	ετ	θ or τ	τ, τ	τ
2d masc.	κ	εκ	κ or κ	κ, κ, κ	κ
2d fem.	θ	ε	ε	ε	τε
3d masc.	q	εq	q or q	q or q	q
3d fem.	c	εc	c or c	c or c	c
<i>Pl.</i>					
1st	ν	ν or εν	ν	ν	ν
2d	τν <sup>a</sup> or θυτν <sup>b</sup>	θυτν <sup>b</sup>	θυτν <sup>c</sup>	θυτν <sup>b</sup>	θυτν <sup>d</sup>
3d	(ο)γ	ογ	ογ	ογ	(ο)γ

NOTES: <sup>a</sup>τν is suffixed to the prepersonal form <sup>b</sup>θυτν is suffixed to the prenominal form <sup>c</sup>θυτν is suffixed to either the prepersonal or the prenominal form, according to each particular word <sup>d</sup>θυτν is suffixed to the prenominal form. Note that ζιωω is slightly irregular

## THE PERSONAL SUFFIXES

nations of the personal suffixes. [CG 85] You will find this table useful again as we study other kinds of morphs (such as verbs combined with a personal direct object).

There are some unpredictable differences and variations in the formation of the 2d plur. when the stem ends in τ. See CG 85 (table 6, notes).

## The Simple Prepositions

αντι- (ἀντί) instead of  
 αχν-, αχντ= without (also spelled εχν-, εχω=)  
 ε-, επο= to, for, against, in comparison to  
 ετβε-, ετβητ= because of, concerning  
 κατα-, καταρο= (κατά) according to, like, by  
 νμαζ- in the presence of (a god) [rare]  
 νν-, ννμα= with, and (also νν-)  
 ν-, νμο= of, out of, from, related to; also, mark of direct object, untranslatable  
 ν-, να= to, for  
 νca-, νcω= behind, after  
 νδi- mark of postponed subject, untranslatable  
 (ν)ναζpν-, (ν)ναζpa= in the presence of, before, in relation to  
 παρα-, παραρο= (παρά) contrary to, in comparison with, beyond, more than  
 προσ-, προσρο= (πρός) in accordance with, for; than  
 ογβε-, ογβη= opposite, towards, against  
 ογτε-, ογτω= between, among  
 χωριc- (χωρίς) without, apart from  
 ψα-, ψαρο= to, toward  
 ζα-, ζαρο= under, from, in respect of, on behalf of  
 ζι-, ζιωω= on, at, in  
 ζν-, ζητ= in, at, on, from  
 ζαριζαρο= apart, on my (your, etc.) own  
 ζωc- (ὡς) like, as if  
 xin- since (time, place)

**53.** Two personal suffixes with a single preposition are connected by ννμα= "and" (cf. 27 [b]), which is declined like να=. [CG 201] E.g. να-ν ννμη-τν = For us and you. ερο-ι ννμα-q = Against me and him. νζητ-ε ννμα-ι = Within you and me. Similarly, an additional article phrase or pronoun can be connected by νν-. E.g. να-ν νν-πεν-λαοc = For us and our people. ερο-ι νν-πα-ειωτ = Against me and my father.

## POSSESSED NOUNS

**54.** Possessed nouns are a small group (about twenty) whose possessor must be suffixed. Possessed nouns play a central role in the formation of compound prepositions, and that is why they are described in this lesson.

ρ̄ν-πρωμε mouth of the man, the man's mouth  
 ρω-ϣ mouth of him, his mouth

Like simple prepositions, they occur in two states: prenominal and prepersonal. [CG 138–40]

Here are some examples of possessed nouns. Please note that there are two possible formations of the prenominal state.

Prenominals		Prepersonal
ρ̄ν-	ρω-ϣ ρ̄ν-	ρω= = mouth of
—	ρατ-ϣ ρ̄ν-	ρατ= = foot/feet of
τ̄ν-, τε-	τοοτ-ϣ ρ̄ν-	τοοτ= = hand(s) of
—	ζητ-ϣ ρ̄ν-	ζητ= = fore part(s) of
—	ζητ-ϣ ρ̄ν-	ζητ= = belly, womb (of)
ζρ̄ν-, ζ̄ν-	ζρα-ϣ ρ̄ν-	ζρα= = face of
—	ζητ-ϣ ρ̄ν-	ζητ= = tip of
χω-	χω-ϣ ρ̄ν-	χω= = head of

Possessed nouns are peculiar. They never have an article, and they cannot be modified by an attributive or specifier construction. They are mostly used as a component to form compounds, especially compound prepositions **55**.

Possessed nouns descend from earlier Egyptian names for parts of the body, but in Coptic their meanings have become abstract. Coptic mostly uses them to express relationship, in an abstract way. To literally speak of parts of the body, Coptic uses a different set of ordinary nouns.

Literal (parts of the body)		Abstract Relationship (in compound preposition)
'foot/leg'	τ-ογερητε	ρατ=
'hand'	τ-βιχ	τοοτ=
'mouth'	τ-ταπρο	ρω=

Thus, for example, the ordinary nouns βιχ and ταπρο are used literally: 'your hand' = τεκ-βιχ, 'your mouth' = τεκ-ταπρο; but components in compound prepositions are expressed by τοοτ= and ρω=: 'give the book to you' = ετοοτ-κ (to-hand-of-you), while 'serve the food to you' = ζαρω-κ (under-mouth-of-you).

For a list of all the possessed nouns, see box at the end of this lesson.

## COMBINATIVE ADVERBS

**55.** *Compound prepositions.* Coptic has more than a hundred compound prepositions, which are based on nouns. They are composed of a simple preposition + a noun (often a possessed noun **54**) + either a hyphen (– and =) or ρ̄ν- 'of'. Compound prepositions are formed in three ways:

i. *Simple preposition + possessed noun*, ε-ρ̄ν-, ε-ρω= = to, upon ('towards mouth of'). Thus ζα-ειατ= before ('under eyes of'); ε-τ̄ν-, ε-τοοτ= to ('towards hand of'); ε-χω-, ε-χω= upon ('towards head of').

ii. *Simple preposition + def. article + noun + 'Of' construction*, ζι-τ-ογναμ ρ̄ν-, ζι-τεϣ-ογναμ = at the right of, at his right ('on the right hand of'). Thus ρ̄ν-πβολ ρ̄ν- outside of ('in the exterior of'); ε-πμα ρ̄ν- in place of ('towards the place of'); ε-πца ρ̄ν- to ('towards the side of').

iii. *Simple preposition + noun (or πι-noun) + ρ̄ν-/ρ̄μο=*, e.g. ε-<sup>0</sup>παζογ ρ̄ν-/ρ̄μο= = behind ('towards rear end of'). Thus ζι-<sup>0</sup>εη ρ̄ν-/ρ̄μο= = before ('on prow of'); ζι-<sup>0</sup>ογναμ ρ̄ν-/ρ̄μο= at the right of ('on right hand of'); ρ̄ν-πια ρ̄ν-/ρ̄μο= beyond ('in the farther side of').

[A full list of compound prepositions is given in CG 208–213.]

## COMBINATIVE ADVERBS

**56.** *Combinative adverbs* combine with prepositions, adverbs, and verbs to produce new meanings. [CG 206–7] For example, the preposition ζ̄ν- (= in) also combines with the adverb εβολ and changes its meaning

ζ̄ν-, ρ̄νητ= in  
 εβολ ζ̄ν-, εβολ ρ̄νητ= from

There are eleven combinative adverbs.

i. *Inside*: εζογν, ρ̄ζογν, ϣαζογν

ii. *Outside*: εβολ

iii. *Top-or-bottom*: εζραϊ, ρ̄ζραϊ, ϣαζραϊ

iv. *Bottom*: επεχт

v. *Front*: εεη

vi. *Rear*: επαζογ

vii. *Emotional orientation*: ρ̄νηт

Since these adverbs have meaning only in combination with something else, it is not possible to define them exactly. The first four combine with prepositions and to some extent verbs, the last three with verbs only.

2N- = in, εβολ 2N- = from  
 κω = put, κω εβολ = forgive  
 2ε ε- = find, 2ε επεσντ ε- = fall down into  
 μακ2 = feel physical pain, μακ2 2N- = feel distressed

Reference list of all the possessed nouns (54), with references to Crum's Coptic Dictionary

Prenominals	Prepersonal
—	ανα- q N-
—	αρηχ(ν)- q N-
βλ-, βλN-	βλλλ- q N-
ειεP-, ειαν-	ειαντ- q N-
—	κουν(τ)- q N-
—	λικτ- q N-
PN-	Pω- q N-
REN-	PNT- q N-
—	PAT- q N-
—	COYNT- q N-
TN-, TE-	TOOT- q N-
TOYN-	TOYω- q N-
—	ψαντ- q N-
—	2HT- q N-
—	2HT- q N-
2PN-, 2N-	2PA- q N-
2POYN-	2PA- q N-
(2)TE-, (2)TN-	2TH- q N-
—	2TH- q N-
χN-	χω- q N-
	ανα= will of (Crum p. 11a)
	αρηχ(ν)= end of (16b)
	βλλλ= outside of (33b)
	ειαντ= eye(s) of (73b)
	κουν(τ)=, κογουν= bosom of (111b)
	λικτ= covering of (140a)
	Pω= mouth of (288a)
	PNT= name of (297b)
	PAT= foot/feet of (302b)
	COYNT= value of (369b)
	TOOT= hand(s) of 425a)
	TOYω= bosom of (444b)
	ψαντ= nose of (543b)
	2HT= fore part(s) of (640b)
	2HT= belly, womb (of) (642b)
	2PA= face of (646b)
	2PA= voice of (704b)
	2TH= heart of (714a)
	2TH= tip of (718a)
	χω= head of (756a)

# EXERCISES 7

*A. Practice reciting rapidly in Coptic the full paradigm (with all eight personal suffixes) of the following prepositions, giving the English meanings as you go. na= for, nm̄ma= with, εροϥν ερπα= in towards, ερο= against, m̄mo= of, εροϥν ερο= into, εχω= upon, n̄zht= in, ax̄n̄t= without, ετβhnt= because of, ρpaī n̄zht= above/below in, εβολ n̄zht= from, ριω= on.*

*Practice reciting each paradigm backwards (3d pl., 2d pl., 1st pl., 3d sing. fem., etc.).*

*B. Practice translating rapidly until you are fluent.*  $\text{na-}\bar{\text{i}}$ ,  $\text{n}\bar{\text{m}}\text{me-}^{\emptyset}$ ,  $\text{z}\bar{\text{i}}\omega\omega\text{-q}$ ,  $\text{e}\bar{\text{z}}\bar{\text{o}}\bar{\text{y}}\bar{\text{n}}$   $\text{e}\bar{\text{z}}\bar{\text{p}}\bar{\text{a}}\text{-c}$ ,  $\text{e}\bar{\text{p}}\bar{\omega}\text{-t}\bar{\text{n}}$ ,  $\bar{\text{m}}\bar{\text{m}}\bar{\text{o}}\text{-}\bar{\text{i}}$ ,  $\text{e}\bar{\text{z}}\bar{\text{o}}\bar{\text{y}}\bar{\text{n}}$   $\text{e}\bar{\text{p}}\bar{\text{o}}\text{-k}$ ,  $\text{e}\bar{\text{x}}\bar{\omega}\text{-q}$ ,  $\bar{\text{n}}\bar{\text{z}}\bar{\text{h}}\bar{\text{t}}\text{-}\bar{\text{n}}$ ,  $\bar{\text{a}}\bar{\text{x}}\bar{\text{n}}\bar{\text{t}}\text{-o}\bar{\text{y}}$ ,  $\text{e}\bar{\text{t}}\bar{\text{v}}\bar{\text{h}}\bar{\text{n}}\bar{\text{t}}\text{-}^{\emptyset}$ ,  $\text{z}\bar{\text{p}}\bar{\text{a}}\bar{\text{i}}$   $\bar{\text{n}}\bar{\text{z}}\bar{\text{h}}\bar{\text{t}}\text{-e}$ ,  $\text{e}\bar{\text{v}}\bar{\text{o}}\bar{\text{a}}$   $\bar{\text{n}}\bar{\text{z}}\bar{\text{h}}\bar{\text{t}}\text{-}\bar{\text{c}}$ ,  $\bar{\text{n}}\bar{\text{h}}\text{-t}\bar{\text{n}}$ ,  $\bar{\text{n}}\bar{\text{m}}\bar{\text{m}}\bar{\text{a}}\text{-}\bar{\text{i}}$ ,  $\text{z}\bar{\text{i}}\omega\omega\text{-k}$ ,  $\text{e}\bar{\text{z}}\bar{\text{o}}\bar{\text{y}}\bar{\text{n}}$   $\text{e}\bar{\text{z}}\bar{\text{p}}\bar{\text{e}}\text{-}^{\emptyset}$ ,  $\text{e}\bar{\text{p}}\bar{\text{o}}\text{-c}$ ,  $\bar{\text{m}}\bar{\text{m}}\bar{\omega}\text{-t}\bar{\text{n}}$ ,  $\text{e}\bar{\text{z}}\bar{\text{o}}\bar{\text{y}}\bar{\text{n}}$   $\text{e}\bar{\text{p}}\bar{\text{o}}\text{-o}\bar{\text{y}}$ ,  $\text{e}\bar{\text{x}}\bar{\omega}\text{-k}$ ,  $\bar{\text{n}}\bar{\text{z}}\bar{\text{h}}\bar{\text{t}}\text{-}\bar{\text{q}}$ ,  $\bar{\text{a}}\bar{\text{x}}\bar{\text{n}}\bar{\text{t}}\text{-}\bar{\text{n}}$ ,  $\text{e}\bar{\text{t}}\bar{\text{v}}\bar{\text{h}}\bar{\text{n}}\bar{\text{t}}\text{-o}\bar{\text{y}}$ ,  $\text{z}\bar{\text{p}}\bar{\text{a}}\bar{\text{i}}$   $\bar{\text{n}}\bar{\text{z}}\bar{\text{h}}\bar{\text{t}}\text{-}^{\emptyset}$ ,  $\text{e}\bar{\text{v}}\bar{\text{o}}\bar{\text{a}}$   $\bar{\text{n}}\bar{\text{z}}\bar{\text{h}}\bar{\text{t}}\text{-}\bar{\text{k}}$ ,  $\text{na-q}$ ,  $\bar{\text{n}}\bar{\text{m}}\bar{\text{m}}\bar{\text{h}}\text{-t}\bar{\text{n}}$ ,  $\text{z}\bar{\text{i}}\omega\text{-o}\bar{\text{y}}$ ,  $\text{e}\bar{\text{z}}\bar{\text{o}}\bar{\text{y}}\bar{\text{n}}$   $\text{e}\bar{\text{z}}\bar{\text{p}}\bar{\text{a}}\text{-y}$ ,  $\text{e}\bar{\text{p}}\bar{\text{o}}\text{-k}$ ,  $\bar{\text{m}}\bar{\text{m}}\bar{\text{o}}\text{-q}$ ,  $\text{e}\bar{\text{z}}\bar{\text{o}}\bar{\text{y}}\bar{\text{n}}$   $\text{e}\bar{\text{p}}\bar{\omega}\text{-t}\bar{\text{n}}$ ,  $\text{e}\bar{\text{x}}\bar{\omega}\text{-o}\bar{\text{y}}$ ,  $\bar{\text{n}}\bar{\text{z}}\bar{\text{h}}\bar{\text{t}}\text{-}\bar{\text{k}}$ ,  $\bar{\text{a}}\bar{\text{x}}\bar{\text{n}}\bar{\text{t}}\text{-}\bar{\text{q}}$ ,  $\text{e}\bar{\text{t}}\bar{\text{v}}\bar{\text{e}}\text{-t}\bar{\text{h}}\bar{\text{y}}\bar{\text{t}}\bar{\text{n}}$ ,  $\text{z}\bar{\text{p}}\bar{\text{a}}\bar{\text{i}}$   $\bar{\text{n}}\bar{\text{z}}\bar{\text{h}}\bar{\text{t}}\text{-o}\bar{\text{y}}$ .

*C. Practice translating rapidly into Coptic until you are fluent. a. For you (sing. masc.). With him. On her. In towards us. Against them. Of you (sing. masc.). b. Into you (sing. fem.). Upon us. In you (pl.). Without me. Because of you (sing. masc.). c. Above/Below in him. From us. For them. With you (sing. masc.). On you (sing. fem.) d. In towards him. Against us. Of them. Into me. Upon you (sing. fem.). e. In us. Without you (pl.). Because of me. Above/Below in you (sing. masc.). From you (sing. fem.). f. For her. With them. On me. In towards me. Against you (sing. fem.). Of us. g. Into them. Upon me. In you (sing. fem.). Without us. Because of them. Above/Below in you (pl.).*

*D. Translate.* a.  $\bar{m}$ - $\pi\alpha$ - $\bar{m}$ το εβολ.  $\bar{m}$ - $\pi\epsilon\gamma$ - $\bar{m}$ το εβολ. b.  $\zeta\omega\varsigma$ - $\theta$ ωηρε.  $\kappa\alpha\tau\alpha$ - $\tau\epsilon\varphi$ - $\zeta\epsilon$ . c.  $\zeta\bar{n}$ - $\tau\epsilon$ - $\gamma\omega\eta$ .  $\epsilon$ - $\tau$ - $\pi\omicron\lambda\iota\varsigma$ .  $m\bar{n}$ - $\nu\epsilon\varphi$ - $\omega\upsilon\epsilon\epsilon\rho$ . d.  $\alpha\chi\bar{n}$ - $\theta$ μοογ  $\zeta\iota$ - $\theta$ οεικ.  $\epsilon\chi\bar{m}$ - $\pi$ - $\kappa\alpha\zeta$ .  $\zeta\iota$ - $\tau\epsilon$ - $\zeta\iota\eta$ . e.  $\epsilon\tau\upsilon\epsilon$ - $\tau\epsilon\varphi$ - $\alpha\gamma\alpha\pi\eta$ . f. εβολ  $\zeta\bar{m}$ - $\pi\epsilon\bar{\iota}$ - $\mu\alpha$ .  $\epsilon$ - $\pi\epsilon\bar{\iota}$ - $\mu\alpha$ .  $\zeta\bar{m}$ - $\mu\alpha$   $n\bar{m}$ . g.  $\epsilon\pi\mu\alpha$   $\bar{m}$ - $\pi\epsilon\varphi$ - $\lambda\alpha\omicron\varsigma$ .  $\epsilon\zeta\omicron\gamma\epsilon$ - $\pi\epsilon\varphi$ - $\lambda\alpha\omicron\varsigma$ .  $\epsilon\pi\epsilon\zeta\omicron\gamma\omicron$ . h.  $\theta$ ζοογт н  $\theta$ ςζιμε.  $\bar{n}$ -ζοογт  $\chi\bar{n}$ - $\nu\epsilon$ - $\zeta\iota\omicron\mu\epsilon$ .

# LESSON 8

## POSSESSIVE PRONOUN. SURVEY OF ARTICLES AND PRONOUNS.

57. You have already learned how to form nominal sentence predicates of

### i. Identity

Who are they?  $\text{NIM NE}$

They are *my brothers*  $\text{NA-CNHY NE}$

### ii. Description 44

Of what sort is he?  $\text{OY-AW N-2E PE}$

He is *true*  $\text{OY-ME PE}$

He is *like this, of this sort*  $\text{OY-TEI-MINE PE}$

Next we shall study how to form nominal sentence predicates of

### iii. Ownership (being owned)<sup>12</sup> [CG 296]

Whose is it?  $\text{PA-NIM PE}$

It is *John's*  $\text{PA-IWZANNHC PE}$

It is *mine*  $\text{PA-I PE}$

For this, Coptic uses the *possessive pronoun* [CG 54]

$\text{PA-}, \text{TA-}, \text{NA-}^{13}$  (the) one(s) of . . . , belonging to . . .  
 $\text{PA-}, \text{TA-}, \text{NA-}$

The  $\text{PA-}$  set must be completed by an article phrase or equivalent; the  $\text{PA-}$  set must be completed by a personal suffix 52.

$\text{PA-PA-XOEIC PE PA-KAZ}$  = the earth is *the Lord's*

$\text{TA-K TE T-BOM MN-PA-EOOY}$  = *Yours* (sing. masc.) is the power and the glory

$\text{NTETN-PA-TN AN}$  = you (pl.) are not *your own* (you-are ones-who-belong-to-you not)

<sup>12</sup> "Ownership" is here meant in the vaguest possible way, like the 'Of' construction, described in 29.

<sup>13</sup> It is important to distinguish  $\text{PA-}$  "the one of . . ." from the 1st person possessive article 30  $\text{PA-}$  "my . . ."

## THE POSSESSIVE PRONOUN

$\text{NOY-K NOY-I NE}$  = *Thine are Mine* (ones-who-belong-to-you are ones-who-belong-to-me)

$\text{AN-PA-PA-GLOR}$  I *belong to Paul*

Full paradigm of  $\text{PA-}, \text{TA-}, \text{NOY-}$  with personal suffixes ( $\text{PA-}$  and  $\text{TA-}$  follow the pattern of  $\text{EXW}$  "upon").

	masc.	fem.	pl.
mine	$\text{PA-I}$	$\text{TA-I}$	$\text{NOY-I}$
yours (sing. masc.)	$\text{PA-K}$	$\text{TA-K}$	$\text{NOY-K}$
yours (sing. fem.)	$\text{PA-}$	$\text{TA-}$	$\text{NOY-}$
his	$\text{PA-Q}$	$\text{TA-Q}$	$\text{NOY-Q}$
hers	$\text{PA-C}$	$\text{TA-C}$	$\text{NOY-C}$
ours	$\text{PA-N}$	$\text{TA-N}$	$\text{NOY-N}$
yours (pl.)	$\text{PA-TN}$	$\text{TA-TN}$	$\text{NOY-TN}$
theirs	$\text{PA-OY}$	$\text{TA-OY}$	$\text{NOY-OY}$

Compare the possessive article:

my	$\text{PA-EIWT}$	$\text{TA-MAY}$	$\text{NA-CNHY}$
your (sing. masc.)	$\text{PEK-EIWT}$	$\text{TEK-MAY}$	$\text{NEK-CNHY}$
your (sing. fem.)	$\text{POY-EIWT}$	$\text{TOY-MAY}$	$\text{NOY-CNHY}$
his	$\text{PEQ-EIWT}$	$\text{TEQ-MAY}$	$\text{NEQ-CNHY}$
her	$\text{PEC-EIWT}$	$\text{TEC-MAY}$	$\text{NEC-CNHY}$
our	$\text{PEN-EIWT}$	$\text{TEN-MAY}$	$\text{NEN-CNHY}$
your	$\text{PETN-EIWT}$	$\text{TEN-MAY}$	$\text{NETN-CNHY}$
their	$\text{PEY-EIWT}$	$\text{TEY-MAY}$	$\text{NEY-CNHY}$

The possessive pronoun follows the pattern  $\text{PA-T-N}$  of the simple definite article. The initial letters  $\text{P}, \text{T}, \text{N}$  express the number/gender of the person or thing spoken about. The personal suffixes 52 ( $\text{I}, \text{K}, \text{Q}, \text{C}, \text{N}, \text{TN}, \text{OY}$ ) express the person, number, and gender of the possessor.

$\text{PA-I}$  = (the) [sing. masc.] one belonging to + me = mine  
 $\text{TA-K}$  = (the) [sing. fem.] one belonging to + you [sing. masc.] = yours  
 $\text{PA-}$  = (the) [sing. masc.] one belonging to + you [sing. fem.] = yours  
 $\text{NOY-}$  = (the) [pl.] ones belonging to you = yours  
 $\text{PA-OY}$  = theirs,  $\text{NOY-OY}$  = theirs, etc.

58.  $\text{PA-}, \text{PA-}$  is also used pronominally, always looking back to a preceding (possessive) article phrase:

$\text{PA-PNEUMA MN-PA-TN}$  = my spirit and *yours*  
 $\text{PEQ-EOOY MN-PA-PEQ-EIWT}$  = His glory and *that of His Father*

**59.** Finally, two more kinds of nominal sentence predicate must be learned, namely, predicates of

iv. Source, origin, and agential cause [CG 302]

*Whence is it? From where does it come?* ογ-εβολ των πε

It is from God ογ-εβολ ζμ-π-νουτε πε

For this, Coptic uses the indefinite article ογ-/ζεν- expanded by the prepositions εβολ ζν-, εβολ ν-, or (for agential cause) εβολ ζιτν- = from.

ντετν-ζεν-εβολ ζμ-πεϊ-κοσμος = you are of (from) this world

παϊ ογ-εβολ μο-ογ πε = this one is one of them

αντ-ογ-εβολ αν ζμ-πεϊ-κοσμος = I am not of (from) this world

τεϊ-νοβ ν-αωρεα ογ-εβολ ζιτν-π-νουτε τε = this great gift is from God

v. Relationship (time; location measured 'from' or 'towards'; and manner) [CG 298]

*For how long is it? How long will it endure?* ωα-ογνρ πε

It is *eternal* (unto-eternity) ωα-ενεζ πε or ογ-ωα-ενεζ πε

For this Coptic uses the appropriate preposition either with or without the indefinite article ογ-/ζεν-.

ζεν-ωα-ενεζ νε = they are *eternal* (some-instances-of-unto-eternity)

ογ-προς-<sup>0</sup>ογοειω πε = it is *temporary* (an-instance-of-in-relation-to-time)

πεq-ροογω πε ετβε-ν-ζηκε = his care is *for the poor*

ε-π-χινχη τε = it is *in vain* (unto-the-uselessness)

## SURVEY OF ARTICLES AND PRONOUNS

**60.** Below are listed all the articles based on π-τ-ν, together with their corresponding pronouns. [CG 42-60]

π-, τ-, ν- (lesson 1) = the

No corresponding pronoun

πα- (πεκ-, etc.) **30** = my (your, etc.)

πω-, τω-, νογ- **57** (iii)-**58** = mine (yours, etc.)

πκε-, τκε- νκε- = the other (the second, the contrasting)

πκε, τκετ, νκοογε = the other

πι-, τ-, νι- = the, that, this (expressing either emotional involvement<sup>14</sup> or remoteness in place or time)

πн, тн, нн = he, it, that one, this one

<sup>14</sup> E.g. with vices, virtues, angels, demons, etc.

## SURVEY OF ARTICLES AND PRONOUNS

πεϊ-, τεϊ-, νεϊ- = this, the following, the previously mentioned **18**

παϊ, ταϊ, ναϊ = this, he, it, the following, the preceding **18**

π-/τ-/ν- ... ετμμαγ that (over there), the previously mentioned; **130** (π-нї

ετμμαγ = that house, τε-ζин ετμμαγ = that road)

πετμμαγ, тетμμαγ, нетμμαγ = that, he, she, they, it **130**

**61.** Articles and corresponding pronouns like ογ-, ζεν-:

ογ-, ζεν- (lesson 1) = a, some, —<sup>15</sup> **18**

ογα, ογει, ζοεινε = one, a certain one, some, certain ones **18**

κε-<sup>16</sup>, ζενκε- = another (a second, a contrasting)

βε, κετ (κετε sing. fem.), ζενκοογε = another (a second, a contrasting)

**62.** Other articles and corresponding pronouns:

<sup>0</sup> = the zero article, cf. **25, 26**

ογον = Untranslatable pronoun, used as a filler in certain constructions

... ним = any, every, all

ογον ним = any, each, all

Note that ним follows its noun, as a separate item (like cнay 'two' **47**)<sup>17</sup>.

<sup>15</sup> ζεν- [some]: In English we often express the indef. plur. by omitting the article before a plural noun: a house (sing.), houses (plur.).

<sup>16</sup> Note carefully that the combination ογ-κε- does not occur.

<sup>17</sup> Caution: this word is not the same as interrogative ним = 'who?' **43**.

# VOCABULARY 8

Learn all the articles 60-62.

More prepositions

ῥα-, ῥαρο=	under, at, from, in respect of, on behalf of	ὑπό, ὑπέρ, περί
ψα-, ψαρο=	to, toward (esp. people)	πρός, εἰς, ἕως
μῆνῆσα-, μῆνῆσω=	after (temporal)	μετά
χῖν-	from . . . onwards, since	ἀπό
(ἦ)ναῖρῆ-, (ἦ)ναῖρα=	in the presence of, before, in the opinion of, compared with	πρός

Prepositions based on τῆν-, τοοτ= (hand-of)

ῥιτῆν-, ῥιτοοτ=	through, by, from	ἀπό, διά
εβολ ῥιτῆν-, εβολ ῥιτοοτ=	through, by, from	ἀπό, διά
ἦτῆν-, ἦτοοτ=	in, by, with, beside, from	ἀπό, παρά
ετῆν-, ετοοτ=	to	Greek dative
ῥατῆν-, ῥατοοτ=	beside, with	πρός

Preposition based on χῆν-, χω= (head-of)

ῥιχῆν-, ῥιχω=	upon, over, in, on, at, beside; for, through, from upon	ἐπί
---------------	--	-----

More adverbs

ἐνεῖ	ever (as in "not ever")	(οὐδέ)ποτε
ἦωρπ	first of all, formerly	πρῶτον
τενοῦ	now	νῦν
ἦτεῦνοῦ	suddenly, immediately	εὐθύς, εὐθέως
χῖν-ἦωρπ	from the first	ἀπ' ἀρχῆς
χῖν-τενοῦ	from now on	νῦν, ἄρτι, ἤδη
ψα-ἐνεῖ	forever	εἰς τὸν αἰῶνα

Conjunction

ἦσα-	except	εἰ μή
------	--------	-------

# EXERCISES 8

A. Practice translating rapidly into Coptic until you are fluent.

My deed and yours (sing. masc.). Cf. 58.

His deed and yours (sing. fem.).

Her deed and yours (pl.).

Our deeds and theirs.

Our deeds and yours (pl.).

Your (sing. masc.) deed and his.

Your (sing. masc.) hand and his.

Our hands and his.

His hands and ours.

His wife and mine.

Her husband and mine.

B. Translate. a. πκε-κοσμος. τκε-πε. ἡκε-ῥιοογε. b. πι-νοβ  
ἡ-ραψε. †-ςῥιμε. τ-πολις ετῆμαγ. c. ἡ-ψηρε ψημ ετῆμαγ.  
π-μα ετῆμαγ. d. κε-ῥιη. ῥενκε-ῥιοογε. ῥιη nim. e. πολις nim.  
ψηρε ψημ nim. ῥιμε nim. κοσμος nim. f. κε-ςναγ ἡ-αποστολος.  
αποστολος ςναγ. π-αποστολος ςναγ. g. κε-κοσμος. κε-ογα. βε.  
κετ. h. ογον nim. πη. παῖ. πετῆμαγ. νετῆμαγ.

C. Translate into Coptic. a. The other law. b. Some other places. c. Another  
day. d. Every day. e. Every place. f. That place. g. Those places. h. Those  
days. i. These days. j. The other days. k. Some other days. l. From that place.  
m. To that place. n. In that place.

D. Translate. a. τω-ῥ τε τ-βομ, πω-ῥ πε π-εοογ, αγω πω-ῥ  
πε π-ταειο. b. πα-π-νογτε πε π-καρ. π-καρ πα-π-νογτε πε.  
c. να-πεῖ-ρωμε νε ἡ-ψηρε ετῆμαγ. d. ογ-εβολ ῥιτῆ-π-ρωμε  
πε π-νοβε, αλλα ογ-εβολ ῥιτῆ-π-νογτε τε τε-χαρις. e. νεῖ-  
ρωμε ῥεν-εβολ των νε. ῥεν-εβολ των νε νεῖ-ρωμε.

E. Translate into Coptic, giving alternate translations where possible.  
a. This nation is mine. b. That house is not yours (sing. masc.), it is Mary's.  
c. These houses are not yours (sing. masc.). d. You (pl.) do not belong to this  
nation. e. Where does this nation come from (59 [iv])? f. Where are you

(sing. fem.) from? *g.* I am not from this world. *h.* I do not belong to this world. *i.* I am God's. *j.* I am from God.

*F. Translate.* a. εβολ ριτῆ-οὔ-αγγελος. b. ἡτῆ-π-αρχιερεῦς. c. εβολ ριτοοτ-οὔ. d. ετῆ-πε-γραμματεῦς. e. ρατοοτ-с. f. ρατῆ-τα-ριμε. g. ρα-περ-λαος. h. ψα-πε-προφητης. i. ψαρο-ρ. j. μῆῆσα-οὔψη сῆτε. k. χιν-τενοῦ. l. ἡναρῆ-πε-ῆς. m. εχῆ-πτοοῦ. n. εχω-н. o. ριτῆ-ῆ-μογειοοῦε.

# LESSON 9

DURATIVE SENTENCE. INFINITIVE AND  
STATIVE. ADJECTIVAL MEANING.  
COMPARATIVE AND SUPERLATIVE.  
DIRECT OBJECT. ADDITIONAL PREDICATE  
AFTER A DIRECT OBJECT. INGRESSIVE.

Hereafter in this book, prefixed articles (π-, οὔ-, περ- etc.) will no longer be set off by a hyphen. You can now expect to find πρωμε, οὔρωμε, ταμααῦ, πείλαος, etc.

## THE DURATIVE SENTENCE

**63.** The durative sentence consists of subject + predicate, always in that order. There are three types of durative sentence, which can be recognized by the kind of subject that occurs. [CG 305-24]

i. A *definite subject*: def. article phrase or its equivalent (πρωμε, παῖ, μαρια, etc.).

πρωμε βωλ = the man is releasing *or* releases

ii. A *personal subject prefix* of the durative sentence.

ρ-βωλ = he is releasing *or* releases

### The Personal Subject Prefixes

†-	τῆ-	I (am)	we (are)
κ-	τετῆ-	you (are)	you (are)
τε-		you (are)	
ρ-	σε-	he (is)	they (are)
с-		she (is)	

iii. A *non-definite subject* (οὔρωμε, οὔα, ὁρωμε, λααῦ, λααῦ ἡ-ρωμε etc.) must be preceded by

οὔῆ- *there is*

μῆ- or ῆμῆ- *there is no(t), or*

εῖс- *behold*

Thus:

- οὐν-οὐρωμε βαλ = a man is releasing *or* releases  
 εις-οὐρωμε βαλ = behold, a man is releasing *or* releases  
 μν-λααυ βαλ = no one is (there is not any) releasing *or* no one releases

(εις- *behold* also occurs with definite subject. [CG 479])

With each of these subjects, four kinds of predicate can occur interchangeably. The predicate follows the subject.

#### THE FOUR INTERCHANGEABLE PREDICATES OF THE DURATIVE SENTENCE

- (a) An *infinitive* form of the verb (see 66). βαλ = is releasing, releases  
 (b) A *stative* form of the verb (see 66). βηλ = is free (describing a static condition after the action of releasing has ended).  
 (c) A *prepositional phrase or adverb* expressing situation<sup>18</sup>.  
 (d) The future auxiliary να- *will . . . , is going to . . .* completed by an infinitive. να-βαλ = will release, is going to release.

The four kinds of predicate and the three types of subject combine into twelve possible sentence forms (4 × 3).

Predicate = infinitive

1. παχοεις βαλ = My master is releasing *or* releases
2. q-βαλ = He is releasing *or* releases
3. οὐν-<sup>θ</sup>ρωμε βαλ = People are releasing *or* release

Predicate = stative

4. πεῖλαος βηλ = This nation is free
5. q-βηλ = It is free
6. οὐν-<sup>θ</sup>λαος βηλ = Some nations are free

Predicate = prepositional phrase or adverb expressing situation

7. παχοεις ζμ-πεqhī = The lord is in his house
8. q-ζμ-πεqhī = He is in his house
9. οὐν-<sup>θ</sup>ρωμε ζμ-πεqhī = There are people in his house

<sup>18</sup> Examples of situational prepositions: εχν- upon, μν- with, ντν- in, by, ναζρν- in the presence of, ουβε- opposite, ζα- under, ζι- on, ζν- in, ζραι ζν- in, ζαρω- beneath, ζαρατ- beneath, ζιχν- upon, ζραι ζιχν- upon. Situational adverbs include μμαγ is there, μπουγ (is) today, falls on today's date; των (is) where?, where is?; ταῖ (is) here (only in the phrase ετ-ταῖ = which is here).

Predicate = future auxiliary να- completed by infinitive

10. παχοεις να-βαλ = My master is going to release *or* will release
11. q-να-βαλ = He is going to release *or* will release
12. οὐν-<sup>θ</sup>ρωμε να-βαλ = People are going to release *or* will release

These predicates are "durative" in the sense that they express an enduring, ongoing, or general action, process, or state; or an imminently anticipated action or process.

#### 64. There are two forms of negation.

(a) Negation with *definite or personal subject* [CG 317-18] is

(ν-) Subject (def./personal) + Predicate αν

Negative αν comes after the predicate and is always required; negative ν- (μ- before π or non-syllabic μ) is optional, and is prefixed to the subject.

μ-παχοεις βαλ αν = My master is not releasing *or* does not release

ν-q-βαλ αν = He is not releasing *or* does not release

μ-πεῖλαος βηλ αν = This nation is not free

ν-q-βηλ αν = It is not free

μ-παχοεις ζμ-πεqhī αν = The lord is not in his house

ν-q-ζμ-πεqhī αν = He is not in his house

μ-παχοεις να-βαλ αν = My master is not going to release *or* will not release

ν-q-να-βαλ αν = He is not going to release *or* will not release

(And all the above without ν-.)

(b) Negation with non-definite subject [CG 322] is

μν- Subject + Predicate

Here μν- or μμν- appears in place of οὐν- and εις-.

μν-<sup>θ</sup>ρωμε βαλ = No one is releasing *or* releases, People are not releasing *or* do not release, etc.

μν-<sup>θ</sup>λαος βηλ = No nations are free

μν-<sup>θ</sup>ρωμε ζμ-πεqhī = There are no people in his house, No one is in his house, etc.

μν-<sup>θ</sup>ρωμε να-βαλ = No people are going to release *or* will release, No one is going to release *or* will release, People are not going to release *or* will not release, etc.

65. Personal subject prefixes with *na-* future:

†-na-	τ̄n-na-
κ-na-	τετνα- (sic)
τε-na-	
q-na-	ce-na-
c-na-	

## THE VERB: INFINITIVE AND STATIVE

66. Two important forms of the verb have already been mentioned in this lesson—the infinitive and the stative, and you will now begin learning about each of these.

*Infinitives* [CG 159–60] express action (*βαλ* = release), process (*μογ* = die), or acquisition of a quality (*ογβαγ* = become white).

The corresponding *statives* [CG 162, 168] describe the enduring state of a subject after the action or process or quality is achieved: thus *statives* *βηλ* = free, *μοογτ* = dead, *ογοβγ* = white. The stative can only be used in durative sentences. Not every verb has both forms; many infinitives have no stative, and a few *statives* have no infinitive. In the dictionary verbs are filed under the infinitive form (*βαλ*) and *statives* are marked with an elevated obelus symbol (*βηλ*<sup>†</sup>).

67. Any infinitive can also be used as a masculine noun, which expresses either the action of the infinitive or its result or both. [CG 105(c)] Thus infinitive *απο* = to bear, to give birth to, masc. noun *απο* = birth, offspring; infin. † = to give, masc. noun † = charity; infin. *ει εβολ* = come forth, masc. noun *ει εβολ* = exodus; etc. In fact you have already learned a few infinitives as nouns in the vocabularies leading up to this lesson. They are:

<i>μογ</i> , to die
<i>μεεγε</i> , to think
<i>ραγε</i> , to rejoice
<i>κοπ̄</i> , to entreat, console
<i>κοογν</i> , to become acquainted with, know
<i>ταειο</i> , to honor
<i>ογχαϊ</i> , to become healthy, safe, saved
<i>ων̄</i> , to live
<i>ψαχε</i> , to speak

The verbal meaning can be negated by the prefix *τ̄m-* = not. Thus *π-τ̄m-†* = the act of not giving; not to give. [CG 161]

68. Greco-Coptic verbs have only an infinitive, which takes a form resembling the Greek active imperative singular. This is very close to the Greek verbal stem.

*πιστευε* = believe, *βαπτιζε* = baptize, *μετανοει* = repent, *παρὰδιδου* = betray, *αρνα* = deny. [CG 191–92]

## 69. List of Common Egyptian-Coptic Infinitives That Have a Stative

(a) Action (transitive verbs).

<i>βαλ</i>	release, interpret	= λύειν
<i>βηλ</i> <sup>†</sup>	free (after release), interpreted	= λύεσθαι
<i>βαλ εβολ</i>	destroy, dissolve	= λύειν
<i>βηλ</i> <sup>†</sup> <i>εβολ</i>	ruined	= λύεσθαι
<i>ειρε</i>	make, do	= ποιεῖν
<i>ο</i> <sup>†</sup>	be ( <i>ο</i> <sup>†</sup> <i>n-</i> )	= εἶναι
<i>κω</i>	put	= ἐφίεναι, τιθέναι
<i>κη</i> <sup>†</sup>	be, lie	= κεῖσθαι
<i>κω εβολ</i>	forgive, release	= ἀπολύειν, ἀφίεναι
<i>κη</i> <sup>†</sup> <i>εβολ</i>	forgiven	= ἀφίεσθαι
<i>κωτ</i>	build, build up	= οἰκοδομεῖν
<i>κητ</i> <sup>†</sup>	built up, situated	= οἰκοδομεῖσθαι
<i>μογρ</i>	bind	= δεῖν
<i>μηρ</i> <sup>†</sup>	bound, under arrest	= δεῖσθαι, δέσμιος
<i>μογρ</i>	fill	= πιμπλάναι, πληροῦν
<i>μερ</i> <sup>†</sup>	full	= γέμειν, μεστός
<i>̄m-ton</i>	cause to rest, refresh	= ἐπαναπαύειν
<i>μοτ̄n</i> <sup>†</sup>	easy, restful, refreshed	= εὐκοπος
<i>νογχε</i>	throw, cast	= βάλλειν
<i>νηχ</i> <sup>†</sup>	lie, recline	= ἀνακεῖσθαι
<i>πωγ</i>	divide	= κλᾶν
<i>πηγ</i> <sup>†</sup>	(be) split	= μερίζεσθαι
<i>κοβτε</i>	prepare	= ἐτοιμάζειν
<i>κοβτωτ</i> <sup>†</sup>	ready	= ἐτοιμος
<i>κομγ</i>	bless	= εὐλογεῖν
<i>κομαμαλτ</i> <sup>†</sup>	blessed, happy	= εὐλογητός, εὐλογεῖσθαι
<i>κοτ̄π</i>	choose	= ἐκλέγεσθαι
<i>κοτ̄π</i> <sup>†</sup>	elect, chosen	= ἐκλεκτός
<i>κοωγρ</i>	gather	= συνάγειν
<i>κοωγρ</i> <sup>†</sup>	assembled	= συνάγεσθαι, συνέρχεσθαι
<i>κορ̄αϊ</i>	write	= γράφειν
<i>κορ̄αϊ</i> <sup>†</sup>	scripture, written	= γεγράφεσθαι

†	give, give back	= (ἀπο)διδόναι
το†	fated, put	= ἐξεστίν
τῆβο	purify	= καθαρίζειν
τῆβηγ†	pure	= καθαρὸς
ταειο	to honor	= τιμᾶν
ταειηγ†	glorious, honored	= ἔντιμος, δοξάζεσθαι
τακο	ruin	= ἀπολλύναι
τακηγ†	corrupt	= διαφθείρεσθαι
ταλο	take up, mount, board	= ἀναλαμβάνειν
ταληγ†	seated, on board	= καθῆσθαι
τωζῆ	invite	= καλεῖν
ταζῆ†	invited, invitee	= κλητὸς, καλεῖσθαι
ταχρο	make firm	= στηρίζειν
ταχρογ†	solid	= βέβαιος
ογων	make open	= ἀνοίγειν
ογην†	open	= ἀνοίγεσθαι
ογωνζῆ εβολ	reveal	= φανεροῦν
ογονζῆ† εβολ	manifest, clear	= φανερός, φαντάζεσθαι
ογωνζῆ	lay upon, occupy	= προστιθέναι, κατοικεῖν
ογηνζῆ†	rest, inhabit	= μένειν, κατοικεῖν
ογχαῖ	become healthy, saved	= σφάζεσθαι
ογοχ†	healthy, saved, safe	= ὑγιής
ωπ	calculate, consider	= λογίζεσθαι
ηπ†	reckoned	= ἀριθμεῖσθαι
ωωπ	receive, buy	= δέχεσθαι, ἀγοράζειν
ωηπ†	accepted, acceptable	= δεκτός
ωωωτ	cut off, sacrifice, lack	= ἐκκόπτειν, θύειν, ὑστερεῖν
ωαα†	fall short, be lacking	= ὑστερεῖν
ωτορτῆ	disturb	= ταρασσεσθαι
ωτῆρτωρ†	disturbed	= θορυβεῖσθαι
ζωπ	hide	= κρύπτειν
ζηπ†	secret	= κρυπτός
χο	sow	= σπείρειν
χηγ†	sown with seed	= σπόριος
χωκ εβολ	fill	= πληροῦν
χηκ† εβολ	full	= πλήρης, πληροῦσθαι

χιε	raise up	= ὑψοῦν
χοε†	high	= ὑψηλός

## (b) Process.

ειβε	become thirsty	= διψᾶν
οβε†	thirsty	= διψᾶν
μογ	die (become dead)	= ἀποθνήσκειν
μοογ†	dead	= νεκρός
ωνζῆ	live, become alive	= ζῆν
ονζῆ†	alive	= ζῆν
ωωπε	become, come into existence	= γίνεσθαι
ωοοπ†	be, dwell, exist	= εἶναι
ζιε	become tired, labor	= κοπιᾶν
ζοε†	tired	= κοπιᾶν

## (c) Acquisition of a quality.

ογβαω	become white	= λευκὸς γίνεσθαι
ογοβω†	white	= λευκός
ωοογε	become dry	= ξηραίνεσθαι
ωογωγ†	dry	= ξηρός
ζων εζογν	draw near	= ἐγγίζειν
ζην† εζογν	near	= ἐγγύς
no infinitive		
ζοογ†	bad, evil	= πονηρός

All these verbs occur more than fifty times in the New Testament and must be learned thoroughly.

**70. Adjectival meaning of statives.** Many statives have the meaning of English adjectives, as the list in 69 well demonstrates (is full, is easy, is ready, is happy, is pure, is glorious, is corrupt, is solid, is dead, is white, is dry, etc.). In fact Coptic has several different ways to express adjectival meaning:

## (a) The adjective as such 35.

ζαπ ἡ-πονηρος = wicked judgement  
 ογπονηρος πε = It is wicked  
 q-o ἡ-πονηρος = It is wicked 82

## (b) The noun in certain constructions.

ζαπ ἡ-νογτε = divine judgement 36  
 ογνογτε πε = It is divine 38  
 q-o ἡ-νογτε = It is divine 82

(c) The stative in a durative sentence 66.

q-me2 = It is full

(d) Later on (101) you will learn a fourth way, called the verboid.

na2noy-q = It is good

In 130 you will learn how a stative or verboid, attached by a relative converter, can modify a noun:

tpolice et<sup>0</sup>-o2a2b = the holy city (the-city that-is-holy)

tes2ime et-na2noy-c = the good woman (the-woman who-is-good)

**71.** The *comparative* of adjectival meaning [CG 95] is expressed by adding an appropriate preposition of comparison such as e-, epo= *than* or by the simple definite article in a context that makes things clear.

pkoyi epo-q = the one who is *lesser* than he (small with regard to him)

aw pe pno6. pnoyb pe xñ-perpe pe = Which is *greater*? Is it gold or is it the temple?

tetñ-2ove e-2a2 = You are *more valuable* (stative) than many

The *superlative* is expressed by a possessive article (pey-, tey-, ney) or by the simple definite article in a context that makes things clear.

peyno6 = the *greatest* of them [their-great-one]

aw pe pno6 ñ2ht-o2 = Which is the *greatest* among them?

p2a2lo = the *Eldest* (administrative title in monastery)

**72. Direct objects.** [CG 166] The infinitive of verbs of action-being-done-to-some-one (called *transitive verbs*) can be followed by an expression of the receiver or goal of the action, which we call a *direct object* of the verb. With very many infinitives, the signal of a direct object is the preposition ñ-, ñmo=.

q-bwa ñmo-c = he releases *her*

q-bwa ñmo-o2 ebo2 = he destroys *them*

†-na-eipe ñ-naĩ = I shall do *these things*

q-kw ebo2 ñ-peqcon = he forgives *his brother*

†-kw ñmo-q ebo2 = I forgive *him*

But for some infinitives, the signal of direct object is a some other preposition.

q-2ine ñca-peĩrowme = he is seeking *this man*

†-2ine ñcw-q = I am seeking *him*

ce-na2y e-tpolice = they see the city

k-na2y epo-c = you see it

In negations, negative an can come either before or after a direct object.

ñ-†-na-eipe an ñ-naĩ I shall not do these things

ñ-†-na-eipe ñ-naĩ an

ñ-†-na-eipe an ñmo-o2 I shall not do them

ñ-†-na-eipe ñmo-o2 an

ñ-†-2ine an ñcw-q I am not seeking him

ñ-†-2ine ñcw-q an

As you learn each transitive infinitive, it is important to learn which preposition(s) mark its direct object ("eipe ñ-/ñmo= do"; "2ine ñca- seek"). This information will be given in subsequent vocabulary lists.

Of course, transitive infinitives can also be used without any expression of a direct object. [CG 169]

ce-xw rap ayw ñ-ce-eipe an = They say and they do not do

Infinitives that can never occur with a direct object (mo2y = die, o2ba2 = become white) are called *intransitives*.

**73. Additional predicate after the direct object.** Depending on the meaning of the infinitive, a direct object may be followed by an additional predication (second direct object). [CG 178] (Such are verbs meaning *make, send, consider, appoint, call, see, etc.*) The additional predication can be

i. ñ- plus noun or adjective (typically without article). q-eipe ñmo-o2 ñ-<sup>0</sup>2m2a2 = He makes them *slaves*.

ii. Preposition or conjunction plus noun or adjective. ce-xi ñmo-q 2wc-<sup>0</sup>pro-2htic = They hold him to be a *prophet* ("as prophet").

iii. Completive circumstantial, which you will learn about in lesson 15. ce-na2y epo-q eq-bñk = They see him *leaving*.

**74. Ingressive meaning of transitives.** [CG 174] Finally, you should know that in principle, any transitive infinitive, without direct object, can also express the process entering into a state. This is called the "ingressive" meaning (entering-into).

bwa (release), ingressive sense = become free

bwa ebo2 (destroy), ingr. = go to ruin

kwat (build), ingr. = get built

mton (cause to rest), ingr. = become refreshed, get rested

The ingressive meaning is common only with certain infinitives.

*Construct participles (the participium coniunctum, p.c.)* [CG 122]

A small number of Egyptian-Coptic verbs also have an adjectival form called the construct participle, which expresses general tenseless action or process, something like an English participle. Construct participles end in a hyphen, and must be completed by an article phrase, usually with zero article. Their *only* use is to form compound adjectives; they have no other purpose. The usual abbreviation is "p.c."

με to love, p.c. μαῖ- loving, μαῖ-<sup>0</sup>νουτε pious (God loving), μαῖ-ψῆμο hospitable (loving strangers), etc.

χίσε to raise, p.c. χασι- raising, χασι-<sup>0</sup>ζητ arrogant (mind raising)

ζλοδ to be(come) sweet, p.c. ζαλδ- being sweet, ζαλδ-<sup>0</sup>ψαχε (sweet with words)

Construct participles contain the vowel α after the first consonant of the infinitive; in some, ῖ- appears at the end (με to love, μαῖ- loving).

The three *verbal preextensions* are prefixed to an infinitive or a stative to alter its lexical meaning as though modified by an adverb. [CG 183]

ῤπκε- = also, additionally, moreover, even

ῤψῤπ(ῤ)- = first, before hand, previously

ῤζογε- more, even more, greatly

Thus: ψαχε = speak. ῤπκε-ψαχε = also speak, even speak. ῤψῤπ(ῤ)-ψαχε = speak first, previously speak. ῤζογε-ψαχε = speak more, speak greatly.

*Verbal auxiliaries.* Somewhat like the future auxiliary να- 63 the following verbal auxiliaries can be conjugated as verbs and have another infinitive directly suffixed. [CG 184]

μερε- like to

ογεψ- want to

πζῤ- for once..., succeed in...

ταψε- frequently, greatly

ογεζῤ- again

ψ- or εψ- be able to

χπι- or χπε- have to, must

q-μερε-ογωμ = He likes to eat. q-να-χπι-ει = He will have to come. ῤνεq-ψ-βωκ = He shall not be able to go, *but* ῤνε-ψ-λααγ βωκ = None shall be able to go (ψ- occurs after a personal subject such as q but before a non-personal subject such as λααγ).

# VOCABULARY 9

Learn the personal subject prefixes 63.

Learn the matching infinitive and stative of each of the verbs listed above. Try to get to the point where if you see the infinitive you can give the stative, and if you see the stative you can give the infinitive. (We shall return to these verbs in smaller groups in succeeding vocabulary lists.)

*Verbs that have a stative*

მოუ, მოოუტ<sup>†</sup>

die (dead<sup>†</sup>)

ἀποθνήσκειν (νε-κρός<sup>†</sup>)

ταειο ῤ-/ῤμο=,

honor (honored<sup>†</sup>)

τιμᾶν (ἔντιμος<sup>†</sup>)

ταειηγ<sup>†</sup>

ογοπ, ογααβ<sup>†</sup>

become holy (be holy<sup>†</sup>)

ἀγιάζεσθαι, ἅγιος

ογχαῖ, ογοχ<sup>†</sup>

become healthy or saved

σφζεσθαι (ὕγαι-ναι<sup>†</sup>)

(healthy<sup>†</sup>, saved<sup>†</sup>)

ωνζ, ονζ<sup>†</sup>

become alive (alive<sup>†</sup>)

ζῆν

*Verbs that have no stative*

μεεγε ε- or χε-

think about or that

λογίζεσθαι

ραψε ῤ-/ῤμο= or ζῤ-

rejoice at or in

χαίρειν

σοπς ῤ-/ῤμο=

entreat, console

παρακαλεῖν

σοογν ῤ-/ῤμο=

become acquainted with,

γινώσκειν, εἰδέ-

know

ναι

ψαχε ῤ-/ῤμο= or ῤῤ-

speak, say

λαλεῖν

\*πιστεγε ε-

believe

\*βαπτίζε ῤ-/ῤμο=

baptize

\*μετανοεῖ

repent

\*παραδιδου ῤ-/ῤμο=

betray

\*αρνα ῤ-/ῤμο=

deny

# EXERCISES 9

A. Translate rapidly. †-мееуе. се-мееуе. те-мееуе. н-се-мееуе. ан. †-мееуе еро-қ. к-мееуе еро-ї. н-г-мееуе (14) ан еро-ї. к-мееуе ан еро-ї. м-пеїρωме мееуе ан. н-теїсζιμε мееуе ан. н-ненсннү мееуе ан. мн-<sup>0</sup>ρωме мееуе. оγн-ογρωме мееуе. оγн-<sup>0</sup>ρωме мееуе. εис-ογρωме мееуе. εис-пеїρωме мееуе.

B. Recite the entire paradigm (8 persons) of †-ραυε (I rejoice/I am rejoicing), with translation.

Recite the paradigm in reverse order (starting with 3d pl.).

Recite the negations (two possible forms) of the paradigm, with translation.

The same, in reverse order.

C. Translate rapidly. †-таеіо ммо-қ. те-сопс ммо-н. с-сооун ммо-оу. тетн-пистеуе еро-ї. к-ваπτιζε ммо-с. қ-παρᾱιδου ммо-<sup>0</sup>. тн-αρνα ммω-тн. се-таеіо ммо-к. †-сопс ммо-қ. те-сооун ммо-н. с-пистеуе еро-оу. тетн-ваπτιζε ммо-ї. к-παρᾱιδου ммо-с. қ-αρνα ммо-с. тн-таеіо ммω-тн. се-мееуе еро-к.

D. Form the negative (four possible formulations) of each of the sentences in (C), and translate.

E. Translate. a. †-таеіну. те-ογοχ. с-мооут. тетн-онζ. к-таеіну. қ-ογοχ. тн-мооут. се-онζ. пχοеіс таеіну. b. †-таеіо. †-таеіну. те-ογχαї. те-ογοχ. с-на-моу. с-мооут. тетн-ωνζ. тетн-онζ. c. к-таеіо. к-таеіну. қ-ογχαї. қ-ογοχ. тн-на-моу. тн-мооут. се-ωνζ. се-онζ. d. пχοеіс таеіо. пχοеіс таеіну. †-ζм-πεqrπε. те-нмма-у. с-ζм-πεqrπε. тетн-нмма-у. к-ζм-πεqrπε. e. қ-нмма-у. тн-ζм-πεqrπε. се-нмма-у. пχοеіс ζм-πεqrπε. †-на-таеіо ммо-қ. те-на-ογχαї. қ-на-ογοп. f. қ-ογαав. се-ογαав. се-ογοп. с-на-моу. тетна-ωνζ. к-на-таеіо ммо-қ. қ-на-ογχαї. тн-на-моу. се-на-ωνζ. g. пχοеіс на-таеіо ммо-қ. †-μετανοει εζραї εχн-на-нове. се-μετανοει. h. қ-ωαχε мн-πεq-ειωт. қ-ωαχε нмма-с. қ-ωαχε ммо-қ. i. қ-таеіну е-ноуте нм. нтооу ζεν-πονηρος еро-к не.

F. Form the negative of each of the sentences in (E), and translate.

# LESSON 10

## NON-DURATIVE CONJUGATION: MAIN CLAUSE CONJUGATION BASES. 'TO BE' IN COPTIC.

75. The non-durative verbal sentence consists of three parts:

	1	2	3	
a.	λ -	πνουτε	сωтπ	God chose, God has chosen
b.	λ -	q -	сωтπ	He chose, He has chosen

- (1) A conjugation base, which has two states, such as λ-, λ=.
- (2) A subject suffixed to the base.
- (3) An infinitive (separated in pattern a, attached in pattern b).

The infinitive can be expanded by a direct object, various prepositional phrases, adverbs, subordinate clauses, etc. There are ten non-durative conjugation bases. Five of these form main clauses (independent sentences), and five form subordinate (dependent) clauses. [CG 325-28] You will learn the main clause bases in this lesson.

### THE MAIN CLAUSE CONJUGATION BASES

76. Four of the five main clause conjugations have distinct affirmative and negative bases. The remaining one is negative only.

Past affirmative: λ-, λ=	He chose, He has chosen
Past negative: мпе-, мп=	He did not choose, He has not chosen
'Not Yet': мпате-, мпат=	He has not yet chosen
Aorist affirmative: ωаре-, ωа=	(tenseless)
Aorist negative: мере-, ме=	(tenseless)

## LESSON TEN

Optative affirmative: $\epsilon\rho\epsilon-$ , $\epsilon\sigma\epsilon-$	He shall choose, He might choose
Optative negative: $\bar{\eta}\eta\epsilon-$ , $\bar{\eta}\eta\epsilon\sigma$	He shall not choose, He might not choose
Jussive affirmative: $\mu\alpha\rho\epsilon-$ , $\mu\alpha\rho\sigma$	Let him choose (He ought to choose)
Jussive negative: $\bar{\mu}\bar{\rho}\bar{\tau}\rho\epsilon-$ , $\bar{\mu}\bar{\rho}\bar{\tau}\rho\epsilon\sigma$	Let him not choose

These bases do not convey any information as to whether the action or process was ongoing (durative).

**77. The Past, affirm. а-, а= / neg. мπε-, мп=** [CG 334–35]

αἰ-	ᾠπῐ-
ακ-	ᾠπῑ-
α <sup>θ</sup> - or αρ- or αρε-	ᾠπε- or ᾠπῑ-
αq-	ᾠπῑ-
αc-	ᾠπῑ-
αν-	ᾠπῑ-
ατετῑ-	ᾠπετῑ-
αγ-	ᾠπογ-
α-πνουτε	ᾠπε-πνουτε

In English, this corresponds to both past narration ( $\lambda\eta-\beta\omega\kappa = \textit{He went}$ ) and present-based description of the past ( $\lambda\eta-\beta\omega\kappa = \textit{He has gone}$ ).

78. 'Not yet',  $\bar{\text{m}}\text{pat}\bar{\text{e}}$ -,  $\bar{\text{m}}\text{pat}$ = [CG 336]

м̄пат̄-  
 м̄пат̄к̄-  
 м̄пат̄ε-  
 м̄пат̄q̄-  
 м̄пат̄с̄-  
 м̄пат̄н̄-  
 м̄пат̄εт̄н̄-  
 м̄патоу-  
 м̄пат̄ε-п̄ноӯте

A present-based description of the past in terms of what has not happened, with expectation that it will or might come to pass (*He has not yet gone*).  $\bar{\mu}\pi\alpha\tau\epsilon\tau\alpha\omicron\upsilon\nu\omicron\gamma\epsilon\iota$  = My hour has not yet come.

### MAIN CLAUSE CONJUGATION BASES

**79. The Aorist, affirm.**  $\omega\alpha\rho\epsilon-$ ,  $\omega\alpha=$  / **neg.**  $\mu\epsilon\rho\epsilon-$ ,  $\mu\epsilon=$  [CG 337]

ψαῖ-	μεῖ-
ψακ-	μεκ-
ψαρρ-	μερρ-
ψαϑ-	μεϑ-
ψαϛ-	μεϛ-
ψαν-	μεν-
ψατετῆ-	μετετῆ-
ψαγ-	μεγ-
ψαρρ-πνουτε	μερρ-πνουτε

Forms a complete sentence consisting of subject + verb, but without expressing any tense (hence *aorist* = limitless, timeless). In some situations (statements of timeless truth) tense is irrelevant.  $\omega\rho\epsilon-\sigma\upsilon\omega\eta\rho\epsilon \bar{\nu}-\sigma\phi\omicron\varsigma \epsilon\upsilon\phi\rho\alpha\nu\epsilon \bar{\nu}-\pi\epsilon\rho\epsilon\iota\omega\tau$  = A wise son makes his father glad. But the Coptic aorist also occurs in past tense narration, as a technique of story telling. This is a distinctly Coptic device. There is nothing quite like it in English, so when you translate the Coptic aorist you may be forced to commit yourself about tense, whereas a Coptic writer was not. To the English speaker, the Coptic aorist often seems to mirror the tense (if any) of the immediate context in which it occurs.

Caution: the Coptic aorist has nothing to do with the form called aorist in Greek.

**80. The Optative, affirm.**  $\epsilon\rho\epsilon-$ ,  $\epsilon\epsilon\epsilon-$  / **neg.**  $\bar{n}n\epsilon-$ ,  $\bar{n}n\epsilon\neq$  [CG 338]

The prepersonal affirmative is a split base,  $\epsilon=\epsilon$ . The personal suffixes are inserted into the middle of the affirmative base.

ειε-	̄̄ηη-
εκε-	̄̄ηηεκ-
ερε-	̄̄ηηε-
εφε-	̄̄ηηεφ-
εσε-	̄̄ηηεσ-
ενε-	̄̄ηηεν-
εтетνε-	̄̄ηηετ̄̄η-
εγε-	̄̄ηηεγ-
ερε-πνουτε	̄̄ηηε-πνουτε

Two main uses:

(a) As an independent clause, expressing an absolute future, even a command or rule

or unconditional prediction (as in divine commands, monastic rules, prophetic predictions, the Ten Commandments, etc.) (*I shall go, you shall go, he shall go*).  $\epsilon\kappa\epsilon\tau\alpha\epsilon\iota\epsilon\text{--}\pi\epsilon\kappa\epsilon\iota\omega\tau\ \bar{\mu}\bar{\eta}\text{--}\tau\epsilon\kappa\mu\alpha\alpha\gamma$  = You shall honor your father and your mother.  $\bar{\eta}\bar{\eta}\epsilon\kappa\text{--}\zeta\omega\tau\bar{\epsilon}$  = You shall not kill.

(b) Following  $\chi\epsilon\text{--}$  or  $\chi\epsilon\kappa\alpha\varsigma$  or  $\chi\epsilon\kappa\alpha\varsigma$  to express purpose or result, *so that ... might ... ; so as to ... , so that ...* ( $\chi\epsilon\text{--}\epsilon\varphi\epsilon\text{--}\nu\omega\kappa$  *so that he might go*). Cf. 153.

Note: After  $\chi\epsilon\kappa\alpha(\alpha)\varsigma$  the negative sometimes has the following spelling.

$\chi\epsilon\kappa\alpha(\alpha)\varsigma\ \epsilon\bar{\eta}\bar{\eta}\bar{\alpha}\text{--}$   
 "  $\epsilon\bar{\eta}\bar{\eta}\bar{\epsilon}\kappa\text{--}$   
 "  $\epsilon\bar{\eta}\bar{\eta}\bar{\epsilon}\text{--}$   
 "  $\epsilon\bar{\eta}\bar{\eta}\bar{\epsilon}\varphi\text{--}$   
 "  $\epsilon\bar{\eta}\bar{\eta}\bar{\epsilon}\varsigma\text{--}$

$\chi\epsilon\kappa\alpha(\alpha)\varsigma\ \epsilon\bar{\eta}\bar{\eta}\bar{\epsilon}\bar{\eta}\text{--}$   
 "  $\epsilon\bar{\eta}\bar{\eta}\bar{\epsilon}\bar{\tau}\bar{\eta}\text{--}$   
 "  $\epsilon\bar{\eta}\bar{\eta}\bar{\epsilon}\gamma\text{--}$

$\chi\epsilon\kappa\alpha(\alpha)\varsigma\ \epsilon\bar{\eta}\bar{\eta}\bar{\epsilon}\text{--}\pi\bar{\eta}\pi\bar{\eta}\bar{\nu}\bar{\tau}\epsilon$

## 81. The Jussive, affirm. $\mu\alpha\rho\epsilon\text{--}$ , $\mu\alpha\rho\text{--}$ / neg. $\bar{\mu}\bar{\eta}\bar{\pi}\bar{\rho}\bar{\tau}\bar{\rho}\epsilon\text{--}$ , $\bar{\mu}\bar{\eta}\bar{\pi}\bar{\rho}\bar{\tau}\bar{\rho}\epsilon\text{--}$ [CG 340]

$\mu\alpha\rho\text{--}$	$\bar{\mu}\bar{\eta}\bar{\pi}\bar{\rho}\bar{\tau}\bar{\rho}\alpha\text{--}$
—	—
$\mu\alpha\rho\epsilon\varphi\text{--}$	$\bar{\mu}\bar{\eta}\bar{\pi}\bar{\rho}\bar{\tau}\bar{\rho}\epsilon\varphi\text{--}$
$\mu\alpha\rho\epsilon\varsigma\text{--}$	$\bar{\mu}\bar{\eta}\bar{\pi}\bar{\rho}\bar{\tau}\bar{\rho}\epsilon\varsigma\text{--}$
$\mu\alpha\rho\bar{\eta}\text{--}$	$\bar{\mu}\bar{\eta}\bar{\pi}\bar{\rho}\bar{\tau}\bar{\rho}\epsilon\bar{\eta}\text{--}$
—	—
$\mu\alpha\rho\gamma\text{--}$	$\bar{\mu}\bar{\eta}\bar{\pi}\bar{\rho}\bar{\tau}\bar{\rho}\epsilon\gamma\text{--}$
$\mu\alpha\rho\epsilon\text{--}\pi\bar{\eta}\pi\bar{\eta}\bar{\nu}\bar{\tau}\epsilon$	$\bar{\mu}\bar{\eta}\bar{\pi}\bar{\rho}\bar{\tau}\bar{\rho}\epsilon\text{--}\pi\bar{\eta}\pi\bar{\eta}\bar{\nu}\bar{\tau}\epsilon$

An exhortation or oblique command addressed to one or more 1st or 3d persons: *Let me..., Let us..., Let him/her..., Let them...* Occurs only in dialogue. There is no 2d person form, as this function is fulfilled by the imperative.  $\mu\alpha\rho\epsilon\varphi\text{--}\bar{\rho}\text{--}\bar{\theta}\bar{\nu}\bar{\theta}\bar{\nu}\bar{\epsilon}\bar{\iota}\bar{\eta}\bar{\nu}$   $\bar{\eta}\bar{\delta}\bar{\iota}\text{--}\pi\epsilon\bar{\tau}\bar{\eta}\bar{\nu}\bar{\theta}\bar{\nu}\bar{\epsilon}\bar{\iota}\bar{\eta}\bar{\nu}$  = Let your light shine.  $\bar{\mu}\bar{\eta}\bar{\pi}\bar{\rho}\bar{\tau}\bar{\rho}\epsilon\bar{\eta}\text{--}\varsigma\omega\psi\ \bar{\eta}\text{--}\tau\epsilon\chi\alpha\rho\iota\varsigma$  = Let us not despise grace.

## 82. 'To Be' in Coptic.

(a) Statements about an essential, unchangeable characteristic are usually expressed by a nominal sentence or verboid (which you will learn about in lesson thirteen).

$\pi\bar{\eta}\bar{\nu}\bar{\theta}\bar{\nu}\bar{\tau}\epsilon\ \bar{\nu}\bar{\theta}\bar{\mu}\bar{\epsilon}\ \pi\bar{\epsilon}$  = God is true.  $\alpha\bar{\nu}\bar{\theta}\kappa\ \pi\bar{\epsilon}\ \pi\bar{\nu}\bar{\theta}\bar{\nu}\bar{\epsilon}\bar{\iota}\bar{\eta}\bar{\nu}\ \bar{\eta}\text{--}\pi\bar{\kappa}\bar{\nu}\bar{\varsigma}\bar{\mu}\bar{\nu}\bar{\varsigma}$  = It is I who am the light of the world.  $\bar{\nu}\bar{\theta}\varsigma\alpha\bar{\nu}\bar{\eta}\ \tau\bar{\epsilon}$  = She is wise.  $\bar{\nu}\bar{\theta}\bar{\rho}\bar{\rho}\bar{\nu}\ \pi\bar{\epsilon}$  = He is a king/kingly in nature.  $\bar{\eta}\bar{\lambda}\bar{\lambda}\bar{\lambda}\text{--}\varphi$  (verboid) = He is great. [CG 292]

(b) Statements about an incidental, temporary, or constructed characteristic are usually expressed by  $\bar{\nu}\bar{\theta}\bar{\eta}\text{--}$  in a durative sentence ( $\bar{\nu}$  is the stative of  $\epsilon\bar{\iota}\bar{\rho}\bar{\epsilon}$  "to make"). Note the Coptic use of zero article ( $\bar{\theta}$ ) after  $\bar{\eta}\text{--}$ .  $\bar{\tau}\text{--}\bar{\nu}\bar{\theta}\bar{\eta}\text{--}\bar{\theta}\bar{\psi}\bar{\mu}\bar{\mu}\bar{\nu}\bar{\nu}\bar{\nu}$  = I am a stranger.  $\varsigma\text{--}\bar{\nu}\bar{\theta}\bar{\eta}\text{--}\bar{\theta}\varsigma\alpha\bar{\nu}\bar{\eta}$  = She is wise, is acting wisely.  $\varphi\text{--}\bar{\nu}\bar{\theta}\bar{\eta}\text{--}\bar{\theta}\bar{\nu}\bar{\theta}\bar{\nu}\bar{\epsilon}\bar{\iota}\bar{\eta}\bar{\nu}$  = It shines.  $\varphi\text{--}\bar{\nu}\bar{\theta}\bar{\eta}\text{--}\bar{\theta}\bar{\rho}\bar{\rho}\bar{\nu}$  = He is reigning or is (now) king.  $\varphi\text{--}\bar{\nu}\bar{\theta}\bar{\eta}\text{--}\bar{\theta}\bar{\eta}\bar{\nu}\bar{\theta}\bar{\nu}$  = It is great. [CG 179]

(c)  $\varphi\text{--}\bar{\psi}\bar{\theta}\bar{\theta}\bar{\nu}$  (stative of  $\bar{\psi}\bar{\theta}\bar{\nu}\bar{\pi}\bar{\epsilon}$  "to become") = He exists.  $\varphi\text{--}\bar{\psi}\bar{\theta}\bar{\theta}\bar{\nu}\ \bar{\eta}\text{--}$  = He exists as...

# VOCABULARY 10

Learn the conjugation (8 persons plus a prenominal state) of each of the eleven conjugation bases presented in this lesson. In the exercises below, verbs have been taken from the vocabulary of lesson nine.

## EXERCISES 10

*A. Recite the full paradigm (8 persons and the noun subject), with English translation, of the following.* αἰ-ραϥε I rejoiced/I have rejoiced (αϥ). μαρι-ραϥε Let me rejoice (μαρϥ). ἡπατ-ραϥε I have not yet rejoiced (ἡπατϥ). ἡπι-ραϥε I did not rejoice/I have not rejoiced (ἡπϥ). εἰε-ραϥε I shall rejoice (εϥε-).

*B. Practice translating until you are fluent.* a. αἰ-ταειο. ἡπε-οὔχαἰ. b. ἡπατῆ-ωνῆ. ψατετῆ-μεεϥε. c. μεϥ-ραϥε. εκε-сопῆ. d. ἡнеq-сооὔн. μαρι-ψαχε. e. ἡπῆтра-πιστεϥε. аре-βαπτize. f. ἡπῆ-μεταноеἰ. ἡπατετῆ-αρνα. g. ψαγ-ταειο. мек-οὔχαἰ. h. еде-ωνῆ. ἡна-парадаюῡ. i. μαρεq-ραϥε. ἡπῆтрес-сопῆ. j. ас-сооὔн. ἡпетῆ-ψαχε. k. ἡпатоῡ-меεϥε. ψак-βαπτize. l. меq-метаноеἰ. ене-арна. m. ἡне-таеιο. марес-моῡ. n. ἡпῆтреϥ-ωνῆ. аγ-меεϥε. o. ἡпῆ-раϥε. ψаq-сопῆ. p. мен-сооὔн. εἰе-ψахе. ἡне-меεϥε.

*C. Translate into Coptic.*

- You (pl.) denied/have denied.
- You (pl.) did not betray/have not betrayed.
- You (pl.) have not yet repented.
- You (pl.) baptize [aorist].
- You (pl.) do not believe [aorist].

- You (pl.) shall say.
- You (pl.) shall not know.
- You (sing. fem.) denied/have denied.
- You (sing. fem.) did not betray/have not betrayed.
- You (sing. fem.) have not yet repented.
- You (sing. fem.) baptize [aorist].
- You (sing. fem.) do not believe [aorist].
- You (sing. fem.) shall say.
- You (sing. fem.) shall not know.

*D. Translate into Coptic.* a. They entreated/have entreated. b. They did not rejoice/have not rejoiced. c. They have not yet thought. d. They live [aorist]. e. They do not become saved [aorist]. f. They shall honor. g. They shall not deny. h. Let them repent. i. Let them not betray.

*E. Translate into Coptic.* a. The man denied/has denied. b. The man did not betray/has not betrayed. c. The man has not yet repented. d. The man baptizes (aorist). e. The man does not say [aorist]. f. The man shall know. g. The man shall not entreat. h. Let the man rejoice. i. Let not the man think.

*F. Translate into Coptic.* a. You (sing. masc.) shall honor your father and your mother. b. Let us repent. c. Let them not baptize in this place. d. I have not denied the Lord. e. You (sing. fem.) have betrayed your God. f. We have not yet become saved. g. The wise man knows (aorist) good and evil.

*G. Translate into Coptic.* (For vocabulary, cf. 35; for grammar, cf. 82). a. God is wise. b. This woman is beloved. c. I am not a stranger to (ε-) this city. d. Are you hostile to this nation? e. Truth is beautiful.

# LESSON 11

## BOUND STATES OF THE INFINITIVE. DIRECT OBJECT CONSTRUCTIONS. COMPOUND INFINITIVES. IMPERATIVE. VOCATIVE.

**83.** Many transitive infinitives (72) appear in prenominal and prepersonal states (for "states" cf. 50 [CG 167]). These are called the *bound states* of the infinitive. Thus  $\tau\alpha\epsilon\iota\omicron$  (= honor) also appears as  $\tau\alpha\epsilon\iota\epsilon-$  and  $\tau\alpha\epsilon\iota\omicron\varsigma$ . The bound states permit a direct object to be directly suffixed to the infinitive without the intervention of a preposition.

$\epsilon\tau\epsilon\tau\eta\epsilon-\tau\alpha\epsilon\iota\epsilon-\eta\epsilon\kappa\epsilon\iota\omicron\tau\epsilon$  = You shall honor your parents  
 $\epsilon\tau\epsilon\tau\eta\epsilon-\tau\alpha\epsilon\iota\omicron-\omicron\gamma$  = You shall honor them

(a) The various combinations of infinitive plus personal pronoun ( $\tau\alpha\epsilon\iota\omicron-\kappa$  = honor you) follow the same patterns as the prepositions; you should stop now and reread the table in 52. But you will also find two verb patterns that have no parallel among the prepositions [CG 85, table]:

i. Prepersonal forms ending in  $\beta\varsigma$ ,  $\lambda\varsigma$ ,  $\mu\varsigma$ ,  $\nu\varsigma$ , or  $\rho\varsigma$  combining with the personal pronoun to form a syllable ( $\varsigma\omicron\tau\mu\epsilon\tau$  *sot* | *met*)

$\varsigma\omicron\tau\mu\varsigma$  from  $\varsigma\omega\tau\mu$  = hear:

$\varsigma\omicron\tau\mu-\epsilon\tau$	$\varsigma\omicron\tau\mu-\bar{\eta}$ or $\varsigma\omicron\tau\mu-\epsilon\eta$
$\varsigma\omicron\tau\mu-\epsilon\kappa$	$\varsigma\epsilon\tau\mu-\tau\eta\gamma\tau\bar{\eta}$
$\varsigma\omicron\tau\mu-\epsilon$	
$\varsigma\omicron\tau\mu-\epsilon\eta$	$\varsigma\omicron\tau\mu-\omicron\gamma$
$\varsigma\omicron\tau\mu-\epsilon\varsigma$	

ii. Prepersonal forms ending in other consonants.

$\gamma\omicron\pi\varsigma$ , from  $\gamma\omega\pi$  = hide:

$\gamma\omicron\pi-\bar{\tau}$ or $\gamma\omicron\pi-\tau$	$\gamma\omicron\pi-\bar{\eta}$
$\gamma\omicron\pi-\bar{\kappa}$ or $\gamma\omicron\pi-\kappa$	$\gamma\epsilon\pi-\tau\eta\gamma\tau\bar{\eta}$
$\gamma\omicron\pi-\epsilon$	
$\gamma\omicron\pi-\bar{\eta}$ or $\gamma\omicron\pi-\eta$	$\gamma\omicron\pi-\omicron\gamma$
$\gamma\omicron\pi-\bar{\varsigma}$ or $\gamma\omicron\pi-\varsigma$	

## DIRECT OBJECT CONSTRUCTIONS

(b) Alternatively, a preposition can be used to mark the direct object, as you learned in lesson 9 (72):

$\epsilon\tau\epsilon\tau\eta\epsilon-\tau\alpha\epsilon\iota\omicron-\bar{\eta}-\eta\epsilon\kappa\epsilon\iota\omicron\tau\epsilon$  = You shall honor your parents  
 $\epsilon\tau\epsilon\tau\eta\epsilon-\tau\alpha\epsilon\iota\omicron-\bar{\mu}\mu\omicron-\omicron\gamma$  = You shall honor them

As a matter of fact, all infinitives that have bound states also allow  $\bar{\eta}-/\bar{\mu}\mu\omicron\varsigma$  to mark the direct object.

**84.** *Direct object constructions.* The use or non-use of the bound states or the preposition  $\bar{\eta}-/\bar{\mu}\mu\omicron\varsigma$  is governed by the Stern-Jernstedt Rule, as follows. (Infinitives that do not have bound states are not covered by this rule.) [CG 171]

i. All zero article phrases (24-26) *must* be directly suffixed to the prenominal state, in both durative and non-durative sentences.

$\eta-\kappa\alpha-\theta\eta\eta\omicron\beta\epsilon\epsilon\beta\omicron\lambda$  = He forgives sins  
 $\lambda\eta-\kappa\alpha-\theta\eta\eta\omicron\beta\epsilon\epsilon\beta\omicron\lambda$  = He forgave sins, He has forgiven sins

ii. Otherwise, in durative sentences the direct object must be marked by  $\bar{\eta}-/\bar{\mu}\mu\omicron\varsigma$ . But in non-durative conjugation, use of the bound states or  $\bar{\eta}/\bar{\mu}\mu\omicron\varsigma$  is optional.

$\eta-\kappa\omega\epsilon\beta\omicron\lambda\bar{\eta}-\eta\epsilon\eta\eta\eta\omicron\beta\epsilon$  = He forgives our sins  
 $\lambda\eta-\kappa\omega\epsilon\beta\omicron\lambda\bar{\eta}-\eta\epsilon\eta\eta\eta\omicron\beta\epsilon$  and  $\lambda\eta-\kappa\alpha-\eta\epsilon\eta\eta\eta\omicron\beta\epsilon\epsilon\beta\omicron\lambda$  = He forgave our sins, He has forgiven our sins

iii. An infinitive completing  $\eta\alpha-$  (future) is non-durative<sup>19</sup>.

$\eta-\eta\alpha-\kappa\omega\epsilon\beta\omicron\lambda\bar{\eta}-\eta\epsilon\eta\eta\eta\omicron\beta\epsilon$  and  $\eta-\eta\alpha-\kappa\alpha-\eta\epsilon\eta\eta\eta\omicron\beta\epsilon\epsilon\beta\omicron\lambda$  = He will forgive our sins

Likewise, any complementary infinitive ( $\epsilon-\theta\varsigma\omicron\tau\pi-\bar{\eta}$  = to choose him) or infinitive as a noun ( $\pi-\varsigma\omicron\tau\pi-\bar{\eta}$  = the act of choosing him) is non-durative.

iv. *Exception.* Direct objects of the verb  $\omicron\gamma\omega\gamma$ ,  $\omicron\gamma\epsilon\gamma-$ ,  $\omicron\gamma\lambda\gamma\varsigma$  (= want, desire, love) are always directly suffixed in all kinds of sentence, even the durative.  
 $\eta-\omicron\gamma\lambda\gamma-\bar{\kappa}$  = he loves you.

**85.** Following is a list of all the common infinitives that have bound states. (For all of these, the direct object preposition is  $\bar{\eta}-/\bar{\mu}\mu\omicron\varsigma$ .) Try to learn the contents of this table thoroughly. [CG 186-93]

<sup>19</sup> Only  $\eta\alpha-$  itself counts as the durative predicate 63.

# LESSON ELEVEN

## LIST OF COMMON VERBS THAT HAVE BOUND STATES OF THE INFINITIVE

### 1. Biconsonantal

βωλ = release, interpret	βλ̄-	βολ̄=
βωλ ᾱ- εβολ = destroy, dissolve	βλ̄- εβολ	βολ̄= εβολ
κωτ = build, build up	κετ-	κοτ̄=
μογρ = bind	μῑ̄-, μερ-	μορ̄=
μογρ = fill	μερ̄-	μαρ̄= (sic)
πωψ = divide	πεψ-	ποψ̄=
ογωμ = eat	ογем-	ογом̄=
ογωψ = want, desire, love	ογев̄-	ογαψ̄= (sic)
ογωρ = lay upon, occupy	ογερ̄-	ογαρ̄= (sic)
ωψ [ʾōš] = read	εψ-	οψ̄=
ψωπ = receive, buy	ψεπ-	ψοπ̄=
ρωπ = hide	ρεπ-	ροπ̄=
χωκ ᾱ- εβολ = fill	χεκ- εβολ	χοκ̄= εβολ

### 2. Biconsonantal with final ε

κωτε = turn	κετ-	κοτ̄=
νουχε = throw, cast	νεχ-	νοχ̄=

### 3. Triconsonantal

μογογτ [mōwt 12] = kill	μογτ-, μεγτ-	μοογτ̄=
σοπ̄ = entreat, console	σεπ̄-	σοτ̄=
σωτ̄ = choose	σετ̄-	σοτ̄=
σωογρ = gather	σεγρ̄-	σοογρ̄=
ογωνρ̄ ᾱ- εβολ = reveal	ογενρ̄- εβολ	ογονρ̄= εβολ
ψωωτ [šō't 9] = cut off, lack	ψετ-, ψεετ-	ψαατ̄= (sic)

### 4. Triconsonantal, third consonant is β, λ, μ, ν, or ρ

σωτ̄ = hear	σετ̄-	σοτ̄=
τωρ̄ = invite	τερ̄-	ταρ̄= (sic)

### 5. Initial τ, final personal suffix

τογνoc = awaken	τογνεσ-	τογνoc̄=
τ̄ννοογ = send (hither), bring	τ̄ννεγ-	τ̄ννοογ̄=
χοογ [τψοογ] = send (away)	χεγ-	χοογ̄=

### 6. Initial τ, final o

τ̄ββο = purify	τ̄ββε-	τ̄ββο̄=
ταειο = honor	ταειε-	ταειο̄=
τακο = ruin	τακε-	τακο̄=

## INFINITIVES WITH BOUND STATES

κτο [for τκτο] reflexive = return	κτε-	κτο̄=
ταλο = take up, mount, board	ταλε-	ταλο̄=
ταμο = teach	ταμε-	ταμο̄=
ταογο = send forth	ταογε-	ταογο̄=
ταψο = make numerous, multiply	ταψε-	ταψο̄=
χνογ [tšnō] = ask, interrogate	χνε-	χνογ̄=
χπο [tšpo] = produce, get	χπε-	χπο̄=
ταρo = seize, attain, get to	ταρε-	ταρō=
ταρo ᾱ- ερατ̄ reflexive = stand, make to stand	ταρε- ερατ̄	ταρō= ερατ̄=
ταχρο = make firm, confirm	ταχρε-	ταχρο̄=

### 7. In prepersonal state the last syllable contains ω

μοστε = hate	μεστε-	μεστω̄=
σoβτε = prepare	сβте-	сβτω̄=
σoπcπ̄ = entreat	сπсπ̄-	сπсω̄=
σοογν = know	соγн̄-	соγω̄=
ψτορτ̄ = disturb	ψτρ̄τ̄-	ψτρ̄τω̄=

### 8. In prepersonal state final τ̄= appears

εινε = bring	ᾱ-	ᾱτ̄=
με = love	μερε-	μεριτ̄=
qι = take, take away, pick up	qι-	qιτ̄=
χι = take, get, receive	χι-	χιτ̄=
χιце = raise up	χεct- (sic)	χαct̄= (sic)

### 9. Prepersonal state ends with a double vowel

ειρε = make, do	ῑ-	αᾱ=
κω = put	κα-	καᾱ=
κω ᾱ- εβολ = forgive (a sin), release	κα- εβολ	καᾱ= εβολ
сω = drink	се-	соо̄=
† = give	†-	таа̄=
χω = say	χε-	χοо̄=

### 10. Some others

с2аї = write	с2аї-, се2-	с2аї̄=, с2а2̄= (sic)
τωογн = raise up	тоγн̄-	τωογн̄=
χο = sow	χε-	χο̄=

### 86. Compound infinitives [CG 180] are fixed expressions

†- <sup>0</sup> βαπτισμα = baptize (give- <sup>0</sup> baptism)
χι- <sup>0</sup> βαπτισμα = be baptized (get- <sup>0</sup> baptism)

consisting of a zero article phrase suffixed to a prenominal state. Especially common are those built upon  $\bar{p}$ - (= do, make, act as),  $\dagger$ - (= give, produce), and  $\chi$ 1- (= get, receive), though many others occur also. This is a very common kind of formation.

$\dagger$ - $\theta$ CBW teach (give- $\theta$ teaching)

$\bar{p}$ - $\theta$ NOBE to sin (do- $\theta$ sin)

$\bar{p}$ - $\theta$ WOPPI precede (act-as- $\theta$ first)

$\tau$ awε- $\theta$ OEIΩ proclaim, evangelize (multiply- $\theta$ cry)

Greek equivalents are often denominal verbs:  $\bar{p}$ - $\theta$ 2M2AΛ = δουλεύειν serve (δούλος = 2M2AΛ).  $\bar{p}$ - $\theta$ 2OTE = φοβεῖσθαι to fear (φόβος = 2OTE). A few compounds contain a possessed noun 54 instead of a zero article phrase:  $\tau$ CBε-ε1AT = teach (instruct-eyes-of).

Some compound infinitives are, as a whole, capable of having a direct object; the preposition used to mark such a direct object varies from one expression to another.

$\dagger$ - $\theta$ CBW NA-q = teach (give- $\theta$ lesson for) him

$\bar{p}$ - $\theta$ XPε1A MMO-q = need (produce- $\theta$ need of) it

$\chi$ 1- $\theta$ CBW EP0-q = learn (receive- $\theta$ lesson about) it

Compound infinitives made from  $\bar{p}$ - meaning "have or perform the function or characteristic of"

$\bar{p}$ - $\theta$ 2M2AΛ = serve

$\bar{p}$ - $\theta$ PRO = reign

$\bar{p}$ - $\theta$ XOEIC = be master

appear in durative sentences as  $\sigma^{\dagger}$  N- ( $\sigma^{\dagger}$  is the stative corresponding to  $\bar{p}$ -, from the verb ε1PE)

$\sigma^{\dagger}$  N- $\theta$ 2M2AΛ = serve

$\sigma^{\dagger}$  N- $\theta$ PRO = reign

$\sigma^{\dagger}$  N- $\theta$ XOEIC = be master

Some compound infinitives contain a definite or possessive article. E.g.

$\bar{p}$ -PMEEYE N- = remember (do-the-thinking of)

$\bar{p}$ -PEQMEEYE = remember him (do-his-thinking)

## THE IMPERATIVE AND VOCATIVE

87. The affirmative imperative has the same form as the infinitive (with its bound states if any). [CG 364-72] For special affirmative imperative forms, see box below.

COTΠ-OY or CWTΠ MMO-OY = Choose them

CETΠ-PEILAOC or CWTΠ M-PEILAOC = Choose this people

## THE VOCATIVE

$\tau$ awε- $\theta$ OEIΩ = Evangelize

OYWM = Eat

Negative imperatives are formed by prefixing MΠP- (or MΠWP ε-) to the infinitive.

MΠP-COTΠ-OY or MΠP-CWTΠ MMO-OY = Do not choose them

MΠP-CETΠ-PEILAOC or MΠP-CWTΠ M-PEILAOC = Do not choose this people

MΠP- $\tau$ awε- $\theta$ OEIΩ = Do not evangelize

MΠP-OYWM = Do not eat

There are *special affirmative imperatives* of ten verbs; these are used instead of the corresponding infinitive. Note that most begin with the letter λ. (Their negatives are formed with MΠP- + normal infinitive.) Here, for reference, is the full list. [CG 366]

ALO = (reflexive) = cease (infinitive ΛO)

AMOY = come (inf. ε1)

AMOY [said to one male]

AMH [said to one female]

AMHEITN or AMHEIN [said to more than one person]

ANINE = bring (AN1-, AN1 =) (inf. ε1NE)

ANAY = look (inf. NAΥ)

APPE = do, make (AP1-, AP1 =) (inf. ε1PE)

AY- or AYE- (AYE1 =) = hand over (no infinitive)

AOYWN = open (OYN-) (inf. OYWN)

AX1- or AXE- (AX1 =) = say (inf. XW)

MA- (but usually †, †-, TAA =) = give (inf. †)

MO or MW = take (no infinitive)

For example: AMOY EBOL 2M-PPWME "Come out of the man!"; IC AP1-PAEMEYE PXOEIC "Jesus, remember me, Lord."

MA- is optionally prefixed to the imperative of compound infinitives formed on †- (= give) and causative verbs of the class TAEIO (initial T, final O). Thus MA-†-CBW = Teach. MA-TAEIE-PEKEIWT MN-TEKMAAY = Honor your father and your mother. [CG 367]

88. The *vocative* (summoning the attention of the person one is speaking to) must be expressed as a *definite* article phrase or as a personal name. TESCIME = O woman! PXOEIC = O Lord! PANOYTE PANOYTE = My God, My God! MAPIA = O Mary! [CG 137]

## 'Yes' and 'No' in Coptic [CG 241]

There are several ways to say 'Yes' or 'No', and Coptic speakers selected them according to the syntax and meaning of what was being affirmed or denied.

'Yes'	Syntax	Compare
ογον	Yes there is	ογν- 63
εζε	(Yes)	?
ωο	Yes he (etc.) does	ωα= 79
σε	(Yes)	?
'No'		
μον	No there isn't	μν- 63
μπε	No he (etc.) didn't	μπ= 77
ννο	No he (etc.) doesn't	ννε= 80
μπωρ	Don't!	μπρ- 87

## 89. The following five verbs

πωτ, πητ†	= run
ει, νηγ†	= come
βωκ, βηκ†	= go
ζωλ, ζηλ†	= fly
ζε, ζηγ†	= fall <sup>20</sup>

behave in a peculiar way. When they are used in a durative sentence, only the stative can occur, and the stative expresses on-going motion. [CG 168(c)] Outside of the durative sentence, only the infinitive occurs, but with the same meaning. Thus

†-βηκ	I am going, I go.	αἱ-βωκ	I went, I have gone
†-ζηλ	I am flying, I fly.	αἱ-ζωλ	I flew, I have flown
†-ζηγ	I am falling, I fall.	αἱ-ζε	I fell, I have fallen

Remember these five verbs—Run, come, go, fly up, fall down.

## VOCABULARY 11

Learn the five verbs described in paragraph 89 and remember their unusual usage.

πωτ, πητ†	run	τρέχειν, φεύγειν
ει, νηγ†	come	ἔρχεσθαι
βωκ, βηκ†	go	πορεύεσθαι, ἀπέρχεσθαι
ζωλ, ζηλ†	fly	πεταννύναι
ζε, ζηγ†	fall	πίπτειν

## More verbs: Religion

μογρ (μρ-, μορ=) μηρ†	bind, tie	δεῖν
βωλ (βλ-, βολ=) βηλ†	loosen, untie, interpret	λύειν
ρ- <sup>0</sup> νοβε	sin	ἀμαρτάνειν
ρεγ- (masc. or fem.)	one who..., a thing which...	(deverbal nouns)
ρεγ-ρ- <sup>0</sup> νοβε (masc., fem.)	sinner	ἀμαρτωλός
κω εβολ (κα-, κλα=)	release, loosen; forgive	ἀφιέναι
κη†		
σμογ ε-, σμαμαατ†	praise, bless	εὐλογεῖν
ταειο (ταειε-, ταειο=)	honor	τιμᾶν
ταεινγ†		
ογωγτ ν-/να=	worship, bow before, greet	προσκυνεῖν
με (μερε-, μεριτ=)	love	ἀγαπᾶν
ωληλ	pray	προσεύχεσθαι
σοπ̄ (σεπ̄-), also	entreat, console	παρακαλεῖν
σοπ̄ (σπ̄-),		
σπ̄σωπ=) σπ̄σωπ†		
τωζμ (τεζμ-, ταζμ=)	summon, invite	καλεῖν
ταζμ†		
σωτ̄ (σετ̄-, σοτ̄=)	choose	ἐκλέγεσθαι
σοτ̄†		
τ̄ββο (τ̄ββε-, τ̄ββο=)	purify	καθαρίζειν
τ̄ββηγ†		
*κρινε ν-/μμο=	judge	
μπωα ν-/μμο=	become worthy of	ἄξιος εἶναι

<sup>20</sup> Also ζε ε-, ζηγ† ε- find; ζε εβολ, ζηγ† εβολ perish.

# LESSON ELEVEN

amen, may it be

# EXERCISES 11

A. Translate into Coptic, giving alternate translations where possible.

- He bound the man.
- He released the man.
- He purified the man.
- He honored the man.
- He loved the man.
- He chose the man.
- He will bind the man.
- He will release the man.
- He will purify the man.
- He will honor the man.
- He will love the man.
- He will choose the man.
- He is binding the man.
- He is releasing the man.
- He is purifying the man.
- He is honoring the man.
- He is choosing the man.

B. Translate into Coptic using the bound state and going through all eight persons and the noun (πρωμε) as suffixed object.

- He bound me, He bound you, . . . etc.
- He released me, . . .
- He purified me, . . .
- He honored me, . . .
- He loved me, . . .
- He chose me, . . .
- He drank me, . . .

C. Translate. a. αγ-мор-ет [cf. 83 (a)(i)]. b.  $\bar{m}$ поу-вол-ε. c.  $\bar{m}$ πατοу-καα-с. d. αγ-таеіε-τηγтн̄. e.  $\bar{m}$ поу-меріт-οу. f.  $\bar{m}$ πατοу-сп̄сωп-к̄. g. αγ-тазм-οу. h.  $\bar{m}$ поу-сотп-н̄. i.  $\bar{m}$ πατοу-т̄вво-ї. j. αγ-кот-ε. k.  $\bar{m}$ поу-οуом-εс. l.  $\bar{m}$ πατοу-χο-οу. m. αγ-соо-у. n.  $\bar{m}$ поу-ογαζ-к̄. o.  $\bar{m}$ πατοу-ωαατ-н̄. p. ас-мор-ек. q.  $\bar{m}$ п̄с-вол-

εφ. γ. ἡπατς-καα-н. s. ac-таειο-οу. t. ἡπς-μεριτ-т. u. ἡπατς-  
спсωп-қ. v. ac-тазм-н. w. ἡпς-тазм-ен. x. ἡπατς-тбво-к.  
y. ac-кот-қ. z. ἡпς-оуом-ен. aa. ἡπατς-χο-қ. bb. ac-соо-т.  
cc. ἡпς-оуаз-қ. dd. ἡπατς-ует-тнүтн.

*D. Translate into Coptic, giving alternate translations where possible (cf. 84).*  
a. He honors (or is honoring) the prophet. b. He honored the prophet. c. He will honor the prophet. d. He honors prophets. e. He honored prophets. f. He will honor prophets. g. He loves the prophet (οὐωω = love). h. He loved the prophet. i. He will love the prophet.

*E. Reading selections from the New Testament.*

# LESSON 12

## NON-DURATIVE CONJUGATION: SUBORDINATE CLAUSE CONJUGATION BASES. INFLECTED MODIFIER. SOME STYLISTIC DEVICES.

**90.** In this lesson you will complete the survey of non-durative conjugation, which was begun in lesson 10. Now you will learn the five subordinate clause conjugation bases—they occur very frequently, and you will see them everywhere. [CG 342–43] They appear in the same three part pattern as the main-clause bases (75), namely

a. 

1	2	3
ἄτερε – πνοῦτε	ὡς	ἄτι

 When God chose *or* had chosen

b. 

1	2	3
ἄτερε –	q –	ὡς

 When he chose *or* had chosen

- (1) A conjugation base, which has two states, such as ἄτερε–, ἄτερ(ε)–.
- (2) A subject suffixed to the base.
- (3) An infinitive (separated in pattern a, attached in pattern b).

*Negation.* The five subordinate bases are negated by adding τῆ– (= *not*), which comes before a nominal subject and after a personal one: ἄτερε–τῆ–πνοῦτε ὡς = When God did not choose; ἄτερε–q–τῆ–ὡς = After he did not choose.

The five subordinate-clause bases are

Precursive: ἄτερε–, ἄτερ(ε)–      When *or* After he chose *or* had chosen  
Conditional: ἐρωαν–, ἐρωαν– and ἐρε–, ἐ–      If *or* When *or* Since *or* Whenever he chooses *or* chose  
Limitative: ὡαντε–, ὡαντ–      Until he chose *or* chooses *or* has chosen *or* had chosen

## SUBORDINATE CLAUSE CONJUGATION BASES

Conjunctive: ἄτε–, ἄ–      (tenseless)  
Future conjunctive: τᾶρε–, τᾶρ–      ... and he shall choose

### 91. The Precursive, ἄτερε–, ἄτερ(ε)– “When, After” (past time)

ἄτερι–      ἄτερῆ– ὃς ἄτερεν–  
ἄτερεκ–      ἄτερετῆ–  
ἄτερε– ὃς ἄτερερ–  
ἄτερεq–      ἄτεροq–  
ἄτερεc–  
ἄτερε–πνοῦτε

Speaks of an immediately preceding event, as completed and past: *when* he *had* chosen, *after* he chose. Belongs to narration, where it supplies background information; typically combined with the past tense α–/α–; occurs before or after the main clause. ἄτερεq–ναq αq–πιστεύε = When he had seen, he believed. αq–πιστεύε ἄτερεq–ναq = He believed, once he had seen. ἄτερεq–τῆ–ναq ἐρο–c αq–ῶκ = When he did not see her, he left. [CG 344–45, 348]

### 92. The Conditional ἐρωαν–, ἐρωαν– and ἐρε–, ἐ– ‘If, When, Since, Whenever’

The prepersonal is a split base, ἐρωαν. The personal suffixes are inserted into the middle of the base. A short form (without ῶαν) also occurs, but rarely.

ἐρωαν– ὃς ἐρ–      ἐνωαν– ὃς ἐν–  
ἐκωαν– ὃς ἐκ–      ἐτετῆνωαν– ὃς ἐτετῆ–  
ἐρωαν–, ἐρεωαν– ὃς ἐρε–  
ἐρωαν– ὃς ἐq–      ἐγωαν– ὃς ἐγ–  
ἐρωαν– ὃς ἐc–  
ἐρωαν–πνοῦτε ὃς ἐρε–πνοῦτε

Forms a logically ambiguous ‘If’ clause, including both ‘Since’ (factual cause) and ‘If ever, Whenever’. More or less simultaneous to the main clause. ἐρωαν–ναq q–να–πιστεύε = If *or* Whenever he sees, he will believe. ἐρωαν–τῆ–ναq ἄ–q–να–πιστεύε αν = If *or* Whenever he does not see, he will not believe. ἐρωαν–ναq q–πιστεύε = If *or* Whenever *or* Since he sees, he believes. When combined with the Past, ἐρωαν– expresses a generalization (*whenever*)—unlike ἄτερε–, which expresses a single event: ἐρωαν–ναq αq–πιστεύε = Whenever he saw, he believed. Occurs before or after the main clause. [CG 346–48]

The ambiguity of ἐρωαν– can be resolved by inserting a conjunction before it: ἐωωπε = if, if ever; εἰμήτι = unless, except, καν = even though, even if, ὅταν = as soon as, whenever, such that.

### 93. The Limitative, $\omega\lambda\alpha\tau\epsilon$ -, $\omega\lambda\alpha\tau$ = "Until such time as"

ϠΑΝ†-	ϠΑΝΤḢ-
ϠΑΝΤḲ-	ϠΑΝΤΕΤḢ-
ϠΑΝΤΕ-	
ϠΑΝΤḲ-	ϠΑΝΤΟΥ-
ϠΑΝΤḲ-	
ϠΑΝΤΕ-ΠΝΟΥΤΕ	

Expresses the limit beyond which the main event no longer continues, continued, or will continue: *until, until such time as, until the point where*. αΥ-ΩΛΗΛ ΩΑΝΤΩ-ΚΑΛ-Υ ΕΒΟΛ = They prayed until he forgave them. [CG 349]

## 94. The Conjunctive, $\bar{n}\tau\epsilon-$ , $\bar{n}\neq$

$\bar{N}\tau\lambda-$ or $\tau\lambda-$	$\bar{N}\tau\bar{N}-$
$\bar{N}\Gamma-$ or $\bar{N}K-$	$\bar{N}\tau\epsilon\tau\bar{N}-$
$\bar{N}\tau\epsilon-$	
$\bar{N}q-$	$\bar{N}\epsilon\epsilon-$
$\bar{N}C-$	
$\bar{N}\tau\epsilon-\pi\pi\phi\tau\epsilon$	

Forms a subordinate (dependent) clause consisting of subject + verb; signals that the clause is closely connected to what precedes it; does not express any tense or other content. It expresses only a connected, subordinated, “next” event or process. Like the aorist (79), the conjunctive is a distinctly Coptic device; there is nothing quite like it in English. To the English speaker, the conjunctive seems to mirror the tense of the immediate context in which it occurs. [CG 351–56] Main uses:

- i. The conjunctive continues verbs that do *not* occur in the main line of past narration and are not durative statements about the present. E.g. πνοϋτε εφε-σμοϋ ερω-τῆν ἡτῆν-κω νη-τῆν εβολ = God shall bless you *and* we shall forgive you. ἡπῖρτρεϋ-οϋωμ ψαντοϋ-βωκ εζοϋν ε-τπολις ἡσε-ναϋ ε-πῖρο = Let them not eat until they have entered the city *and* seen the emperor. καλ-ϋ ἡπείμα ἡτα-χιτ-οϋ = Leave them here *and* I will take them. κ-να-οϋωμ ἡγ-σω = You will eat *and* drink. †-να-οϋωμ ἡτα-τῆ-σω = I shall eat and not drink.
- ii. It also forms subordinate clauses headed by expressions such as εἰμητι (unless), ἡἡἡσα- (after), ἡἡωσ (lest), ῶστε (so that), ἀρηϋ (perhaps), κε-κοϋῖ πε (Just a little while longer and), ἡἡενοῖτο (God forbid that), etc. [CG 354] ἡπῖρ-οϋωμ ἡἡποτε ἡκ-μοϋ = Do not eat *lest* you die. ἡἡἡσα-ἡσε-παρὰδιδου ἡ-ιωῶἡἡἡς = *After* they betrayed John.

Some additional uses are described in CG 353, 355–56.

## 95. The Future Conjunctive, ταρε-, ταρ=

ΤΑΡΙ-	ΤΑΡΝ-
ΤΑΡΕΚ-	ΤΑΡΕΤΝ-
ΤΑΡΕ-	
ΤΑΡΕq-	ΤΑΡΟΥ-
ΤΑΡΕC-	
ΤΑΡΕ-ΠΝΟΥΤΕ	

Occurs after an affirmative command, in dialogue. It promises that an event will happen in the future if the command is fulfilled.  $\omega\lambda\lambda\alpha\tau\alpha\rho\epsilon\upsilon\kappa\omega\nu\alpha\kappa\epsilon\upsilon\omicron\lambda =$  Pray and he will forgive you.  $\mu\alpha\rho\bar{\nu}\text{-}\epsilon\iota\epsilon\lambda\omicron\gamma\bar{\nu}\tau\alpha\rho\bar{\nu}\text{-}\nu\alpha\gamma\epsilon\rho\omicron\text{-}q =$  Let us go in and we shall see him. It can be used independently to form a deliberative question:  $\tau\alpha\rho\bar{\nu}\text{-}\epsilon\iota\epsilon\lambda\omicron\gamma\bar{\nu} =$  Shall we enter? [CG 357–58]

**96.** You have already learned the eight independent personal pronouns **ἄνθρωπος**, **ἄνθρωπος**, **ἄνθρωπος** etc. **40.** The **ἄνθρωπος** pronoun also has the ability to float around in the sentence, bobbing up between one bound group and another, provided that it agrees in person and number/gender with some other pronoun in the same sentence.

TE-CMAMAAAT NTOT 2N-NE2IOME  
= You are blessed, NTOT, among women

παυγοείψ ανοκ ᾠπατῆ-ει  
= My time, ανοκ, has not yet come

This device is typically Coptic, and it is sometimes hard to capture in normal English without seeming clumsy (“You, *in a personal way*, are blessed among women. — *My own particular time* has not yet come.”)

There are five other words—called the inflected modifiers—that have the same ability to float around in the sentence, adding stylistic nuance and interest to sentence structure as well as conveying valuable information. All of these occur in the usual pattern of eight persons; indeed, they are so regular that we can represent them simply as prepersonal states that are completed by the personal suffixes. [CG 152–58]

- (a)  $\tau\eta\rho\varsigma = \dots$  all, entirely, all  $\dots$ ; utterly  
 $\zeta\omega\omega\varsigma = \dots$  too; for (my *etc.*) part
- (b)  $\bar{\mu}\bar{\mu}\bar{\iota}\bar{\nu}\bar{\iota}\bar{\nu}\bar{\mu}\bar{\mu}\bar{\sigma}\bar{\varsigma} = \dots$  (my- *etc.*) self [often reflexive]; own  
 $\mu\alpha\gamma\alpha\alpha\varsigma$  and  $\mu\alpha\gamma\alpha\alpha\tau\varsigma =$  alone, only, mere; (my- *etc.*) self; own  
 $\sigma\gamma\alpha\alpha\varsigma$  and  $\sigma\gamma\alpha\alpha\tau\varsigma =$  only, alone

ΤΗΡῚ, ΤΗΡῚ, ΤΗΡΕ, ΤΗΡῒ, ΤΗΡῚ, ΤΗΡῚ, ΤΗΡῚ, ΤΗΡῚ, ΤΗΡΟΥ  
 ΖΩΩΤ (or ΖΩ), ΖΩΩΚ, ΖΩΩΤΕ, ΖΩΩQ, ΖΩΩC, ΖΩΩN, ΖΩΤΤΗΥΤῚ, ΖΩΟΥ  
 ᾠᾠᾠᾠᾠᾠ= just like the preposition ᾠᾠ= *οὐ*  
 ΜΑΥΑΑΤ, ΜΑΥΑΑΚ, ΜΑΥΑΑΤΕ, ΜΑΥΑΑQ, ΜΑΥΑΑC, ΜΑΥΑΑΝ, ΜΑΥΑΤΤΗΥΤῚ,  
 ΜΑΥΑΑΥ *or*  
 ΜΑΥΑΑΤ, ΜΑΥΑΑΤῚ, ΜΑΥΑΑΤΕ, ΜΑΥΑΑΤῒ, ΜΑΥΑΑΤῚ, ΜΑΥΑΑΤῚ, ΜΑΥΑΑΤῚ,  
 ΤΗΥΤῚ, ΜΑΥΑΑΤΟΥ  
 ΟΥΑΑΤ, ΟΥΑΑΚ, ΟΥΑΑΤΕ, ΟΥΑΑQ (or ΟΥΑΑΤῒ), ΟΥΑΑC (or ΟΥΑΑΤῚ), ΟΥΑΑΝ,  
 ΟΥΑ(Α)ΤΤΗΥΤῚ, ΟΥΑΑΤΟΥ

*Position in the sentence.* None of these five can be the first word of a clause. Those in group (a) can either precede or follow the pronoun with which they agree.

ΤΕΤΝ-ΟΟΟΥΝ ΤΗΡ-ΤΝ = You all know.

ΕΙΣΤΗΝΤΕ ΤΗΡ-Τῆ ΤΕΤῆ-ΟΟΥῆ = You all know.

Those in group (b) always follow the person with which they agree.

ΝΕΦΜΑΘΗΤΗΣ ΜΑΓΑΑ-Υ ΑΥ-ΒΩΚ = Only his disciples went away

сооу̅н̅ м̅мо-к̅ м̅мин̅мо-к̅ = Know thyself (Know your own self)

## SOME STYLISTIC DEVICES

**97. Postponed subjects (न॒ढि-).** In all sentence types except the nominal sentence, a 3d person subject of the type q, c, cē, γ, and oγ can be made explicit later in the sentence by an article phrase, pronoun, or specifier phrase, of the same number (and gender) introduced by the preposition न॒ढि-. (Caution: न॒ढि- is not translated.) [CG 87(b)]

$$q\text{-с}\omega\tau\bar{\pi}\ \bar{n}\delta\iota\text{-}\pi\rho\omega\mu\epsilon = \pi\rho\omega\mu\epsilon\ \text{с}\omega\tau\bar{\pi}$$

The man is choosing *or* chooses (he-choosing  $\bar{n}\delta i$ —the-man)

$$\alpha\gamma - \varsigma\omega\tau\bar{\pi} \bar{n}\delta\iota - \bar{n}\psi\eta\rho\epsilon = \alpha - \bar{n}\psi\eta\rho\epsilon \varsigma\omega\tau\bar{\pi}$$

The children chose *or* have chosen

οὐντα-φ ᾱβι-πρωμε = οὐντε-πρωμε

The man has (cf. below, 103)

$$\text{πεχα-} \eta \bar{\eta} \text{βι-} \bar{\eta} \text{c} = \text{πεχε-} \bar{\eta} \text{c}$$

Jesus said (cf. below, 105)

**98. Extraposited subject or object.** In studying the nominal sentence, you have already seen how a component of the sentence can be *extraposed*—literally, “put outside”—before a simple form of sentence pattern 39. This is a typical way of

speaking in Coptic, and all kinds of sentences can be equipped with an extraposition before the sentence pattern begins, or even several. [CG 253, 313, 322, 330, 374, 387] Thus

$$\text{прωμε, } q\text{-с}\omega\tau\bar{\pi} = \text{прωμε с}\omega\tau\bar{\pi}$$

The man is choosing *or* chooses (as-for-the-man, he-is-choosing)

$$\bar{n}\psi_H\rho\epsilon, \lambda\gamma-\varsigma\omega\tau\bar{\pi} = \lambda-\bar{n}\psi_H\rho\epsilon \varsigma\omega\tau\bar{\pi}$$

The children chose *or* have chosen (the-children, they-chose)

$$\bar{n}\psi_{HRE}, \bar{n}\epsilon_{POY-CWT\bar{P}} = \bar{n}\epsilon_{RE} - \bar{n}\psi_{HRE} CWT\bar{P}$$

After the children chose *or* had chosen (the-children, after-they-chose) . . .

прѡмѣ, оу̑нѣта-ѡ = оу̑нѣте-прѡмѣ

The man has (cf. below, **103**) (the-man, he-has)

$$\overline{1c}, \text{πεχλ-} \eta = \text{πεχε-} \overline{1c}$$

Jesus said (cf. below, **105**) (Jesus, he-said)

As you see from these examples, the extraposed element must also be represented by a personal pronoun of the same number (and gender) within the sentence pattern itself: *πρωμε q-*, *ἄψηρε λγ-*, *ἄψηρε ἄτερογ-*, *πρωμε οὔἄτα-q*, *ἰς πεχα-q*.

Also objects can be extraposed at the head of the sentence, and they too must be represented within the pattern by a personal pronoun.

$$\text{NEI}\dot{2}\text{BH}\Upsilon\epsilon\ \alpha\dot{\text{I}}-\text{N}\lambda\Upsilon\ \epsilon\rho\text{O}-\text{O}\Upsilon = \alpha\dot{\text{I}}-\text{N}\lambda\Upsilon\ \epsilon-\text{NEI}\dot{2}\text{BH}\Upsilon\epsilon$$

I saw these things (these-things, I-saw them)

Indeed, both a subject and an object can be extraposed in the same sentence.

ΠΕΠΡΟΦΗΤΗΣ ΝΕΪΖΒΗΥΕ ΑΥ-ΝΑΥ ΕΡΟ-ΟΥ = Α-ΠΕΠΡΟΦΗΤΗΣ ΝΑΥ Ε-ΝΕΪ-  
ΖΒΗΥΕ

The prophet saw these things (the-prophet, these-things, he-saw them)

Postponed subjects and extraposed subjects and objects add stylistic flexibility. They are typical devices in Coptic literary style, but less so in English.

**99.** *The position of prepositional phrases and adverbs* is fairly free. They can occur at the head of a sentence, sometimes accompanied by an extraposed subject or object (98).

2ḡ-τε20υειτε, νεq-ωοοп ḡбι-пψαχε

In the beginning, there was the Word

ἸΤΕΥΝΟΥ ΔΕ, ΔΥ-ΚΑ-ΝΕΥΨΗΝΗΥ

And immediately, they left their nets

αχ $\bar{\eta}$ τ- $\bar{\eta}$ ,  $\bar{\eta}$ πε-λααυ ψωπε

Without Him, nothing came into existence

αὐτὸς ἡμεῖς τοῦ ἡμεῖς-ἡμεῖς, αὐτὸς-ἡμεῖς ἡμεῖς-ἡμεῖς  
And right away, on the Sabbath, He taught in the synagogue

αὐτὸς ἡμεῖς τοῦ ἡμεῖς, αὐτὸς-ἡμεῖς  
And right away, as for the spirit, it seized Him

παῖς ἡμεῖς-ἡμεῖς, ἡμεῖς-ἡμεῖς ἡμεῖς-ἡμεῖς  
As for Him, in the beginning, He existed with God

And they very often occur late in the sentence.

αὐτὸς-ἡμεῖς ἡμεῖς-ἡμεῖς ἡμεῖς-ἡμεῖς  
I have given baptism to you by means of water

αὐτὸς-ἡμεῖς ἡμεῖς-ἡμεῖς ἡμεῖς-ἡμεῖς  
They left their father Zebedee in the boat with the employees

αὐτὸς-ἡμεῖς ἡμεῖς-ἡμεῖς ἡμεῖς-ἡμεῖς  
They lowered the cot downwards

αὐτὸς-ἡμεῖς ἡμεῖς-ἡμεῖς ἡμεῖς-ἡμεῖς  
They implored him greatly

# VOCABULARY 12

More verbs: Change of condition (ingr. = ingressive meaning 74)

ἡμεῖς, ἡμεῖς†	make to rest; ingr. become rested	ἐπαναπαύειν
ἡμεῖς ἡμεῖς reflexive	rest	ἀναπαύεσθαι
ἡμεῖς ἡμεῖς (ἡμεῖς ἡμεῖς, ἡμεῖς ἡμεῖς) ἡμεῖς ἡμεῖς	disturb; ingr. become disturbed	ταράσσειν
ἡμεῖς (ἡμεῖς, ἡμεῖς) ἡμεῖς†	fill, complete, amount to; finish; ingr. become full, complete	πληρύνειν, πληροῦν
ἡμεῖς ἡμεῖς (ἡμεῖς, ἡμεῖς) ἡμεῖς	complete, amount to; ingr. become perfect, complete; reach (one's) limit	πληροῦν
ἡμεῖς, ἡμεῖς†	open; ingr. become open	ἀνοίγειν
ἡμεῖς (ἡμεῖς, ἡμεῖς) ἡμεῖς	divide; ingr. become divided	κλᾶν
ἡμεῖς (ἡμεῖς, ἡμεῖς) ἡμεῖς†	make firm; ingr. become firm	στηρίζειν
ἡμεῖς (ἡμεῖς, ἡμεῖς) ἡμεῖς†	destroy, ruin; ingr. become ruined	ἀπολλύναι
ἡμεῖς (ἡμεῖς, ἡμεῖς) ἡμεῖς†	bad, evil	πονηρός, κακός
ἡμεῖς ἡμεῖς (ἡμεῖς, ἡμεῖς) ἡμεῖς	loosen, destroy; ingr. become loose, destroyed	λύειν
ἡμεῖς ἡμεῖς, ἡμεῖς† ἡμεῖς 89	perish	ἀπόλλυσθαι
ἡμεῖς (ἡμεῖς, ἡμεῖς) ἡμεῖς	kill	θανατοῦν
ἡμεῖς (ἡμεῖς, ἡμεῖς) ἡμεῖς	awaken, raise	ἐγείρειν
ἡμεῖς (ἡμεῖς, ἡμεῖς) ἡμεῖς†	prepare; ingr. become prepared	ἀνοίγειν
ἡμεῖς ἡμεῖς-ἡμεῖς [not same as ἡμεῖς "bring"]	resemble	ὅμοιος εἶναι
ἡμεῖς, ἡμεῖς†	become tired, exert oneself, labor	κοπιᾶν

<sup>31</sup> ⲭⲁⲉⲓⲉ Wilderness, desert.

# LESSON 13

## CAUSATIVE INFINITIVE. VERBOIDS. 'TO HAVE'. DYNAMIC PASSIVE.

### 100. The Causative Infinitive $\tau\rho\epsilon-$ , $\tau\rho\epsilon\equiv$ "(Cause) ... to"

$\tau\rho\alpha-$	$\tau\rho\epsilon\eta-$
$\tau\rho\epsilon\kappa-$	$\tau\rho\epsilon\tau\eta\bar{\nu}-$ or $\tau\rho\epsilon\tau\epsilon\tau\eta\bar{\nu}-$
$\tau\rho\epsilon-$	
$\tau\rho\epsilon\varrho-$	$\tau\rho\epsilon\gamma-$
$\tau\rho\epsilon\varsigma-$	
$\tau\rho\epsilon-\pi\eta\omicron\upsilon\tau\epsilon$	

The causative infinitive ends with a hyphen (as shown above), and it must be completed by another infinitive:  $\tau\rho\epsilon\varrho-\varsigma\omega\tau\eta\bar{\nu}$  = (cause) him to choose,  $\tau\rho\epsilon-\pi\eta\omicron\upsilon\tau\epsilon \varsigma\omega\tau\eta\bar{\nu}$  = (cause) God to choose. It can be conjugated like any other infinitive:  $\alpha\bar{\iota}-\tau\rho\epsilon-$  = I caused,  $\alpha\kappa-\tau\rho\epsilon-$  = you caused,  $\lambda\rho\epsilon-\tau\rho\epsilon-$  = you caused,  $\lambda\varrho-\tau\rho\epsilon-$  = he caused, etc. (below, a). The causative infinitive is also used as a masculine noun (below, b).

It has two meanings. [CG 359–63]

- i. When conjugated or when completing  $\eta\alpha-$  (future) or another verb,  $\tau\rho\epsilon-$  means "cause him (etc.) to ..."

$\alpha\bar{\iota}-\tau\rho\epsilon\varrho-\varsigma\omega\tau\eta\bar{\nu}$	= I caused him (or have caused him) to choose
$\uparrow-\tau\rho\epsilon\varrho-\varsigma\omega\tau\eta\bar{\nu}$	= I am causing him (or cause him) to choose
$\uparrow-\eta\alpha-\tau\rho\epsilon\varrho-\varsigma\omega\tau\eta\bar{\nu}$	= I shall cause him to choose

- ii. As a masc. noun in fixed prepositional phrases,  $\tau\rho\epsilon-$  does not have causal meaning: "him (etc.) choosing; him to choose." For a list of these phrases, see box below.

$\alpha\eta\tau\iota-\tau\rho\epsilon\varrho-\varsigma\omega\tau\eta\bar{\nu}$	= instead of him choosing
$\epsilon-\tau\rho\epsilon\varrho-\varsigma\omega\tau\eta\bar{\nu}$	= in order for him to choose
$\zeta\eta\mu-\pi\tau\rho\epsilon\varrho-\varsigma\omega\tau\eta\bar{\nu}$	= while he was/is choosing

Negations: (a) The preceding conjugation base is negated:  $\bar{\mu}\pi\iota-\tau\rho\epsilon\varrho-\varsigma\omega\tau\eta\bar{\nu}$  = I did not cause him to choose. (b)  $\epsilon-\tau\eta\bar{\mu}-\tau\rho\epsilon-$  but  $\zeta\eta\mu-\pi-\tau\rho\epsilon\varrho-\tau\eta\bar{\mu}-$ .

## THE VERBOIDS

Fixed prepositional expressions containing  $\tau\rho\epsilon-$ ,  $\tau\rho\epsilon\equiv$  [CG 363(4)]

$\alpha\eta\tau\iota-\tau\rho\epsilon-$	Instead of ... -ing
$\alpha\chi\eta\bar{\nu}-\tau\rho\epsilon-$	Without ... -ing
$\epsilon-\pi\mu\alpha \epsilon-\tau\rho\epsilon-$	Instead of ... -ing
$\epsilon-\pi\tau\rho\epsilon-$ and $\epsilon-\tau\rho\epsilon-$	In order for ... to
$\epsilon\iota\mu\eta\tau\iota \epsilon-\tau\rho\epsilon-$	Unless
$\mu\eta\eta\kappa\alpha-\tau\rho\epsilon-$ and $\mu\eta\eta\kappa\alpha-\epsilon-\tau\rho\epsilon-$	After ... -ing
$\chi\omega\rho\iota\varsigma-\tau\rho\epsilon-$	Except when/Unless
$\zeta\alpha\theta\eta \epsilon-\tau\rho\epsilon-$	Before ... -ing
$\zeta\eta\mu-\pi\tau\rho\epsilon-$	While ... -ing
$\zeta\omega\varsigma\tau\epsilon \epsilon-\tau\rho\epsilon-$	So that
$\zeta\iota\tau\eta\mu-\pi\tau\rho\epsilon-$	Because of ... -ing

After  $\zeta\eta\mu-$  and  $\zeta\iota\tau\eta\mu-$  the definite article must be used.

Negations: note  $\epsilon-\tau\eta\bar{\mu}-\tau\rho\epsilon-$  but  $\zeta\eta\mu-\pi\tau\rho\epsilon-$  ...  $\tau\eta\bar{\mu}-$ .

## THE VERBOIDS

101. The verboids ["Suffixally conjugated verboids" in CG 373–82] are a miscellaneous group of verb-like words that exist only in bound states and which are conjugated by sticking the subject onto the end. Especially important are the  $\eta\alpha$  group,  $\omicron\upsilon\eta\tau\epsilon-$  'have', and  $\pi\epsilon\chi\epsilon-$  'said'.

102. The  $\eta\alpha$  Group are seven verboids that begin with the letters  $\eta\alpha$  or  $\eta\epsilon$  and express adjectival meaning; cf. 70.  $\eta\alpha\eta\omicron\gamma-\kappa$  = You are good.  $\eta\alpha\eta\omicron\gamma-\varrho$  = He or it is good.  $\eta\alpha\eta\omicron\gamma-\pi\epsilon\kappa\epsilon\iota\omega\tau$  = Your father is good. The attachment of the personal suffixes follows the usual pattern (52 table). [CG 376–78]

$\eta\alpha\alpha-$ , $\eta\alpha\alpha\alpha\equiv$	= is great
$\eta\alpha\eta\omicron\gamma-$ , $\eta\alpha\eta\omicron\gamma\equiv$	= is good
$\eta\epsilon\varsigma\epsilon-$ , $\eta\epsilon\varsigma\omega\equiv$	= is beautiful
$\text{---}$ , $\eta\epsilon\varsigma\beta\omega\omega\equiv$	= is intelligent
$\eta\alpha\omega\epsilon-$ , $\eta\alpha\omega\omega\equiv$	= is many, much, plentiful
$\text{---}$ , $\eta\alpha\zeta\lambda\omega\beta\equiv$	= is pleasant
$\text{---}$ , $\eta\epsilon\beta\omega\equiv$	= is ugly

Negation: ( $\eta-$ ) ...  $\alpha\eta$

For example:  $\eta\alpha\alpha-\pi\eta\omicron\upsilon\tau\epsilon$  God is great,  $\eta\alpha\alpha\alpha-\varrho$  He is great,  $\eta\alpha\alpha\alpha-\bar{\iota}$  I am great,  $\bar{\eta}-\eta\alpha\eta\omicron\gamma-\pi\alpha\bar{\iota} \alpha\eta$  this is not good,  $\eta\epsilon\beta\omega-\omicron\gamma \alpha\eta$  they are not ugly, etc.

For the comparative (is greater etc.) cf. 71.

**103. To Have, affirm.** οὐντε-, οὐντα- / **neg.** μντε-, μντα- or μμντε-, μμντα- [CG 383–92]

οὐντα-ī	μντα-ī
οὐντα-κ	μντα-κ
οὐντε- <sup>0</sup>	μντε- <sup>0</sup>
οὐντα-q	μντα-q
οὐντα-c	μντα-c
οὐντα-n	μντα-n
οὐντη-τῆ	μντη-τῆ
οὐντα-γ	μντα-γ
οὐντε-πνουτε	μντε-πνουτε

Constructions of *have* are often followed by the untranslatable adverb μμαγ. (The linguistic function of this seemingly meaningless part of the construction is not yet understood.)

Because *have* can take a direct object, the complicated problem arises of how the direct object can be combined with the suffixed subject. There are four possibilities:

- The man has the boats. οὐντε-πρωμε νεχην
- He has the boats. οὐντα-q ἡ-νεχην or οὐντq-νεχην or οὐνταq-νεχην
- He has them. οὐντα-q-coy
- The man has them.

A few comments:

- In *the man has the boats*, the direct object (νεχην) floats alone and independent, without any direct object preposition. οὐντε-πρωμε νεχην.
- In *he has the boats*, the direct object (νεχην) can be either marked by the preposition ἡ- (οὐντα-q ἡ-νεχην) or suffixed directly (οὐντα-q-νεχην), in which case the verboid may or may not be spelled in a bound state (οὐντ=), as follows:

οὐντ- νεχην etc.	μντ-
οὐντκ-	μντκ-
οὐντε-	μντε-
οὐντq-	μντq-
οὐντc-	μντc-
οὐντῆ-	μντῆ-
οὐντετῆ-	μντετῆ-
οὐντογ-	μντογ-

E.g. οὐντετῆ-<sup>0</sup>πιστικ μμαγ = You have faith. οὐντ-τεζογσια = I have the power. (Also οὐντητῆ-<sup>0</sup>πιστικ, οὐνταῖ-τεζογσια.)

- In *he has them* the direct object (*them*) must be taken from a special set of “personal second suffixes” used for this purpose.

-τ	-cῆ
-κ, -cῆ, or -τῆ	-τηγῆ
[? form unknown]	
-q or -cῆ	-ce or -coy
-c	

Thus οὐντα-q-ce or οὐντα-q-coy = He has them.

- The fourth possibility, *the man has them*, is not well attested. An esoteric solution to this problem is described in CG 390(b).

The personal second suffixes [CG 88] also must be used as direct object of

τῆνοογ=	send hither
χοογ=	send thither
τοογ=	buy
βοογ=	make narrow
czai=	write
special affirmative imperatives ending in ι= (e.g. λνι= = bring 87 [box])	

Negations are formed identically, but based on μντε-, μντα- (or μμντε-, μμντα-) instead of οὐντε-.

For now, you should treat all this information as reference material, coming back to it whenever you need to translate a οὐντε- sentence. Remember that μμαγ (untranslatable) sometimes appears near the end of such sentences.

**104. Other expressions of ‘having’.** To express integral membership in an organism (a tree ‘has’ leaves, a man ‘has’ hands), custody (I ‘have’ some money), infection (she ‘has’ an illness or a demon), etc. Coptic often uses a prepositional predicate such as μμο= in a durative sentence, as illustrated below. [CG 393–94]

οὐν- <sup>0</sup> βαλ μμο-ογ
They <i>have</i> eyes (There are eyes in them)
οὐν-φτην cῆτε ζιωτ-τηγῆ
You <i>have on</i> two tunics (There are two tunics upon you)
οὐν-οὐπῆα ἡ-ακαθαρτον ἡγῆτ-ῆ
He <i>has</i> an unclean spirit (There is an unclean spirit in him)

**105.** The other verboids [CG 379–82] are

πεχε-, πεχα= = *said*. Marks direct discourse, only in past narration **145**. Very common. No negation. πεχε-ῆc = Jesus said. πεχα-q = He said. The content

# LESSON THIRTEEN

of what was said is introduced by the conjunction  $\chi\epsilon-$  (Greek  $\delta\tau\iota$ ):  $\pi\epsilon\chi\epsilon-\bar{\iota}\bar{\varsigma} \chi\epsilon-\mu\epsilon\rho\epsilon-\pi\pi\omicron\upsilon\tau\epsilon$  = Jesus said, Love God.

$\gamma\eta\epsilon-$ ,  $\gamma\eta\alpha\epsilon$  = *is willing, is content, agrees to*. Negation, ( $\bar{n}-$ ) . . .  $\lambda\eta$ . E.g.  $\gamma\eta\alpha-\bar{n}\epsilon-\theta\epsilon\iota \epsilon\beta\omicron\lambda \gamma\eta-\pi\varsigma\omega\mu\alpha$  = We are willing to come out of the body.

$\mu\epsilon\psi\alpha\epsilon$  = *not know*.  $\mu\epsilon\psi\alpha-q$  = He does not know.

$\eta\epsilon\alpha\bar{p}-$  = *is pleasant*.

$\omicron\gamma\epsilon\tau-$  = *is distinct, is different*. E.g.  $\omicron\gamma\epsilon\tau-\pi\chi\omicron\epsilon\iota\varsigma \lambda\gamma\omega \omicron\gamma\epsilon\tau-\pi\gamma\eta\gamma\alpha\lambda$  = The master is one thing, but the servant is quite another.

## THE DYNAMIC PASSIVE

**106.** The *dynamic passive* (something being done to someone). [CG 175] The term "passive" has two meanings in Coptic. First, you have already learned the static passive or *stative*, which describes the enduring state of a subject after an action or process or quality has been achieved: thus statives  $\beta\eta\lambda^\dagger$  = free,  $\mu\omicron\omicron\gamma\tau^\dagger$  = dead,  $\omicron\gamma\omicron\beta\psi^\dagger$  = white (see above, 66).

The other kind of passive is the *dynamic passive*, which describes something that is happening to someone or something (dynamic, not static). Coptic has no special verb form to express the dynamic passive. Rather, the dynamic passive is expressed by a pro forma 3d person plural actor "they."

$\varsigma\epsilon-\eta\alpha-\chi\pi\omicron-q$  = He will be born ("they-will-bear-him")

$\lambda\gamma-\chi\pi\epsilon-\bar{\iota}\bar{\varsigma} \gamma\eta-\beta\eta\theta\lambda\epsilon\epsilon\mu$  = Jesus was born in Bethlehem ("they-bore-Jesus in-Bethlehem")

Sentences such as these are ambiguous, since the 3d person might also be understood to mean a group of actors who did something. Fortunately, the matter can be cleared up where necessary: the real actor (the cause of the process) can be specified by an agential preposition  $\epsilon\beta\omicron\lambda \gamma\iota\tau\bar{n}-$  or  $\gamma\iota\tau\bar{n}-$  or  $\epsilon\beta\omicron\lambda \gamma\eta-$ .

$\lambda\gamma-\chi\pi\epsilon-\bar{\iota}\bar{\varsigma} \gamma\eta-\beta\eta\theta\lambda\epsilon\epsilon\mu \epsilon\beta\omicron\lambda \gamma\eta-\mu\alpha\rho\iota\alpha$  = Jesus was born of Mary in Bethlehem (they-bore-Jesus in-Bethlehem out-of-Mary)

$\lambda\gamma-\chi\omicron\omicron-\varsigma \gamma\iota\tau\bar{n}-\pi\epsilon\pi\rho\omicron\phi\eta\tau\eta\varsigma$  = It was said by the prophet (they-said-it by-the-prophet)

Such sentences, because they contain an agential preposition, are unambiguous.

# VOCABULARY 13

## More verbs: Communication and mental activity

$\chi\eta\omicron\gamma$ ( $\chi\eta\epsilon-$ , $\chi\eta\omicron\gamma\epsilon$ )	ask; question; tell	$\xi\rho\omega\tau\bar{\alpha}\nu$
$\omicron\gamma\omega\psi\bar{\beta}$	answer	$\acute{\alpha}\pi\omicron\kappa\rho\iota\eta\epsilon\sigma\theta\alpha\iota$
$\chi\omega$ ( $\chi\epsilon-$ , $\chi\omicron\omicron\epsilon$ ) (not same as $\chi\omicron$ , $\chi\epsilon-$ , $\chi\omicron\omicron\epsilon$ sow)	say, utter; talk about; sing	$\lambda\acute{\epsilon}\gamma\epsilon\iota\nu$
$\chi\omega \bar{m}\mu\omicron-\varsigma \chi\epsilon-$ , $\chi\omicron\omicron\omicron-\varsigma \chi\epsilon-$	say . . . ( $\chi\epsilon-$ = Greek $\delta\tau\iota$ )	$\lambda\acute{\epsilon}\gamma\epsilon\iota\nu$
$\pi\epsilon\chi\epsilon-$ , $\pi\epsilon\chi\alpha\epsilon$ (105)	said (always narrative past tense)	$\lambda\alpha\lambda\epsilon\iota\nu$
$\omicron\gamma\epsilon\gamma-\theta\epsilon\varsigma \gamma\eta\epsilon \bar{n}-/\bar{m}\mu\omicron\epsilon + \bar{n}-/\eta\alpha\epsilon$	command; give (a command) + to (a person)	$\kappa\epsilon\lambda\epsilon\upsilon\epsilon\iota\nu$
$\varsigma\omega\tau\bar{m} \epsilon-$	listen to (words or person)	$\acute{\alpha}\kappa\omicron\upsilon\epsilon\iota\nu$
$\varsigma\omega\tau\bar{m} \bar{n}-/\eta\alpha\epsilon$ or $\bar{n}\varsigma\alpha-$	obey	$\acute{\alpha}\kappa\omicron\upsilon\epsilon\iota\nu$
$\bar{p}-\pi\mu\epsilon\epsilon\gamma\epsilon \bar{n}-$ , $\bar{p}-\pi\epsilon\alpha-$	remember	$\mu\iota\mu\eta\eta\sigma\kappa\epsilon\iota\nu$
$\mu\epsilon\epsilon\gamma\epsilon$ (etc.)		
$\omega\pi$ ( $\epsilon\pi-$ , $\omicron\pi\epsilon$ ) $\eta\pi^\dagger$	count; consider to be	$\lambda\omicron\gamma\iota\zeta\epsilon\sigma\theta\alpha\iota$
$\tau\alpha\mu\omicron$ ( $\tau\alpha\mu\epsilon-$ , $\tau\alpha\mu\omicron\epsilon$ )	inform (someone + $\epsilon-$ about something)	$\acute{\alpha}\pi\alpha\gamma\gamma\acute{\epsilon}\lambda\lambda\epsilon\iota\nu$
$\gamma\omega\pi$ ( $\gamma\epsilon\pi-$ , $\gamma\omicron\pi\epsilon$ )	conceal, hide; ingr. become hidden	$\kappa\rho\upsilon\pi\tau\epsilon\iota\nu$
$\gamma\eta\pi^\dagger$		
$\omicron\gamma\omega\eta\gamma$ ( $\omicron\gamma\epsilon\eta\gamma-$ , $\omicron\gamma\omicron\eta\gamma\epsilon$ )	reveal; ingr. become manifest	$\phi\alpha\eta\epsilon\rho\omicron\upsilon\nu$
$\epsilon\iota\mu\epsilon$	know ( $\epsilon-$ about a thing; $\chi\epsilon-$ that . . .); understand, become acquainted with	$\gamma\iota\gamma\eta\omega\sigma\kappa\epsilon\iota\nu$ , $\epsilon\iota\delta\acute{\epsilon}-\nu\alpha\iota$
$\varsigma\omicron\omicron\gamma\eta\eta$ ( $\varsigma\omicron\gamma\eta\eta-$ , $\varsigma\omicron\gamma\omega\eta\eta\epsilon$ )	become acquainted with; know ( $\chi\epsilon-$ that . . .)	$\gamma\iota\gamma\eta\omega\sigma\kappa\epsilon\iota\nu$ , $\epsilon\iota\delta\acute{\epsilon}-\nu\alpha\iota$
$\psi\iota\eta\epsilon \bar{n}\varsigma\alpha-$	seek	$\zeta\eta\tau\epsilon\iota\nu$
$\psi\iota\eta\epsilon \epsilon-$	greet	$\acute{\alpha}\sigma\pi\acute{\alpha}\zeta\epsilon\sigma\theta\alpha\iota$
* $\alpha\iota\tau\epsilon\iota \bar{n}-/\bar{m}\mu\omicron\epsilon$	ask (a person); request (a thing)	$\epsilon\upsilon\rho\iota\sigma\kappa\epsilon\iota\nu$
$\gamma\epsilon \epsilon-$ , $\gamma\eta\gamma^\dagger \epsilon-$	find	

с2аї (сє2-, с2а2= or с2аї-, с2аї <sup>a</sup> ), сн2 <sup>†</sup>	write	γράφειν
ωψ (εψ-, οψ=)	read	ἀναγινώσκειν
ωψ εβολ (εψ-, οψ=)	cry out	κράζειν
р1мє	weep	κλαίειν
наγ є-	look (at)	ἰδεῖν, ὁρᾶν
δωψт є-	look (at), stare (at)	βλέπειν
єрнт	promise	ἐπαγγέλλειν
моуτε є-	call out to, summon, invoke	καλεῖν
моуте є- (person) хє- (name)	call ( <i>person by the name of</i> )	λέγειν
<i>Conjunctions</i>		
н̄Ѡє н̄-ογ- ...	like a ...	ὥς
н̄Ѡє н̄-п-/т-/н̄- ...	like the ...	ὥς δ ...
н̄Ѡє н̄-н1- ...	like a (sic <sup>b</sup> ) ..., like ...	ὥς
<i>Other expressions</i>		
ογ- ... н̄-ογωт	a single ..., an only ...	εἷς, μονο-
п1- ... н̄-ογωт	the very same ...	ὁ αὐτός
п- ... н̄-ογωт	the only	ὁ μονο-
а2ро=	What's the matter with ... ?; Why ... ? <sup>c</sup>	τί

<sup>a</sup>с2аї= takes the personal second suffixes. Cf. 103 (box).<sup>b</sup>E.g. н̄Ѡє н̄-н1ωнре = like a child or like children.<sup>c</sup>а2ро= is completed by a personal suffix, which agrees with the subject of a following independent clause. E.g. а2ро-тн̄ тетн̄-р̄-<sup>θ</sup>2оте "Why are you afraid?"; а2ро-к к-моуτε єро-ї "Why are you calling me?"; а2ро-<sup>θ</sup> те-р1ме "Why are you weeping?"

## EXERCISES 13

A. Translate. a. қ-тре-πεqлаос моуτε єро-қ. b. ақ-тра-с2аї н̄-неїωахе. c. ас-єи хєкаас єсє-третн̄-сωтн̄. d. зм̄-птрек-δωψт єро-ογ ақ-ογωψ̄. e. зм̄-птрек-δωψт єро-ογ қ-на-ογωψ̄. f. н̄-†-ογωψ аη є-<sup>θ</sup>тре-теїωєєре моу. g. †-ογωψ є-<sup>θ</sup>тм̄-теїωєєре моу.

B. Translate into Coptic. a. I made him look at me. b. You (sing. fem.) made me promise. c. He made them listen to her. d. He made them obey her. e. We have not yet made them conceal it. f. They did not cause her to write it.

C. Recite the paradigm (with all eight persons and the noun subject), forwards and backwards. a. наноу= (I am good, you are good, etc.). b. (н̄-)наноу= аη I am not good ... c. наωω= (I am plentiful ...). d. пєха= (I said ...). e. ογн̄та= (I have ...). f. ммн̄та= (I do not have ...).

D. Translate.

- ογн̄те-пноуτε ογρ̄пе зн̄-м̄пн̄ує.
- мн̄те-пєпрофн̄тн̄с кєн̄ī мм̄ау.
- ογн̄те-п̄р̄ро тєз̄οуςια м̄-п̄ωη̄ з̄ мн̄-п̄моу.
- ογн̄та-қ мм̄ау н̄-ογρ̄пє.
- ογн̄та-қ н̄-ογρ̄пє.
- ογн̄т-қ̄-ογρ̄пє.
- мн̄та-қ н̄-кєн̄ī.
- ммн̄т-қ̄-кєн̄ī мм̄ау.
- ογн̄та-қ н̄-тєз̄οуςια.
- ογн̄та-қ-сє.
- ογн̄т-қ̄-тєз̄οуςια.
- ογн̄та-қ-соу.
- ογн̄та-қ-сқ̄.
- ογн̄та-қ-с̄.
- ογн̄та-қ-сн̄.
- ογн̄та-қ-ск̄.
- ογн̄та-қ-тн̄γтн̄.

E. Translate into Coptic, giving alternate translations where possible. a. My father has three large houses. b. You do not all have them. c. We have another wise prophet. d. These emperors have four kingdoms. e. They do not have five kingdoms. f. They have us. g. I am better than you are. h. God is greater than the emperors. i. She is more intelligent than he is.

F. Reading selections from the New Testament.

1.  $\text{MNTA-N-}\lambda\lambda\lambda\gamma \text{ MPEIMA}$ . (textual variants have  $\text{MNTN-}$  and  $\text{MNTN-}$ ) Matthew 14:17
2.  $\text{OYNTA-q}$  γαρ  $\text{MMA}\gamma \text{ N-}\gamma\alpha\gamma \text{ N-NKA}$ . Matthew 19:22 alt.
3.  $\text{OYNTH-TN-OYHP N-OEIC}$ . Mark 6:38
4.  $\text{MNTOU-}^{\theta}\omega\eta\rho\epsilon \text{ MMA}\gamma$ . Luke 1:7 alt.
5.  $\text{OYNT-C-OYCONE AE}$ . Luke 10:39 alt.
6.  $\text{MNTN-KEPO MMA}\gamma \text{ EIMHTI PPO KAICAP}^{32}$ . John 19:15
7.  $\text{OYNTA-I MMA}\gamma \text{ M-PEPNA M-PNOYTE}$ . 1 Corinthians 7:40
8.  $\text{OYNTA-N MMA}\gamma \text{ N-OYKWT EBOA ZITM-PNOYTE}$ . 2 Corinthians 5:1
9.  $\text{MNTA-N-}^{\theta}\text{POLIC}$  γαρ  $\text{MPEIMA}$ . Hebrews 13:14
10.  $\text{OYNTAN MMA}\gamma \text{ N-OYPARRHCIA}^{33} \text{ NNAZR M-PNOYTE}$ . 1 John 3:21
11.  $\text{EBOA ZITM-PEITC CE-TAYE-}^{\theta}\text{OEI}\omega \text{ NH-TN M-PKW EBOA N-NE-TNNOVE}$ . Acts 13:38
12.  $\text{AY-TAYE-}^{\theta}\text{OEI}\omega \text{ M-PWAXE M-PNOYTE EBOA ZITM-PAYLOS}$ . Acts 17:13 alt.
13.  $\text{OYCMH AY-CWTM EPO-C ZN-RAMA}^{34}$ . Matthew 2:18

G. Translate.

a.  $\text{AY-XNOY-I AY}\omega \text{ AI-OY}\omega\psi\bar{\nu}$ . b.  $\text{AQ-X}\omega \text{ MMO-C XE-TAMO-I E-PEIZWB}$ . c.  $\text{F-OYER-CARNE NH-TN E-}^{\theta}\text{TM-RIME}$ . d.  $\text{AC-ZE EPO-q ZM-PEQH}$ . e.  $\text{AY-P-PMEEYE N-NEQWAXE}$ . f.  $\text{N-F-COON AN M-PRWME}$ . g.  $\text{MPQ-EIME M-PZW}$ . h.  $\text{MPR-WY N-TEIGRAFH N-LAY N-RWME}$ . i.  $\text{PEXA-Y NA-q XE-TN-WINE NCA-IC}$ .

H. Translate into Coptic. a. This was said by Moses. b. His kingdom will be hidden until the last day. c. Truth was revealed by Jesus. d. She will be sought in the city. e. She will be sought in the city by everyone. f. You will be called "John."

# LESSON 14

## IMPERSONAL PREDICATES. THE FOUR CONVERSIONS. PRETERIT CONVERSION. HOW CONVERSION WORKS.

107. The eight impersonal predicates are single words that express a short impersonal statement. [CG 487]

- (a)  $\text{ANAKH}$  It is necessary. Negation ( $\bar{\text{N}}$ -)  $\text{ANAKH AN}$ .  
 $\text{Z}\omega$  It is sufficient, It is enough. Neg. ( $\bar{\text{N}}$ -)  $\text{Z}\omega \text{ AN}$ .  
 $\text{ZAPC}$  It is necessary. Neg. ( $\bar{\text{N}}$ -)  $\text{ZAPC AN}$ .  
 $\text{ZNE-}$ ,  $\text{ZNA=}$  It is pleasing unto . . . Neg. ( $\bar{\text{N}}$ -)  $\text{ZNE-}$  (or  $\text{ZNA=}$ )  $\text{AN}$ . 105
- (b)  $\text{GENOITO}$  May it come to pass. Neg.  $\text{MHGENOITO}$ .  
 $\text{EZECTI}$  It is permitted, possible, proper. Neg.  $\text{OYKEZECTI}$ .
- (c)  $\omega\psi\epsilon$  (or  $\epsilon\omega\psi\epsilon$ ) It is right, fitting, necessary. Neg. ( $\bar{\text{N}}$ -)  $\omega\psi\epsilon \text{ AN}$  and  $\text{ME}\omega\psi\epsilon^{35}$ .
- (d)  $\text{ZAMOI}$  How good it would be if . . . ! If only . . . No negation.

The impersonal predicates are most often completed by a verbal clause or phrase. [CG 486] E.g.

$\text{ANAKH GAF E-}^{\theta}\text{TRE-NECKANALLON EI}$   
 For, it is necessary that temptations come

$\text{EZECTI ZN-NCABBATON E-}^{\theta}\text{P-}^{\theta}\text{PETNANOYQ XN-}^{\theta}\text{P-}^{\theta}\text{PEOOU}$   
 Is it lawful on the sabbath to do good or to do harm?

Similar in content are other impersonal expressions meaning *It is evident, obligatory, necessary, sufficient, a good thing, hard, shameful*, etc. E.g.  $\text{q-OYONZ EBOA XE-}$  = It is obvious that . . . ,  $\text{OYMOEIZTE TE NTE-}$  (conjunctive) = It is amazing that . . . ,  $\text{q-MOKZ E-}^{\theta}\text{TRE=}$  = It is hard for . . .

<sup>35</sup>  $\bar{\text{N}}-\omega\psi\epsilon \text{ AN}$  in unconverted clauses and some relative conversions ( $\text{ETE-N-}\omega\psi\epsilon \text{ AN}$ );  $\text{ME}\omega\psi\epsilon$  in circumstantials and some relative conversions ( $\text{E-ME}\omega\psi\epsilon$ ,  $\text{ETE-ME}\omega\psi\epsilon$ ) [CG 488].

<sup>32</sup>  $\text{KAICAP}$  Caesar.

<sup>33</sup>  $\text{PARRHCIA}$  freedom to speak.

<sup>34</sup>  $\text{RAMA}$  (place name) Rama.

## THE FOUR CONVERSIONS—A GENERAL SURVEY

**108.** Up to this point, you have been learning the basic sentence types:

nominal sentence  
durative sentence  
non-durative conjugation  
verboids  
impersonal predicates

These are used as the basis of important grammatical patterns called *conversions*, which we shall now study, one at a time. There are four conversions:

Preterit Conversion  
Circumstantial Conversion  
Relative Conversion  
Focalizing Conversion

With a few exceptions, each of the five basic sentence patterns can occur in these four conversions, as well as in unconverted form: roughly twenty-five possibilities. [CG 395–398]

**109.** Converted clauses are marked as having a special relationship to the surrounding text, in syntax and/or in the way that they present information.

The *preterit* (lesson 14) often moves things one step back in time or into non-factuality:  $\alpha-\kappa\omega\tau$  he builds; preterit  $\text{νε}\alpha\text{q}-\kappa\omega\tau$  he was building,  $\text{νε}\alpha\text{q}-\text{να}-\kappa\omega\tau$  he would build

The *circumstantial* (lesson 15) expresses something like a participle or a Greek genitive absolute (Latin ablative absolute):  $\text{c}-\rho\text{ι}\mu\epsilon$  she is weeping; circumstantial  $\text{ec}-\rho\text{ι}\mu\epsilon$  weeping, while she weeps/wept, as she weeps/wept

The *relative* (lessons 16–17) forms a modifying clause (attributive clause):  $\alpha-\kappa\omega\tau$  he is building; relative  $\text{π}\eta\bar{\iota}\ \text{et}\bar{\alpha}-\kappa\omega\tau\ \bar{\mu}\mu\text{o}-\alpha$  the house that he is building

The *focalizing* (lesson 18) signals that some element in the sentence should be read with special focus or intensity:  $\alpha-\text{να}-\text{βαπτ}\bar{\iota}\text{ζε}\ \bar{\mu}\mu\omega-\text{τ}\bar{\eta}\ \bar{\zeta}\bar{\eta}-\text{ο}\gamma\bar{\eta}\bar{\eta}\alpha$  he will baptize you with spirit; focalizing  $\text{eq}-\text{να}-\text{βαπτ}\bar{\iota}\text{ζε}\ \bar{\mu}\mu\omega-\text{τ}\bar{\eta}\ \bar{\zeta}\bar{\eta}-\text{ο}\gamma\bar{\eta}\bar{\eta}\alpha$  he will baptize you with spirit, or he will baptize you with spirit, or he will baptize you with spirit, or what he will do is baptize you with spirit

Conversions occur frequently. You must learn to recognize the four conversions wherever they are present.

**110.** You can recognize a conversion by the presence of a *converter* at (or near) the beginning of the converted clause:

## THE PRETERIT CONVERSION

Preterit Converter  
Circumstantial Converter  
Relative Converter

$\text{νε}\rho\epsilon-$ ,  $\text{νε}\bar{\epsilon}$ ;  $\text{νε}-$   
 $\epsilon\rho\epsilon-$ ,  $\epsilon\bar{\epsilon}$ ;  $\epsilon-$   
 $\epsilon\tau\epsilon\rho\epsilon-$ ,  $\epsilon\tau\bar{\epsilon}$ ;  $\epsilon\text{nt}-$  or  $\bar{\eta}\tau$ ,  $\epsilon\tau-$ ,  $\epsilon\tau\epsilon-$ ,  
and  $\epsilon-$

Focalizing Converter

$\epsilon\rho\epsilon-$ ,  $\epsilon\bar{\epsilon}$ ;  $\epsilon-$ ,  $\bar{\eta}\tau-$ , and  $\epsilon\tau\epsilon-$

The converter is substituted or prefixed at the beginning of the clause as a signal of conversion. As you can see from the list above, there is ambiguity in identifying the converters spelled  $\epsilon\rho\epsilon-$ ,  $\epsilon\bar{\epsilon}$ ,  $\epsilon-$  and  $\bar{\eta}\tau-$ .

For example,

$\text{νε}-\omega\alpha\alpha\text{q}-\text{c}\omega\tau\bar{\eta}$  = Preterit (marked by  $\text{νε}-$ )

$\epsilon\tau\epsilon-\omega\alpha\alpha\text{q}-\text{c}\omega\tau\bar{\eta}$  = Relative (marked by  $\epsilon\tau\epsilon-$ )

But  $\epsilon-\omega\alpha\alpha\text{q}-\text{c}\omega\tau\bar{\eta}$  is ambiguous = Circumstantial or Relative or Focalizing ( $\epsilon-$ ). The ambiguity of  $\epsilon-$  in such a case is resolved either when the larger context rules out some interpretations or by a particular interpretive decision made by the reader.

In this lesson we shall study the preterit conversion.

## THE PRETERIT CONVERSION

**111.** The preterit conversion [CG 434–43] often moves things back one step in time

Basic	Preterit
$\alpha-\kappa\omega\tau$ He builds, He is building	$\text{νε}\alpha\text{q}-\kappa\omega\tau$ He used to build, He was building
$\alpha\alpha-\kappa\omega\tau$ He built	$\text{νε}\epsilon-\alpha\alpha-\kappa\omega\tau$ He had built

or expresses a remote hypothetical possibility or wish<sup>36</sup>

Basic	Preterit
$\alpha-\text{να}-\kappa\omega\tau$ He will build, He is going to build	$\text{νε}\alpha\text{q}-\text{να}-\kappa\omega\tau$ He would build (if he could)

The ordinary way to tell a story is the past tense  $\alpha\alpha-$  (and  $\text{πε}\chi\alpha\bar{\epsilon}$  “said”), e.g.  $\alpha\gamma-\text{π}\omega\tau$  “They fled.” In contrast, preterit  $\text{νε}\alpha\text{q}-$  is a literary device that expresses information in a descriptive, static (durative) way, which provides a background for the ordinary story line

$\alpha\gamma-\text{π}\omega\tau.\ \text{νε}\rho\epsilon-\text{ο}\gamma\bar{\zeta}\text{o}\tau\epsilon\ \bar{\rho}\alpha\bar{\rho}\ \bar{\eta}\bar{\eta}\mu\alpha-\gamma.$

They fled (narration). For, fear was with them (explanatory background information)

<sup>36</sup> See below 152, where contrary-to-fact conditional sentences are discussed.

and changes the tempo. The background scenery is painted in *νεq-*, the main actions are clothed in *aq-*.

ΒΗΘΑΝΙΑ ΔΕ ΝΕC-ΖΗΝ ΕΖΟΥΝ Ε-ΘΙΕΡΟΥCΑΛΗΜ. ΟΥΜΗΝΩΕ ΔΕ ΕΒΟΛ  
ΖΝ-ΝΙΟΥΔΑΙ ΝΕ-ΑΥ-ΕΙ ΨΑ-ΜΑΡΘΑ ΜΝ-ΜΑΡΙΑ. ΜΑΡΘΑ ΒΕ ΝΤΕΡΕC-  
CΩΤΜ . . . ΔC-ΕΙ ΕΒΟΛ

Bethany was *near* [background] Jerusalem. And a crowd of the Jews *had come* [background] to Martha and Mary. So when Martha heard, she *came out* [main story line]

The literary value of the preterit, indeed its meaning, is to switch out of the main line of discourse (*aq-*, *ντερεq-*, *πεχα-q*) into a descriptive or slow-motion mode (*νεq-*), and then back again (*aq-*). [CG 439] The translation exercises with this lesson will include large amounts of context, so you can study this process of switching back and forth. Other “switching signals” may also be present, such as *δε* to mark a switch or *ντεγνοy* to signal a return to the main action line (especially in Mark).

#### HOW THE CONVERSION PROCESS WORKS FORMALLY

### 112. Each converter appears in two types:

- i. As a *conversion base* in the two states<sup>37</sup> [CG 396]; occurs only in durative sentences

Preterit	νερε-, νε=
Circumstantial	ερε-, ε=
Relative	ετερε-, ετ=
Focalizing	ερε-, ε=

- ii. As a *sentence converter*

Preterit	νε-
Circumstantial	ε-
Relative	εντ- or ντ-, ετ-, ετε-, or ε- (depending on sentence type)
Focalizing	ε- or ντ- (depending on sentence type); ετε-

The following three paragraphs give details about the exact formation of conversions. But you should concentrate first on learning how to recognize and translate them. You will gain a more detailed knowledge from practice and reading experience. The preterit will be used here as an example.

**113.** (a) *To convert a basic durative sentence*, remove the personal subject prefix (†-, κ-, etc.) and substitute the conversion base (νε=) conjugated with a personal suffix. [CG 320]

<sup>37</sup> Just like the non-durative conjugation bases. Cf. lesson 10 and the chart with 52.

#### HOW CONVERSION WORKS

Basic	Converted (Preterit)
†-βωλ	νεϊ-βωλ
†-βηλ†	νεϊ-βηλ†
†-ζμ-πεqhī	νεϊ-ζμ-πεqhī
†-να-βωλ	νεϊ-να-βωλ
†-	νεϊ-
κ-	νεκ-
τε-	νερε-
q-	νεq-
c-	νεc-
τñ-	νεn-
τετñ-	νετετñ-
ce-	νεy-

If the subject is an article phrase, pronoun, etc., prefix the prenominal conversion base (νερε-) to it.

πρωμε cωτñ

νερε-πρωμε cωτñ

Negations are formed by adding *αν* after the predicate. E.g. *νεϊ-cωτñ αν*, *νερε-πρωμε cωτñ αν*.

**114.** (b) *To convert a durative sentence formed with affirmative οyñ-* “there is,” it is possible to simply substitute a prenominal conversion base (νερε-, ερε-, ετερε-, ερε-) in place of οyñ-<sup>38</sup>. [CG 324]

οyñ-<sup>θ</sup>ρωμε cωτñ

νερε-<sup>θ</sup>ρωμε-cωτñ

Etc.

**115.** (c) *To convert all other sentence types*<sup>39</sup>, simply prefix the sentence converter to the basic sentence, whether affirmative or negative. [CG 396–98] For example,

νε-ανñ-οyπροφhтc<sup>40</sup>

νε-οyπροφhтc πε

νε-οyπροφhтc ан πε

νε-aq-cωτñ, νε-mñq-, νε-mñatq-, νε-ψaq-, νε-meq-

νε-nañoy-q

νε-nañoy-q ан

νε-anañkñ . . .

νε-anañkñ ан . . .

<sup>38</sup> Or, optionally, prefix the sentence converter to οyñ-, thus *νε-οyñ-<sup>θ</sup>ρωμε βωλ* (all four conversions).

<sup>39</sup> There is no preterit conversion of the optative affirmative *ε=ε-*.

<sup>40</sup> The negation of *νε-ανñ-οyπροφhтc* apparently does not occur.

νε-οὔν-<sup>θ</sup>ρωμε σωτῆ<sup>41</sup>  
 νε-μν-<sup>θ</sup>ρωμε σωτῆ  
 νε-παῖ πε-ετῆ-σωτῆ ἡμο-<sup>42</sup>  
 Etc.

The non-durative subordinate clauses (ντερε- etc.) cannot be converted.

**116.** *The preterit particle πε.* [CG 438] The word πε sometimes occurs in preterit sentences, towards the end of the sentence. Its function and meaning are unknown<sup>43</sup>. E.g. νεq-σωτῆ πε.

**117.** To summarize: It will be easy to recognize a preterit conversion when you read, because the converted clause begins with the signal νερε-, νεs, or νε-. Also, πε may occur towards the end of a preterit clause.

# VOCABULARY 14

## More verbs: Miscellaneous basic actions

ογω (ογεω-, ογαωs)	want to; love; like	θέλειν
ειρε (ῑ-, λαs) ο†	make; cause . . . to be; function as . . . ; amount to; perform, accomplish; be (ο† ἡ-)	ποιεῖν, εἶναι
*αρχει ἡ- or ε- (+ infin.)	begin	
δω, δεετ†	stay, tarry, remain (w. circumstantial 120)	μένειν
λο	cease (w. circumstantial 120); get well	παύεσθαι, ἰᾶσθαι
ωωπε, ωοοπ†	become, come into existence; happen, come to pass; be	γίνεσθαι; εἶναι
χο (χοπε-, χοs) (=τωπο)	bring into existence; give birth to; produce; get (literally "cause to exist")	γεννᾶν
αμαρτε	seize, grasp	κρατεῖν
κω (κα-, καs) κη†	place, appoint, put down; permit; leave, abandon; lie, be (κη†)	τιθέναι, ἀφίεναι; κείσθαι
ζιογε (ζι-, ζιτs)	strike, cast	δέρειν, τύπτειν
ζαρεζ ε-	keep, guard	τηρεῖν, φυλάσσειν

## Verbs of position: (a) Motion

μοογε	go, travel, walk	πορεύεσθαι, περιπατεῖν
πωτ, πητ†	run, flee	τρέχειν
ζων εζογν, ζην†	draw near, approach	ἐγγίζειν, ἐγγύς εἶναι
εζογν		
qi (qi-, qiτs)	take up; take away; ζα- carry	αἴρειν

<sup>41</sup> Also νερε-<sup>θ</sup>ρωμε σωτῆ.

<sup>42</sup> Preterit of a cleft sentence (see lesson 19).

<sup>43</sup> This πε does not occur in the preterit of nominal sentences formed with πε. In other words, πε πε is not written.

# LESSON FOURTEEN

## (b) Stasis

ΖΜΟΟC	sit, dwell; ΜΝ- be married to	καθῆσθαι
ΑΖΕΡΑΤ= or ΑΖΕ ΕΡΑΤ=	stand (stand-on-feet-of self	ιστάναι
(filed under ΩΖΕ)	[reflexive])	

## (c) Rotation

ΚΩΤΕ (ΚΕΤ-, ΚΟΤ=)	Ν- turn (transitive, often reflexive); Ε- surround, repeat	ἐπιστρέφειν, κυκλοῦν
ΚΤΟ (ΚΤΕ-, ΚΤΟ=)	turn (transitive, often reflexive; properly, "cause to turn" = ΤΚΤΟ), go round, surround	ὑποστρέφειν, στρέφειν

## Conjunctions

ΕΒΟΛ ΧΕ-	because (less ambiguous than ΧΕ-)	ὅτι, ἐπεὶ
ΕΤΒΕ-ΧΕ-	because (less ambiguous than ΧΕ-)	διὰ τὸ + infinitive, ἐπεὶ

## Logical particles

ΕΝΕ-	(1) before indirect question: whether	εἰ
	(2) before direct question: not translated	
ΕἴΕ-	then (in If-Then sentence); ergo, igitur, profecto	ἄρα

## Reciprocal pronoun

ΕΡΗΥ (always w. possessive article agreeing with subject)	one another (literally companion, fellow) <sup>a</sup>	ἀλλήλων
---	--	---------

## The noun CΟΠ forming adverbs

Π-CΟΠ (noun)	time, turn, occasion	
ΖΑΖ Ν-CΟΠ, ΝΖΑΖ Ν-CΟΠ	often, many times	πολλάκις
†ΟΥ Ν-CΟΠ, Ν†ΟΥ Ν-CΟΠ, etc. (any number from ΨΟΜΝΤ on up is constructed thus)	five times, etc.	πεντάκις

# EXERCISES FOURTEEN

ΟΥΗΡ Ν-CΟΠ, ΝΟΥΗΡ Ν-CΟΠ	how many times?, how often?	ποσάκις
ΚΕCΟΠ, ΝΚΕCΟΠ	again, anew	ἄνωθεν, πάλιν
ΟΥCΟΠ, ΝΟΥCΟΠ, ΝΟΥCΟΠ Ν-ΟΥΩΤ	one time, once	ἅπαξ
ΖΙ-ΟΥCΟΠ	together, with one accord	ὁμοθυμαδόν
<i>Special forms of CΟΠ:</i>		
ΝCΕΠ CΝΑΥ, ΝCΠ-CΝΑΥ	twice	δὶς
ΝΨΜΝΤ-CΩΩΠ	three times	τρίς
ΜΠΜΕΖ-CΕΠ CΝΑΥ	for a second time	δεύτερον
(yet ΜΠΜΕΖ-ΨΟΜΝΤ Ν-CΟΠ etc. from Three up)		

<sup>a</sup>E.g. ΑΥ-ΨΑΧΕ ΜΝ-ΝΕΥΕΡΗΥ = They spoke with one another, ΑΝ-ΝΖΜΖΑΛ Ν-ΝΕΝΕΡΗΥ = We are one another's servants.

# EXERCISES 14

A. Study these preterit conversions and their context, noting carefully where there are switches between main-line past narrative (ΑΥ-, ΝΤΕΡΕΥ-, ΠΕΧΑ-Υ) and the descriptive or slow-motion preterit (ΝΕΥ-). Notice other signals of switching in the text, such as ΔΕ, ΓΑΡ, or ΝΤΕΥΝΟΥ. In each passage, what is the cause, or the effect, of the switching?

1. The whole region came (ΑC-ΒΩΚ) and were baptized (ΑΥ-ΧΙ-<sup>θ</sup>ΒΑΠΤΙCΜΑ) by him (John). ΑΥΩ ΙΩΖΑΝΝΗC ΝΕΡΕ-ΖΕΝΩ<sup>44</sup> Ν-ΒΑΜΟΥΛ ΤΟ ΖΙΩΩ-Υ<sup>45</sup> . . . ΑΥΩ ΝΕΥ-ΤΑΨΕ-<sup>θ</sup>ΟΕΙΨ . . . Now it happened (ΑΥΩ ΑC-ΨΩΠΕ) that Jesus came (ΑΥ-ΕΙ) from Nazareth of Galilee and was baptized (ΑΥ-ΧΙ-<sup>θ</sup>ΒΑΠΤΙCΜΑ). Mark 1:5-9

2. While He (Jesus) was walking by the Sea of Galilee, He saw (ΑΥ-ΝΑΥ) Simon and Simon's brother Andrew casting nets into the lake. ΝΕ-ΖΕΝΟΥΩΖΕ<sup>46</sup> ΓΑΡ ΝΕ. He said (ΠΕΧΑ-Υ) to them, Come . . . Mark 1:16-17

<sup>44</sup> υω skin; βαμουλ camel.

<sup>45</sup> το ζωω-υ Stative of † ζωω= to dress (someone), lit. put upon.

<sup>46</sup> ουωζε fisherman.

7. Now, they left the crowd (αγ-κα-πμνηνϋε δε) and got Him into the boat (αγ-ταλο-φ ε-πχοει) . . . And a great tempest occurred (αγω α-γνοβ ᾱ-ζατηνυ ωωπε), and the waves pounded the boat to the point of capsizing it. ᾱτοφ δε νεφ-ζιπαζου ᾱ-πχο<sup>73</sup> sleeping on a pillow. And

<sup>53</sup> ζιπαζου ἄ-πχοῖ in the stern of the boat.

11. So Jesus stood (αφ-αζερατ-q̄) before the governor. And the governor questioned Him (αφ-חנוך-q̄ אע), saying, Is it You who are the king of the Jews? Jesus said (πεχα-q), It is you who say this . . . Next Pilate said (τοτε πεχα-q) to Him, Don't You hear how much they are testifying against You? But He did not answer (ἄπερ-ογοωv-εq) a single word, so

<sup>61</sup> πᾶσι ἔξωθεν, literally “the cold was outside” i.e. it was cold.

that the governor was really surprised. Now on every feastday (κατα-<sup>θ</sup>ωα δε), νε-ψαρε-πζηγεμων κα-ουα εβολ  $\bar{m}$ -πμνηψε—someone under arrest, whoever they wanted. νε-γντα-γ δε  $\bar{m}$ μαγ  $\bar{m}$ -πεογοειψ ετμμαγ  $\bar{n}$ -ουα . . . ξε-βαρabbas. And (δε) as they gathered together, Pilate said (πεχα-q) to them, Do you want me to release Barabbas to you, or Jesus, who is called “Messiah?” Matthew 27:11–17

12. After this, Jesus came (μννσα-ναϊ αq-ει) with His disciples to the region of Judaea. αγω νεq- $\bar{m}$ μαγ πε  $\bar{n}$ μα-γ, baptizing. νερε-πκειωzαννης δε βαπτιζε  $\bar{z}$  $\bar{n}$ -αινων  $\bar{z}$ ατ $\bar{n}$ -σαλειμ<sup>62</sup>. ξε νε-γν- $\bar{z}$ αz  $\bar{m}$ -μοου  $\bar{z}$  $\bar{m}$ -πμα ετμμαγ. αγω νεγ- $\bar{n}$ ηγ πε to be baptized. νε- $\bar{m}$ πατογ-νεx-ιωzαννης γαρ πε ε-πεψτεκο<sup>63</sup>. So, a dispute occurred (α-γζητηςis δε ψωπε), consisting of the disciples of John and a certain Jew, on the subject of purification. They came (αγ-ει) to John and said (πεχα-γ) to him . . . John 3:22–26

13. And He came back (αq-ει δε οn) to Cana of Galilee, where He had made the water turn into wine. αγω νε-γ $\bar{n}$ -ογβασιλικος<sup>64</sup> whose son was sick in Capharnaum. When this man heard ( $\bar{n}$ τερεq-сωτ $\bar{m}$ ) that Jesus had come from Judaea to Galilee, he went (αq-βωκ) to Him and begged Him (αq-сεπсωπ- $\bar{q}$ ) to come down and heal his son. νεq- $\bar{n}$ α-μογ γαρ πε. So Jesus said (πεχε- $\bar{t}$ c δε) to him, Unless you see signs and wonders you will not believe! John 4:46–48

14. The tribune commanded (α-πχιλιарχος δε ογεz-<sup>θ</sup>саzνε) for him (Paul) to be brought into the barracks, and he said he should be scourged with whips . . . But when ( $\bar{n}$ τερογ-) he had been tied up with thongs, Paul said (πεχα-q) to the tribune who was standing there, Is it within your capacity to beat a man who is a Roman and has done no wrong? . . . I was born with this citizenship. And immediately those who were about to interrogate him withdrew (αγ-саzω-ογ εβολ). And the tribune became afraid (αq- $\bar{p}$ -<sup>θ</sup>zote) when he learned that he was a Roman citizen, εβολ ξε-νε-αq-μοp- $\bar{q}$  πε. And immediately he released him (αγω  $\bar{n}$ τεγ $\bar{n}$ ογ αq-βολ- $\bar{q}$  εβολ). Acts 22:24–29

*B. Translate rapidly into Coptic, using the preterit conversion of the durative sentence.*

- a. I wanted, you (sing. masc.) wanted, you (sing. fem.) wanted, he... etc. etc.  
b. The man wanted, the woman wanted, the brothers wanted, someone (<sup>θ</sup>ρωμε) wanted.

<sup>62</sup> αινων  $\bar{z}$ ατ $\bar{n}$ -σαλειμ (place name) Ainon by Salim.

<sup>63</sup> ψτεκο prison.

<sup>64</sup> βασιλικος official.

c. I did not want, you (sing. masc.) did not want, etc. etc.

d. The man did not want, the woman did not want, the brothers did not want, no one wanted.

e. My mother was sitting in the house. The Lord was in His temple. I was with them. They were with me. You (pl.) were with us.

*C. Translate.* a. εтве-ογ ακ- $\bar{p}$ -πειzωβ. b. εψωε αν ε-<sup>θ</sup>ειρε  $\bar{m}$ -πειzωβ. c. νεγ-археi  $\bar{n}$ -<sup>θ</sup>κωτε ε-τεсzιme. d. αν-αμαzτε  $\bar{m}$ -πεqбix  $\bar{n}$ κεсоп. e. αс-απε-ογψhre ξε-ιωzαννης<sup>65</sup>. f. νεγ-δω  $\bar{z}$  $\bar{n}$ -тποlic  $\bar{z}$ i-ογсоп. g. πεχε-пzλλο ξε-zapez ε-τεктапро  $\bar{n}$ г-qi  $\bar{m}$ -пекстаγpос. h. νερε- $\bar{n}$ δαимонιον πηт εβολ. i. αс-κτο-с αс- $\bar{z}$ ων εzογn.

<sup>65</sup> Cf. 23 (box “The Special Grammar of Proper Nouns”).

# LESSON 15

## ASYNDETIC CONNECTION OF CLAUSES. ADVERB. CIRCUMSTANTIAL CONVERSION.

### 118. *Asyndetic Connection of Clauses.* [CG 237]

When two or more past tense clauses (αἰ-) are strung together without a word for 'And', this indicates very close connection. πεχλ- is also connected in this way.

αἰ-σωτῆ δε νῆβι-ζηρωδης πῆρο αἰ-ωτορτῆ  
Then King Herod heard the news and was alarmed

αἰ-οὔωψ πεχλ-α-α  
He answered, saying . . .

αἰ-τωοῦν-ε νῆβι-τψεερε ψημ αἰ-μοοψε  
The girl got up and walked

αἰ-ναῦ ε-ψωηρε ψημ μῆ-μαρια τεφμααῦ αἰ-παρτ-οὔ αἰ-οὔωψ  
να-α αἰ-οὔων ν-νεγαρωρ αἰ-εἰνε να-α ν-ζενδωρον  
Seeing the child and Mary His mother they bowed themselves down, worshipped  
Him, opened their treasures, and brought Him gifts

### 119. *Adverbs* [CG 194-99, 215-29] are words such as

εματε greatly  
εμαῦ thither  
ενεζ ever (as in "not ever")  
\*καλωс well  
\*κακωс badly  
λααῦ at all  
μμηне daily  
μματα only, exclusively  
μμαῦ there  
οη again  
\*πωс how?  
των where? when? how?  
εβολ των whence?  
тнаῦ when?

## THE CIRCUMSTANTIAL CONVERSION

теноῦ now  
бе any more

Some adverbs are prepositional phrases used as fixed expressions; many are formed with initial н.

наψ н-зе how?  
нацаψ н-соп for seven times  
нтеуψη by night  
ноукоῦ to a small degree  
ноума somewhere  
ноуηп н-соп how many times?  
нзае finally  
е-пτηр-α wholly  
е-πεзоуо too much  
е-των whither?  
етве-оῦ why?  
ψа-пеїма thus far, up to now  
хе-оῦ why?

Negation of these is by a following аη: εмате аη = not greatly, εмаῦ аη = not thither, нацаψ н-соп аη = not seven times, etc.

Adverbs of manner are formed freely in the pattern зῆ-оῦ . . . (and negative ахн-<sup>0</sup> . . .).

зῆ-оῦме truly, зῆ-оῦαикаиосῦνη justly, etc. etc.  
ахн-<sup>0</sup>номос lawlessly, ахн-<sup>0</sup>зоте fearlessly, etc. etc.

The placement of adverbs within the sentence is fairly free.

## THE CIRCUMSTANTIAL CONVERSION

### 120. The circumstantial conversion [CG 413-33] is marked by the converter

ере-, е= conversion base  
е- sentence converter

As you already know (110), there is some ambiguity in identifying circumstantials.

The circumstantial, both affirmative and negative, is formed in the same way as the preterit (cf. 112). Note that there is a circumstantial of the preterit.

е-анῆ-оῦпрофһтһс  
е-анῆ-оῦпрофһтһс аη  
е-оῦпрофһтһс пе  
е-оῦпрофһтһс аη пе  
е-н-оῦпрофһтһс аη пе

ερε-πρωμε σωτῆ  
 ερε-πρωμε σωτῆ αν  
 ε-μ-πρωμε σωτῆ αν  
 εq-σωτῆ  
 εq-σωτῆ αν  
 ε-ν-q-σωτῆ αν  
 ε-αq-σωτῆ, ε-μπq-, etc.  
 ε-νανου-q  
 ε-νανου-q αν  
 ε-ογῆ-ρωμε σωτῆ  
 ερε-ρωμε σωτῆ  
 ε-μῆ-ρωμε σωτῆ  
 ε-νεq-σωτῆ  
 ε-νεq-σωτῆ αν  
 ε-παῖ πε-ετq-σωτῆ ἡμο-<sup>66</sup>  
 Etc.

To convert a sentence formed with ογῆ-, it is possible to substitute the prenominal base ερε- in place of ογῆ-:

ογῆ-ρωμε σωτῆ                      ερε-ρωμε-σωτῆ

Conjugation of the conversion base ερε-, ε-.

εῖ-	εν-
εκ-	ετῆν-
ερε-	
εq-	εγ-
εε-	
ερε-πνογτε	

#### THE MEANING OF THE CIRCUMSTANTIAL CONVERSION

**121.** The circumstantial is a subordinate (dependent) clause. It has several functions. Three will be described in this lesson. The fourth is shared between circumstantial and relative, and will be discussed in lesson 17. Generally, the circumstantial is something like a combination of the English *-ing* participle (*going, seeing*) and the Greek genitive absolute or Latin ablative absolute. "Coming up from the water, He saw the heavens opened"; "He was in the wilderness, *with-Satan-testing-Him*" (i.e. While Satan was testing Him).

<sup>66</sup> Circumstantial of a cleft sentence (see lesson 19).

#### 122. (a) Adverbial Function. [CG 421-25]

In this function, the circumstantial plays the role of an adverb, stating the circumstances under which a main clause is envisaged or said to be valid.

- i. εq-νηγ εζραῖ ἡμ-πμοου αq-ναγ ε-μπηγε  
 As He was coming up from the waters, He saw the heavens
- ii. αγ-χι-βαπτισμα εγ-εξομολογει ἡ-νεγνοβε  
 They got baptized, confessing their sins
- iii. εq-να-εβτε-πε νεῖ-ἡμα-q  
 When He was going to prepare the heaven, I was with Him  
 (He-going-to-prepare the heaven I was with him)
- iv. νεq-ἡ-τερημος ἡ-ἡμε ἡ-ἡοου ερε-πκατανας πιαζε ἡμο-q  
 He was in the wilderness forty days, with Satan testing Him

As these examples show, a circumstantial can either precede or follow the main clause that it relates to. Note that the subject of the circumstantial and the main clause may be the same (examples i and ii) or different (iii and iv). All kinds of main clause can be modified by an adverbial circumstantial.

The logical relationship between the adverbial circumstantial and the main clause is not specified, and English style usually leads translators to add *when, if, although, because*, etc. (Compare translation of the Greek genitive absolute or Latin ablative absolute.) It is important to be very flexible when translating the circumstantial into English. Optionally, Coptic can resolve this logical ambiguity by putting a conjunction before the circumstantial (for a list of these, see box p. 134.)

#### (b) Completive Function. [CG 426-27]

The circumstantial can complete a subject or object of certain verbs whose meaning makes this appropriate. The pronoun subject of the circumstantial clause must agree with the subject or object of the main clause that it completes.

- i. Completing the subject of verbs meaning *appear to, cease to, continue to, happen to*, etc.

χελας ἡνεκ-ογωνῆ εβολ εκ-νηστεγε  
 So that you [subject] may not appear to be fasting  
 (That you may not appear you-fasting)

αγ-λο εγ-μοουε ἡμα-q  
 They [subject] ceased going about with Him  
 (They stopped they-travelling with Him)

*Conjunctions that can precede the adverbial circumstantial [CG 422]*

ἀλλὰ ε= though, but, rather  
 ἀγὼ ε= and, and indeed, too, furthermore  
 εἰμητι ε= unless, except for . . . -ing  
 ἐνζοcon ε= as long as  
 ἐφοcon (ἐπζοcon) ε= as long as, inasmuch as  
 ἐτι ε= while . . . still . . .  
 ἐψωπε ε= if (ever)  
 ἐψχε-ε= supposing that  
 καν ε= even if, even though  
 καίπερ ε= although  
 κατὰ-θε ε= just as  
 καίτοι ε= although  
 μαλιστα ε= especially if/since  
 ἢθε ε= just as  
 παλιν ον ε= moreover, and yet  
<sup>θ</sup>con ε= . . . <sup>θ</sup>con ε= . . . at one time . . . at another time . . .  
 χωρις ε= except when, unless  
 ζαθн ε-ἡπατ= before  
 ζαμα ε= at the same time  
 ζωc ε= as, as if, on the grounds that  
 ζωc ἐψχε-ε= as if  
 ζοcon ε= as long as  
 ζοταν ε= whenever, as soon as, such that

- ii. Completing the direct object of verbs meaning *find, forget, keep, know, leave, ordain, see, etc.*

αq-καλ-γ εq-ον2  
 He left him [object] alive  
 (He left him he-living)

αν-ναγ ε-ογ2 εq-νεx-<sup>θ</sup>ααιμονιον εβολ  
 We saw someone [object] casting out demons  
 (We saw one he-casting-demons out)

*(c) Sequential Function. [CG 428–29]*

This typically occurs in narrative, especially after the past tense αq-. The circumstantial expresses the next event, or reexpresses the main clause somewhat differently (*not* relative tense).

αq-חנוי-י ε-אי-χε-פאי  
 He asked me, and (next) I said this

α-φιλπιπος ογων ἡ-ρω-q ε-αq-αρχει  
 Philip opened his mouth and began

In this function, the circumstantial past tense (ε-α=) is not prior to the main clause but happens after it.

However, this function is more often expressed by the adverbial circumstantial, with relative tense: α-ἡc ογωψ εq-χω ἡμο-c = Jesus answered, saying (Jesus answered he-saying) or by two past tenses: αq-ναγ αq-ογωψ = He looked and replied.

*(d) Attributive Function.*

This function is shared with the relative conversion and will be described in lesson sixteen (127).

**123. Relative Tense. [CG 529–30]**

The circumstantial *present* expresses action *simultaneous* with the main verb

εγ-ριμε αc-βωκ While they were weeping, she left  
 εγ-ριμε c-βηκ As they weep, she leaves  
 εγ-ριμε c-να-βωκ When they weep she will leave

the circumstantial *past* expresses action *before* the main verb

ε-αγ-ριμε αc-βωκ Since/When/Because *etc.* they had wept, she left  
 ε-αγ-ριμε c-βηκ Because they wept she is leaving

and the circumstantial *future* looks forward to action *after* the main verb

εγ-να-ριμε αc-βωκ As they were about to weep, she left

# VOCABULARY 15

## Verbs of position: (d) Motion upwards

ΤΑΛΟ (ΤΑΛΕ-, ΤΑΛΟ=)	lift up, take up, make to go up (onto)	ἀναλαμβάνειν (κεῖσθαι)
ΤΑΛΗΥ†		
ΤΩΟΥΝ (intransitive)	arise	ἐγείρειν
ΤΩΟΥΝ ΜΜΟ= (ΤΟΥΝ-, ΤΩΟΥΝ=)	(reflexive) arise; (transitive) raise	ἐγείρειν
ΤΑΖΟ (ΤΑΖΕ-, ΤΑΖΟ=)	seize, attain, get to; reach, befall; set up	καταλαμβάνειν
ΤΑΖΟ ΜΜΟ= (ΤΑΖΕ-, ΤΑΖΟ=) ΕΡΑΤ=	establish, make to stand	ιστάναι
ΧΙΣΕ (ΧΕΣΤ-, ΧΑΣΤ=) ΧΟΣΕ†	elevate, lift up; (ingressive) become lifted up, rise	ὕψοῦν

## (e) Motion downwards

ΖΕ, ΖΗΥ†	fall	πίπτειν
----------	------	---------

## (f) Motion towards/away from the speaker

ΕΙΝΕ (Ν-, ΝΤ=)	bring; (ΕΒΟΛ) bring, publish; (ΕΠΕΣΗΤ) bring down; (ΕΖΟΥΝ) bring in	φέρειν
QI (QI-, QIT=) ΕΒΟΛ or ΜΜΑΥ	take away	αἶρειν
ΤΗΝΟΟΥ (ΤΗΝΕΥ-, ΤΗΝΟΟΥ=) <sup>a</sup>	send (towards speaker), fetch, send word	ἀποστέλλειν
ΧΟΟΥ (ΧΕΥ-, ΧΟΟΥ-) <sup>a</sup>	send (away from speaker), dispatch	ἀποστέλλειν
ΕΙ, ΝΗΥ†	come; (ΕΒΟΛ) come forth; (ΕΠΕΣΗΤ) come down; (ΕΖΟΥΝ Ε-) come into; (ΕΖΡΑΪ) come up	ἔρχεσθαι
ΒΩΚ, ΒΗΚ†	go; (ΕΒΟΛ) leave; (ΕΖΟΥΝ Ε-) enter; (ΕΖΡΑΪ Ε-) go up; (ΕΠΕΣΗΤ) go down	πορεύεσθαι

## VOCABULARY FIFTEEN

ΧΙ (ΧΙ-, ΧΙΤ=)	take, receive, get	λαμβάνειν
† (†-, ΤΑΛ-) ΤΟ†	give, give back, give away, repay; C-ΤΟ† It is fated	(ἀπο)διδόναι
† (†-, ΤΑΛ=) ΕΒΟΛ, ΤΟ† ΕΒΟΛ	sell	πωλεῖν
ΨΩΠ (ΨΕΠ-, ΨΟΠ=) ΨΗΠ†	receive, take, buy; (stative) acceptable	δέχεσθαι, ἀγορά- ζειν
CΩΟΥΖ (CΕΥΖ-, CΟΟΥΖ-) CΟΟΥΖ†	gather	συνάγειν
ΤΑΟΥΟ (ΤΑΟΥΕ-, ΤΑΟΥΟ=)	send forth; utter, proclaim	πέμπειν
ΝΟΥΧΕ (ΝΕΧ-, ΝΟΧ-) ΝΗΧ†	throw; (ΕΒΟΛ) cast forth	βάλλειν
Other verbs		
(a) Formed with ΝΒΟΝC		
ΧΙ (ΧΙ-, ΧΙΤ-) ΝΒΟΝC	treat violently, violate, treat unjustly	ἀδικεῖν κτλ.
Inf. as nn ΠΧΙ ΝΒΟΝC	injustice, unjust action, violence	
ΡΕQ-ΧΙ ΝΒΟΝC	unjust or violent person	ἄδικος
(b) Based on Π-ΟΥΟΕΙ "quick advance, approach"		
†-ΠΕ(Q)ΟΥΟΕΙ Ε-	approach, meet (ΑC-†-ΠΕC-ΟΥΟΕΙ ΕΡΟ-Q "She met or approached him")	προσέρχεσθαι
(c) "Be able to, Can"		
Ψ-, also spelled ΕΨ- must be completed by an infinitive [CG 184(c)]	is able to, can	δύνασθαι
ΝΑ-Ψ- (future ΝΑ-63 + Ψ-), completed by an infinitive, is formally a future tense but often has present meaning	is or will be able to, can	δύνασθαι
ΟΥΝ- <sup>0</sup> ΒΟΜ (or ΟΥΝ- <sup>0</sup> ΨΒΟΜ) Ν-/ΜΜΟ= Ε-; <sup>b</sup> negation ΜΝ- <sup>0</sup> ΒΟΜ	is able to, can ("there is power in... to...") <sup>b</sup>	δύνασθαι

$\text{б}\bar{\text{м}}-\text{б}\text{ом} \in -, \text{у}\text{б}\bar{\text{м}}-\text{б}\text{ом} \in - (+ \text{infinitive})$

is able to, can

δύνασθαι

### Adverbs in paragraph 119

<sup>a</sup>τῆννοογ= and χοογ= take the personal second suffixes. Cf. 103 (box).

<sup>b</sup>E.g. оӯн-<sup>0</sup>бом̄ ммо-к є-<sup>0</sup>тѣво-ї "You can purify me."

# EXERCISES 15

*A. Reading selections from the New Testament.*

*B. Translate into Coptic, using the circumstantial conversion. a. As I was bringing them, I fell down. b. As I was bringing them, he fell down. c. He arose, lifting them up with him. d. They arose as he was lifting them up with him. e. She saw them bringing it. f. They saw her bringing it. g. We did not see her coming (89).*

C. Translate. a. †-να-ταρο-οϋ ντα-γιτ-οϋ. b. αϋ-τῆνοοϋ-σοϋ  
 ψαρο-ϣ ῃμνηε αϣω αϣ-χιτ-οϋ. c. ψαρε-πρεϣ-ῤ-<sup>0</sup>νοβε ψωπ  
 ῃϣ-τῃ-† εβολ ενεε, ψαϣ-σωοϋε ῃϣ-τῃ-ταοϋο ενεε. d. αϣ-χιε  
 ῃμο-οϋ αϣ-χοοϋ-σοϋ ε-πκοσμος.

<sup>72</sup> **ΕΤΙ** still (Greek adverb *ἔτι*).

<sup>73</sup> ἀρχισυναγωγος leader of the synagogue.

<sup>74</sup> ὤπηρε omen, wonder, miracle; ῥ-<sup>0</sup>ὤπηρε to marvel, to wonder, to be amazed.

<sup>75</sup> 21ΕΡΙΧΩ (place name) Jericho.

<sup>76</sup> ΒΑΡΤΙΜΑΙΟC (personal name) Bartimaios.

77  $\beta\bar{\lambda}\lambda\epsilon$  blind.

<sup>78</sup> ΤΙΜΑΙΟC (personal name) Timaios.

<sup>79</sup> **MNT-NA** alms (cf. infinitive **na** = to show mercy).

- i. The Coptic converter has been replaced by *who*, *that*, *whose*, *whom*, and *which*
- ii. The redundant Coptic pronouns meaning *he*, *it*, *her*, *her*, and *it* have been ignored
- iii. In the third, fourth, and fifth examples, *house*, *for*, and *in* have been moved to make normal sounding English<sup>81</sup>.

Notice that the Coptic definite article (π-, τ-, ν-) "the one..." is an antecedent in examples three and four. (As an antecedent, ν- never has a superlinear stroke.)

When the antecedent expresses time or manner (*the days*, *the year*, *a year*, *the way*), optionally in step (2) there may be no redundant personal pronoun to delete. [CG 407]

the year + converter + he built her house  
τερομπε + εντ- + αq-κωτ ḿ-πεcḥī

Thus περοου εντ-αγ-αναλαμβανε ḿμο-q = the day (when) He was taken up.  
κατα-θε εντ-αν-cωτḿ = in the way (that) we have heard. ḿθε ον ερε-  
παριερεϋc ḿ-ḿḿτρε να-ī = just as also the high priest vouches for me.

**126.** Let's do a quick exercise now. Translate these four relative constructions into good, normal English. The converter here is always εντ-.

Coptic: τεcḡιμε εντ-αc-ze ε-πεqḡomḿτ  
Coptic form: the woman + εντ- + she found his money

English: \_\_\_\_\_

Coptic: πεqḡomḿτ εντ-α-τεcḡιμε ze ερο-q  
Coptic form: his money + εντ- + the woman found it

English: \_\_\_\_\_

Coptic: π-εντ-α-τεcḡιμε ze ε-πεqḡomḿτ  
Coptic form: the one + εντ- + the woman found his money

English: \_\_\_\_\_

Coptic: πḥī εντ-α-τεcḡιμε ze ε-πεqḡomḿτ ḿḡḥτ-q  
Coptic form: the house + εντ- + the woman found his money in it

English: \_\_\_\_\_

<sup>81</sup> In colloquial English, *for* and *in* can be left where they are.

**127.** The choice of converter varies according to the antecedent. [CG 404]

After a *definite* antecedent (one that contains π..., τ..., or ν... **60**) a *relative* converter is used.

πρωμε (πεῖρωμε, πενωμε) εντ-αq-κωτ ḿ-πεcḥī  
the man who built her house

After a *non-definite* antecedent (with indefinite or zero article) a *circumstantial* converter must be used instead of the relative converter.

ουρωμε ε-αq-κωτ ḿ-πεcḥī (ε- is circumstantial converter)  
a man who built her house

ḿρωμε ε-αq-κωτ (or ε-αγ-κωτ) ḿ-πεcḥī  
someone/people who built her house

Antecedents constructed with ... νḿ *any*, *every* or with specifiers such as ḡḡ ḿ- *many* can be followed by either circumstantial or relative, optionally.

When the antecedent expresses time or manner and is definite (*the days*, *the way*), either circumstantial or relative can be used. περοου ετερε-ναῖ να-ωωπε = The day (when) these things will come to pass. νεροου εν-ḡḿ-τcαpḡ = The days (when) we were in the flesh.

**128.** The relative conversion is formed in the same way as the preterit and circumstantial. There are several shapes of the relative converter, most of which we will study in the next lesson. For now, you will learn only

the conversion base ετερε-, ετ= (present tense)

the sentence converter of the past tense affirmative εντ-, also spelled ḿτ-

Remember that a conversion base (ετερε-, ε=) is only used to convert durative sentences **112** (i).

**129.** Conjugation of the conversion base ετ=.

ε†- (et-i-)

ετḡ-

ετε- or ετερε-

ετḡ-

ετḡ-

ετερε-πνοῦτε

ετḡ-

ετετḡ-

ετοῦ-

# EXERCISES 16

A. Review vocabularies 2-4.

B. Analyze and translate, giving alternate translations where possible.

- a. πωηρε ωημ εντ-α-τεσζιμε ναγ ερο-q
- b. τωεερε ωημ εντ-α-τεσζιμε ναγ ερο-с
- c. νωηρε ωημ εντ-α-τεσζιμε ναγ ερο-οу
- d. περπε ενт-αс-наγ ερο-q
- e. тπολιс ενт-αс-наγ ερο-с
- f. νηι ενт-αq-наγ ερο-οу
- g. νηι етq-наγ ερο-οу
- h. νηι ететн-наγ ερο-οу
- i. νηι етере-τεсζιμε ναγ ερο-οу
- j. τεсζιμε ενт-αс-наγ е-тπολιс
- k. τεсζιμε ενт-αс-наγ ερο-с
- l. τεсζιμε ενт-αq-наγ ερο-с
- m. τεсζιμε ενт-αс-наγ ερο-с (this has two interpretations)
- n. преq-р-<sup>0</sup>нове ενт-αq-наγ е-неqнове (two interpretations)
- o. тπολιс ενт-αq-наγ ερο-οу νζηт-с

- q. περπε ενт-αс-наγ ερο-οу νζηт-q
- r. περπε ενт-αс-наγ ερο-q νζηт-q (two interpretations)
- s. παι ενт-αq-наγ ερο-q νζηт-q (three interpretations)
- t. ναι етс-наγ ερο-с νζηт-с (two interpretations)
- u. πноуτε ент-ан-наγ е-неqрпnyε
- v. νερпnyε ент-ан-наγ е-πεγnoуte

B. Repeat (1) to (22) as a rapid drill: a. πωηρε ωημ ενт-α-τεсζιμε ναγ ερο-q. b. τωεερε ωημ ενт-α-τεсζιμε ναγ ερο-с. c. νωηρε ωημ ενт-α-τεсζιμε ναγ ερο-οу. d. περπε ент-αс-наγ ερο-q. e. тπολιс ент-αс-наγ ερο-с. f. νηι ент-αq-наγ ερο-οу. g. νηι етq-наγ ερο-οу. h. νηι ететн-наγ ερο-οу. i. νηι етере-τεсζιμε

## EXERCISES SIXTEEN

наγ ερο-οу. j. τεсζιμε ент-αс-наγ е-тπολιс. k. τεсζιμε ент-αс-наγ ερο-q. l. τεсζιμε ент-αq-наγ ερο-с. m. τεсζιμε ент-αс-наγ ερο-с (this has two interpretations). n. преq-р-<sup>0</sup>нове ент-αq-наγ е-неqнове (two interpretations). o. тπολιс ент-αq-наγ ερο-οу νζηт-с. p. тπολιс ент-αq-наγ ερο-с νζηт-с (two interpretations). q. περπε ент-αс-наγ ερο-οу νζηт-q. r. περπε ент-αс-наγ ερο-q νζηт-q (two interpretations). s. παι ент-αq-наγ ερο-q νζηт-q (three interpretations). t. ναι етс-наγ ερο-с νζηт-с (two interpretations). u. πноуτε ент-ан-наγ е-неqрпnyε. v. νερпnyε ент-ан-наγ е-πεγnoуte.

D. Translate into Coptic, using the relative or circumstantial conversion, as appropriate.

Example: the angel who came from heaven = "the angel modified-by-the-complete-statement *he came from heaven*" = παγγελос ент-αq-ει εβολ ζη-тπε

- a. An angel who came from heaven
- b. The woman who knew God
- c. A woman who knew God
- d. The apostles who loved their Lord
- e. Apostles who loved their Lord

f. The things that I see, those which I see, the things that you (sing. masc.) see, those which you (sing. masc.) see, the things that you (sing. fem.) see, the things that he sees, the things that she sees, the things that we see, the things that you (pl.) see, the things that they see

g. Things that I see, some that I see, things that you (sing. masc.) see, some that you (sing. masc.) see, things that you (sing. fem.) see, things that he sees, things that she sees, things that we see, things that you (pl.) see, things that they see

h. The things that God sees, those which God sees

i. Things that God sees, some that God sees

j. The road on which I have travelled, the road on which you (sing. masc.) have travelled, the road on which you (sing. fem.) have travelled, the road on which he has travelled, the road on which she has travelled, the road on which we have travelled, the road on which you (pl.) have travelled, the road on which they have travelled, the road on which the man has travelled

k. A road on which I have travelled, a road on which you (sing. masc.) have travelled, a road on which you (sing. fem.) have travelled, a road on which

he has travelled, a road on which she has travelled, a road on which we have travelled, a road on which you (pl.) have travelled, a road on which they have travelled, a road on which the man has travelled

l. The city whose king I saw, the city whose king you (sing. masc.) saw, the city whose king you (sing. fem.) saw, the city whose king he saw, the city whose king she saw, the city whose king we saw, the city whose king you (pl.) saw, the city whose king they saw

m. A city whose king I saw, a city whose king you (sing. masc.) saw, a city whose king you (sing. fem.) saw, a city whose king he saw, the city whose king she saw, a city whose king we saw, a city whose king you (pl.) saw, a city whose king they saw

# LESSON 17

## RELATIVE CONVERSION (CONTINUED).

### 130. "Bare ετ." [CG 405]

In present tense affirmative relative clauses, ετῷ-, ετῇ-, and ετοῦ- are *always* replaced by simple ετ- if their personal pronoun (-q, -c, -oy) would refer to the antecedent. This will be notated as ετ<sup>θ</sup>-, and called "bare ετ".

the man who listens	πρωμε ετ <sup>θ</sup> -cωτῃ (not ετq-)
the woman who listens	τεcζιμε ετ <sup>θ</sup> -cωτῃ (not ετc-)
the apostles who listen	ἡαποcτολoс ετ <sup>θ</sup> -cωτῃ (not ετοy-)

Optionally, this construction can be negated by ἂν after the predicate.

the man who does not listen	πρωμε ετ <sup>θ</sup> -cωτῃ ἂν
the woman who does not listen	τεcζιμε ετ <sup>θ</sup> -cωτῃ ἂν
the apostles who do not listen	ἡαποcτολoс ετ <sup>θ</sup> -cωτῃ ἂν

The alternative negation is πρωμε ετε-ἡ-q-cωτῃ ἂν, τεcζιμε ετε-ἡ-c-cωτῃ ἂν, ἡαποcτολoс ετε-ἡ-ce-cωτῃ ἂν.

All the predicates of the durative sentence (63) can occur after ετ<sup>θ</sup>-: παιων ετ<sup>θ</sup>-νηγ = the age to come, the age that is coming. τοργη ετ<sup>θ</sup>-ηα-δωλπ εβολ = the wrath that is going to appear. πετῆειωτ ετ<sup>θ</sup>-ζῆ-ἡπνηε = your Father who is in the heavens.

The commonest occurrence of bare ετ is found in the phrases ετῃμαγ (= that) and πετῃμαγ, τετῃμαγ, νετῃμαγ (= that one, he, she, it, they) 60. τπολιc ετῃμαγ = that city. ἡρρωoy ετῃμαγ = those emperors. πετῃμαγ = he, that one.

*Adjectival meaning.* When the predicate is a stative expressing a quality, such as οyααb is holy, the meaning is like a modifying adjective: τπολιc ετ<sup>θ</sup>-oyααb = the holy city; π-ετ<sup>θ</sup>-cηδ = the lame man; πноyте ετ<sup>θ</sup>-xocε = the high(est) God; н-ετ<sup>θ</sup>-моoyт = the dead. Cf. 70.

## THE SENTENCE CONVERTER FOR RELATIVE CONVERSION

**131.** The relative sentence converter has four forms (identical in meaning), chosen to match the grammar of the relative clause. [CG 399] You've already learned one of these:  $\epsilon\tau-$ , also spelled  $\bar{n}\tau-$ . They are:

- $\epsilon\tau-$  (also spelled  $\bar{n}\tau-$ <sup>82</sup>) used only before  $\lambda-$ ,  $\lambda\neq$  (affirmative past)
- $\epsilon\tau-$  used before verboids when the subject pronoun refers to the antecedent<sup>83</sup>
- $\epsilon\tau\epsilon-$  used before all other sentence types
- $\epsilon-$  optionally used instead of  $\epsilon\tau\epsilon-$  before  $\varpi\alpha\rho\epsilon-$ ,  $\varpi\alpha\neq$ ,  $\eta\epsilon\rho\epsilon-$ , and  $\eta\epsilon\neq$

Relative conversions are fairly easy to recognize, since almost every one begins with  $\epsilon\tau$ ,  $\epsilon\tau\epsilon-$ ,  $\epsilon\tau$ , or  $\bar{n}\tau$ .

Generally speaking, the relative is formed in the same way as the preterit (cf. 112) [CG 396] (Note that there is a relative conversion of the preterit.)

$\epsilon\tau\epsilon-\text{o}\bar{\upsilon}\text{π}\rho\text{o}\bar{\phi}\eta\tau\eta\varsigma\ \text{π}\epsilon$   
 $\epsilon\tau\epsilon-\text{o}\bar{\upsilon}\text{π}\rho\text{o}\bar{\phi}\eta\tau\eta\varsigma\ \text{α}\bar{n}\ \text{π}\epsilon$   
 $\epsilon\tau\epsilon-\bar{n}-\text{o}\bar{\upsilon}\text{π}\rho\text{o}\bar{\phi}\eta\tau\eta\varsigma\ \text{α}\bar{n}\ \text{π}\epsilon$   
 $\epsilon\tau\epsilon\rho\epsilon-\text{π}\rho\omega\mu\epsilon\ \text{c}\omega\tau\bar{\pi}$   
 $\epsilon\tau\epsilon\rho\epsilon-\text{π}\rho\omega\mu\epsilon\ \text{c}\omega\tau\bar{\pi}\ \text{α}\bar{n}$   
 $\epsilon\tau\epsilon-\bar{m}-\text{π}\rho\omega\mu\epsilon\ \text{c}\omega\tau\bar{\pi}\ \text{α}\bar{n}$   
 $\epsilon\tau\bar{q}-\text{c}\omega\tau\bar{\pi}$   
 $\epsilon\tau\bar{q}-\text{c}\omega\tau\bar{\pi}\ \text{α}\bar{n}$   
 $\epsilon\tau\epsilon-\bar{n}-\text{q}-\text{c}\omega\tau\bar{\pi}\ \text{α}\bar{n}$   
 $\epsilon\tau^{\theta}-\text{c}\omega\tau\bar{\pi}$  (130)  
 $\epsilon\tau^{\theta}-\text{c}\omega\tau\bar{\pi}\ \text{α}\bar{n}$  (optional) (130)  
 $\epsilon\tau\epsilon-\bar{n}-\text{q}-\text{c}\omega\tau\bar{\pi}\ \text{α}\bar{n}$  (optional) (130)  
 $\epsilon\tau-\lambda\text{q}-\text{c}\omega\tau\bar{\pi}$   
 $\epsilon\tau\epsilon-\bar{m}\bar{\pi}\bar{q}-$ ,  $\epsilon\tau\epsilon-\bar{m}\bar{\pi}\bar{\alpha}\bar{t}\bar{q}-$ ,  $\epsilon\tau\epsilon-\varpi\alpha\text{q}-$ ,  $\epsilon\tau\epsilon-\mu\epsilon\text{q}-$ ,  $\epsilon\tau\epsilon-\bar{n}\eta\epsilon\text{q}-\text{c}\omega\tau\bar{\pi}$ <sup>84</sup>  
 $\epsilon-\varpi\alpha\text{q}-\text{c}\omega\tau\bar{\pi}$  (optional)  
 $\epsilon\tau\epsilon-\eta\epsilon\text{q}-\text{c}\omega\tau\bar{\pi}$   
 $\epsilon\tau\epsilon-\eta\epsilon\text{q}-\text{c}\omega\tau\bar{\pi}\ \text{α}\bar{n}$   
 $\epsilon-\eta\epsilon\text{q}-\text{c}\omega\tau\bar{\pi}$  (optional)  
 $\epsilon-\eta\epsilon\text{q}-\text{c}\omega\tau\bar{\pi}\ \text{α}\bar{n}$  (optional)  
 $\epsilon\tau\epsilon-\eta\alpha\eta\text{o}\bar{\upsilon}-\text{q}$   
 $\epsilon\tau\epsilon-\eta\alpha\eta\text{o}\bar{\upsilon}-\text{q}\ \text{α}\bar{n}$   
 $\epsilon\tau-\eta\alpha\eta\text{o}\bar{\upsilon}-\text{q}$   
 $\epsilon\tau-\eta\alpha\eta\text{o}\bar{\upsilon}-\text{q}\ \text{α}\bar{n}$

<sup>82</sup>  $\bar{n}\tau-$  is also the focalizing converter (lesson 18), and so it is ambiguous.

<sup>83</sup>  $\pi\kappa\alpha\bar{z}\ \epsilon\tau-\eta\alpha\eta\text{o}\bar{\upsilon}-\text{q}$  "The good soil, the soil that is good" (Mark 4:8), where  $-\text{q}$  refers to  $\pi\kappa\alpha\bar{z}$ .

<sup>84</sup> There is no relative conversion of the affirmative optative  $\epsilon\neq\epsilon-$ .

$\epsilon\tau\epsilon-\text{o}\bar{\upsilon}\bar{n}-^{\theta}\rho\omega\mu\epsilon\ \text{c}\omega\tau\bar{\pi}$   
 $\epsilon\tau\epsilon\rho\epsilon-^{\theta}\rho\omega\mu\epsilon\ \text{c}\omega\tau\bar{\pi}$  (optional, affirmative only)  
 $\epsilon\tau\epsilon-\bar{m}\bar{n}-^{\theta}\rho\omega\mu\epsilon\ \text{c}\omega\tau\bar{\pi}$   
 $\epsilon\tau\epsilon-\pi\alpha\bar{i}\ \pi\epsilon-\epsilon\tau\bar{q}-\text{c}\omega\tau\bar{\pi}\ \bar{m}\text{m}\text{o}-\text{q}$ <sup>85</sup>  
 Etc.

To convert a sentence formed with  $\text{o}\bar{\upsilon}\bar{n}-$ , it is possible to substitute the prenominal base  $\epsilon\tau\epsilon\rho\epsilon-$  in place of  $\text{o}\bar{\upsilon}\bar{n}-$ . [CG 324]

$\text{o}\bar{\upsilon}\bar{n}-^{\theta}\rho\omega\mu\epsilon\ \text{c}\omega\tau\bar{\pi}$                        $\epsilon\tau\epsilon\rho\epsilon-^{\theta}\rho\omega\mu\epsilon-\text{c}\omega\tau\bar{\pi}$

## OTHER USES OF THE RELATIVE

**132.** *The Articulated Relative.* [CG 411]

This construction has  $\pi-$ ,  $\tau-$ ,  $\eta-$  as its antecedent and means *he who . . . , that which . . . , someone who . . .*

$\tau-\epsilon\tau-\lambda-\text{π}\rho\omega\mu\epsilon\ \kappa\omega\tau\ \bar{m}-\pi\epsilon\text{c}\eta\bar{i}$  = She whose house the man built  
 $\eta-\epsilon\tau^{\theta}-\eta\bar{m}\bar{m}\lambda-\text{q}$  = Those who are with him  
 $\eta-\epsilon\tau^{\theta}-\varpi\omega\eta\epsilon$  = The sick, those who are sick  
 $\eta-\epsilon\tau-\lambda-\mu\omega\gamma\text{c}\eta\varsigma\ \text{o}\bar{\upsilon}\epsilon\bar{z}-\text{c}\alpha\bar{z}\eta\epsilon\ \bar{m}\text{m}\text{o}-\text{o}\bar{\upsilon}$  = The things that Moses commanded

In the articulated relative construction,  $\eta\lambda-$  usually expresses timeless generalization ( $\pi-\epsilon\tau^{\theta}-\eta\lambda-$  *whoever* or *whatever*) rather than futurity. That is, *whoever* and *whatever* can be formulated in Coptic with either the present or the  $\eta\lambda-$  future.

$\eta-\epsilon\tau^{\theta}-\eta\eta\gamma\ \epsilon\text{b}\text{o}\lambda\ \bar{z}\bar{m}-\text{π}\rho\omega\mu\epsilon$  = Whatever things come out of a person  
 $\epsilon\text{b}\text{o}\lambda\ \bar{z}\bar{n}-\eta-\epsilon\tau^{\theta}\text{m}\text{o}\text{o}\bar{\upsilon}\gamma\tau$  = From the dead (whoever are dead)  
 $\pi-\epsilon\tau^{\theta}-\eta\lambda-\text{c}\kappa\alpha\eta\lambda\lambda\bar{i}\bar{z}\epsilon\ \bar{n}-\text{o}\bar{\gamma}\lambda\ \bar{n}-\eta\epsilon\bar{i}\kappa\text{o}\bar{\gamma}\bar{i}\ \epsilon\tau^{\theta}-\pi\bar{i}\text{c}\tau\epsilon\gamma\epsilon\ \epsilon\rho\text{o}-\bar{i}$  = Whoever puts a stumbling block before one of these little ones who believe in Me  
 $\pi-\epsilon\tau^{\theta}-\eta\lambda-\chi\bar{i}-^{\theta}\varpi\alpha\chi\epsilon$  = Whoever says a word

Rarely, the articulated relative is formed with the pronouns  $\pi\alpha\bar{i}$  or  $\pi\eta$ , or even  $\pi\alpha\bar{i}$  + circumstantial.

**133.** *The Explanatory Relative.* [CG 410]

- (a)  $\epsilon\tau\epsilon-$  . . .  $\pi\epsilon$  (etc.) *which is . . . , which means . . . , namely . . .*
- (b)  $\epsilon\tau\epsilon-\pi\alpha\bar{i}\ \pi\epsilon$  (etc.) *which is to say, . . .*

<sup>85</sup> Relative of a cleft sentence (see lesson 19).

ΖΕΝΣΑΖ ΕΤΕ-ΒΑΡΝΑΒΑΣ ΠΕ ΜΝ-ΣΥΜΕΩΝ = Some teachers, namely, Barnabas and Simeon

ΣΑΥΛΟΣ ΔΕ ΕΤΕ-ΠΑΥΛΟΣ ΠΕ = Saul, which means, Paul

ΠΕΪΜΑ Ν-ΟΥΩΤ ΕΤ<sup>θ</sup>-ΜΜΑΥ ΕΤΕ-ΤΜΝΤ-ΡΡΟ Ν-ΜΠΗΥΕ ΠΕ = That very same place, which is, the kingdom of the heavens

ΠΕΡΙΣΩΜΑ ΕΤΕ-ΠΑΪ ΠΕ ΤΕΚΚΛΗΣΙΑ = His body, which is to say, the church

### 134. The Appositive Relative. [CG 408]

This relative construction relates loosely<sup>86</sup> to its antecedent and is introduced by π- or παῖ, carrying on the number/gender of the antecedent. In English, this π- or παῖ should not be translated (or rather, it should be translated only by inserting a comma before the English relative pronoun).

ΠΕΠΝΑ Ν-ΤΜΕ Π-ΕΤΕ-ΜΜΝ-<sup>θ</sup>ΩΒΟΜ Μ-ΠΚΟΣΜΟΣ Ε-<sup>θ</sup>ΧΙΤ-<sup>q</sup>

The Spirit of truth, whom the world cannot receive

ΠΕΚΟΥΧΑΪ ΠΑΪ ΕΝΤ-ΑΚ-ΣΒΤΩΤ-<sup>q</sup>

Your salvation, which You have prepared

ΠΡΙΣΚΑ ΜΝ-ΑΚΥΛΑ ΝΑΪ ΕΝΤ-ΑΥ-ΚΩ Μ-ΠΕΥΜΑΚ<sup>z</sup>

Prisca and Aquila, who laid down their necks

The circumstantial also appears in this construction after παῖ.

ΝΕΥΟΥΗΝΒ ΝΑΪ ΕΡΕ-ΝΕΥΑΠΗΥΕ ΒΟΛΠ ΕΒΟΛ

Their priests, whose heads are uncovered

This is the normal way in which an attributive clause is attached to a personal name or a personal pronoun. ΙC Π-Ε-ΩΑΥ-ΜΟΥΤΕ ΕΡΟ-<sup>q</sup> ΧΕ-ΠΕΧC = Jesus, who is called the Christ.

### 135. Relative Tense. [CG 529-30]

The relative *present* expresses action *simultaneous* with the main verb.

ΠΗΪ ΕΤ-ΚΩΤ ΜΜΟ-<sup>q</sup> ΑQ-ΖΕ ΕΒΟΛ = The house that I was building perished

ΠΗΪ ΕΤ-ΚΩΤ ΜΜΟ-<sup>q</sup> Q-ΖΗΥ ΕΒΟΛ = The house that I am building is perishing

ΠΗΪ ΕΤ-ΚΩΤ ΜΜΟ-<sup>q</sup> Q-ΝΑ-ΖΕ ΕΒΟΛ = The house that I am building will perish

The relative *past* expresses action *before* the main verb.

ΠΗΪ ΕΝΤ-ΑΪ-ΚΩΤ ΜΜΟ-<sup>q</sup> ΑQ-ΖΕ ΕΒΟΛ = The house that I had built perished

ΠΗΪ ΕΝΤ-ΑΪ-ΚΩΤ ΜΜΟ-<sup>q</sup> Q-ΖΗΥ ΕΒΟΛ = The house that I built is perishing

ΠΗΪ ΕΝΤ-ΑΪ-ΚΩΤ ΜΜΟ-<sup>q</sup> Q-ΝΑ-ΖΕ ΕΒΟΛ = The house that I built will perish

And the relative *future* looks forward to action *after* the main verb.

ΠΗΪ ΕΤ-ΝΑ-ΚΩΤ ΜΜΟ-<sup>q</sup> ΑQ-ΖΕ ΕΒΟΛ = The house that I was going to build perished

ΠΗΪ ΕΤ-ΝΑ-ΚΩΤ ΜΜΟ-<sup>q</sup> Q-ΖΗΥ ΕΒΟΛ = Any house that I build is perishing

ΠΗΪ ΕΤ-ΝΑ-ΚΩΤ ΜΜΟ-<sup>q</sup> Q-ΝΑ-ΖΕ ΕΒΟΛ = The house that I am going to build will perish

<sup>86</sup> Like an English relative clause preceded by a comma ("London, which is the capital of England").

# LESSON 18

## FOCALIZING CONVERSION.

**136.** Like the preterit, the focalizing conversion forms a complete sentence. It tells the reader that the converted sentence contains (somewhere) a high point of interest that the reader should select and emphasize.

ἄπῃ-μοῦ ἀλλὰ ἐς-ἡκοῦ

She has not died; *rather, she is sleeping*

Thus its use is a rhetorical strategy—it is a sort of not-very-specific stage direction to the reader—and so it typically occurs in literary writing but not in private letters and business documents. [CG 444-59]

### 137. Focalizing Converters. [CG 444]

Focalization is marked by the following converters:

conversion base	ερε-, ε=
sentence converter	ἡτ- before past tense
	ε- before other sentence types
	ετε- forming some negations 139

Note that ερε-, ε=, and ε- are also circumstantial converters, and ἡτ- is also an optional spelling of the relative converter εντ- 131.

The focalizing conversion is formed in the same way as the preterit. (Note that there is a focalizing conversion of the preterit.)

ερε-πρωμε σωτη  
εε-σωτη  
ἡτ-αε-σωτη  
ε-ψαε-σωτη  
ε-ἡανοῦ-ε  
ε-οὔν-<sup>93</sup>ρωμε σωτη  
ε-ἡν-<sup>93</sup>ρωμε σωτη  
ε-νεε-σωτη  
Etc.<sup>93</sup>

<sup>93</sup> There is no focalizing conversion of the nominal sentence. Of the non-durative conjugations,

## THE FOCALIZING CONVERSION

Negation adds αν after the predicate (except for ούν-/ἡν-).

ερε-πρωμε σωτη αν  
εε-σωτη αν  
ἡτ-αε-σωτη αν (sic)  
ε-ψαε-σωτη αν

(Note the negation of ἡτ-αε- and ε-ψαε- with αν.)

Optionally the durative can be negated by ἡ- ... αν and ἡν- ... αν, with ἡ- or ἡν- prefixed to the conversion base.

ερε-πρωμε σωτη αν and ἡ(ν)-ερε-πρωμε σωτη αν  
εε-σωτη αν and ἡ(ν)-εε-σωτη αν

For another kind of negation (formed with ετε-), cf. 139.

To convert a sentence formed with ούν-, it is possible to substitute the prenominal base ερε- in place of ούν-:

ούν-<sup>93</sup>ρωμε σωτη ερε-<sup>93</sup>ρωμε σωτη

Conjugation of the conversion base ερε-, ε=.

εἰ-	εν-
εκ-	ετετἡ-
ερε-	
εε-	εγ-
εε-	
ερε-πνοῦτε	

## THE MEANING OF FOCALIZING CONVERSION

**138.** A focalizing converter signals that the reader should choose to understand some part of the converted sentence as a “focal point”—i.e. a point of special emphasis or attention. [CG 445-51]

But the conversion does not tell where the focal point is located. Almost any part of speech is eligible to be a focal point. And so, the selection of a focal point must be made by the reader, in view of the overall flow of the argument on that page of text. Even when the train of thought seems clear, several different performances of a focalizing conversion may seem justified.

only the past and the aorist have a focalizing conversion. Note also that in ancient manuscripts, the converter ἡτ- is sometimes erroneously written εντ-.

Focalizing verbal constructions were used in earlier stages of the Egyptian language. In these much earlier stages, scholars have theorized that the location of the focal point is regular and predictable. But in any case, this is no longer true when we get to the Coptic stage of Egyptian.

Let's look at a few examples of focalizing conversions set in their context, in order to understand how the choice of focal point can be suggested by the surrounding text. In each example, my own choice of focal point is given in a footnote; but as a fellow reader you are entitled to choose some other place to put the focal point if it seems better. I have slightly condensed the passages.

- i. Mary Magdalene came to the tomb (of Jesus) while it was dark and saw that the stone had been removed from its entrance. She ran to Simon Peter and the other disciple; they were coming to the tomb. The other disciple went in, looked, and had faith. Mary Magdalene was sitting outside the tomb weeping. Weeping, she turned and saw Jesus standing there. Jesus said to her, Mariam! She said, Rabbouni! Mary Magdalene went and told the disciples, I have seen the Lord! When it was evening and the doors were secured Jesus came and stood in their midst, and said to them, Peace be unto you! Jesus did many other miracles in the presence of His disciples.  $\mu\eta\eta\kappa\alpha-\mu\alpha\iota \text{ } \sigma\alpha\text{-}\tau\epsilon \text{ } \sigma\upsilon\omicron\gamma\omicron\zeta-\bar{\eta} \text{ } \epsilon-\eta\epsilon\mu\alpha\theta\epsilon\text{-}\tau\eta\varsigma \text{ } \zeta\iota\chi\bar{\eta}\text{-}\tau\epsilon\theta\alpha\lambda\lambda\alpha\varsigma\varsigma\alpha \text{ } \bar{\eta}\text{-}\tau\iota\beta\epsilon\rho\iota\alpha\varsigma. \text{ } \bar{\eta}\tau\text{-}\alpha\eta\text{-}\sigma\upsilon\omicron\gamma\omicron\zeta-\bar{\eta} \text{ } \Delta\epsilon \text{ } \epsilon\beta\omicron\lambda \text{ } \bar{\eta}\tau\epsilon\iota\zeta\epsilon$  (Afterwards, again Jesus revealed Himself to His disciples—by Lake Tiberias. And He revealed Himself as follows<sup>94</sup>). They were gathered together, Simon Peter said to them, I'm going fishing. They came out and entered the boat. And after sunrise, Jesus stood on the bank. But the disciples did not know it was Jesus. Jesus said to them, You boys here, do you have any fish with you? (John 20:1–21:5)
- ii. (From a letter that Paul is writing to the church in Corinth) One who “speaks in a tongue” (speaks ecstatic nonsense) speaks not to human beings but to God, for no person listens to him. The one who speaks in tongues edifies only himself. Speaking prophetic sayings is better than speaking in tongues. Listen, brethren, if I come to you speaking in tongues how will I be of any use to you? If a bugle makes a funny sound, who's going to get ready for battle? Likewise, if you don't produce clear speech, how will people understand what you're saying? Suppose the whole church gathers and they all speak in tongues, and then some simple folk or unbelievers come by. Wouldn't they say that  $\epsilon\tau\epsilon\tau\bar{\eta}\text{-}\lambda\omicron\upsilon\epsilon^{\dagger}$  (You're crazy!<sup>95</sup>). But if they are all uttering prophetic sayings and an

unbeliever or a simple person comes by, they will be convinced by all. (1 Cor 14:2–24)

- iii. John (the Baptist) replied, It is not I who am the Christ. He (the Christ) must rise, and I must sink: one who has come from heaven is superior to all; one who is from the earth is earthly  $\lambda\gamma\omega \epsilon\eta\text{-}\omega\lambda\lambda\epsilon \epsilon\beta\omicron\lambda \bar{\eta}\mu\text{-}\pi\kappa\alpha\zeta$  (and speaks from the earth<sup>96</sup>). Now, the One who has come from heaven is testifying to what He has seen and heard. And no one accepts His testimony. Yet He has sealed the One who has accepted His testimony, for God is truthful. Indeed, the One whom God has sent  $\epsilon\eta\text{-}\chi\omega \bar{\eta}\text{-}\bar{\eta}\omega\lambda\lambda\epsilon \bar{\mu}\text{-}\pi\eta\omicron\gamma\tau\epsilon$  (speaks the words of God<sup>97</sup>).  $\eta\text{-}\epsilon\epsilon\epsilon\text{-}\pi\eta\omicron\gamma\tau\epsilon \text{ } \rho\alpha\rho \text{ } \dagger \text{ } \alpha\eta \text{ } \bar{\mu}\text{-}\pi\epsilon\pi\eta\bar{\alpha} \text{ } \zeta\bar{\eta}\text{-}\sigma\upsilon\gamma\upsilon$  (For, God does not give the spirit in a limited way<sup>98</sup>): the Father loves the Son and has put all things into His hands. (John 3:27–35)
- iv. The kinsmen of the synagogue leader came and told him, Your daughter has died. But Jesus said, Fear not! Just have faith. And they went to the leader's house, and He saw that they were distraught and weeping. But when He had entered He said to them, Why are you distraught and weeping over the girl?  $\bar{\mu}\pi\bar{\tau}\text{-}\mu\omicron\gamma. \text{ } \alpha\lambda\lambda\alpha \text{ } \epsilon\varsigma\text{-}\bar{\eta}\kappa\omicron\tau\bar{\kappa}$  (She has not died; rather, she is sleeping<sup>99</sup>). They laughed at Him. But He took the girl's hand and said to her, Taleitha Koum. And immediately the girl got up and walked. (Mark 5:35–42)
- v. They took Jesus from Kaiphas to the praetorium. And Pilate came out. Then Pilate went back into the praetorium, and summoned Jesus and said to Him, You are the King of the Jews? — Jesus answered,  $\epsilon\kappa\text{-}\chi\omega \bar{\mu}\text{-}\pi\alpha\bar{\iota} \text{ } \zeta\alpha\rho\text{-}\kappa \text{ } \mu\alpha\gamma\alpha\alpha\text{-}\kappa$  (Are you saying this as your own opinion<sup>100</sup>) or is it other people who have talked to you about Me? — Pilate replied, Excuse me, am I supposed to be a Jew? It's Your people and the high priests who put You into my custody. — Jesus responded: Personally speaking, My kingdom is not from this world. (John 18:28–36)

In form, the focalizing converters are identical with those of the circumstantial/relative ( $\epsilon\epsilon\epsilon\text{-}$ ,  $\epsilon\epsilon\text{-}$ ,  $\epsilon\text{-}$ ,  $\bar{\eta}\tau\text{-}$ ,  $\epsilon\eta\tau\text{-}$ ,  $\epsilon\tau\epsilon\text{-}$ ), and this is a potential source of confusion. However, because the focalizing conversion is by definition a complete sentence it can be distinguished from the circumstantial and relative (which are not)<sup>101</sup>. The focalizing is relatively rare compared to the circumstantial and relative.

<sup>96</sup> My choice of focal point: uncertain, maybe *from the earth* or *speaks*.

<sup>97</sup> My choice of focal point: uncertain, maybe *speaks*, or *God*.

<sup>98</sup> My choice of focal point: *in a limited way*.

<sup>99</sup> My choice of focal point: *is sleeping*.

<sup>100</sup> My choice of focal point: *as your own opinion*.

<sup>101</sup> A circumstantial conversion of the focalizing conversion exists, and it is rare, being mostly confined to the elaborate rhetoric of Shenoute:  $\epsilon\text{-}\epsilon\epsilon\epsilon\text{-}$ ,  $\epsilon\text{-}\epsilon\epsilon\text{-}$ , and  $\epsilon\text{-}\bar{\eta}\tau\text{-}$  (unfortunately, sometimes simplified to  $\epsilon\epsilon\epsilon\text{-}$ ,  $\epsilon\epsilon\text{-}$ ,  $\bar{\eta}\tau\text{-}$ ).

<sup>94</sup> My choice of focal point: *as follows*.

<sup>95</sup> My choice of focal point: *really crazy*.

139. *Negations*. [CG 452–53]

In English we can sometimes translate the focalizing conversion by *It is/was . . . that . . .*, dividing the meaning into two parts. Thus: “It was in the following way | that He revealed Himself” — “It is the words of God | that He speaks”; etc.

This cumbersome English construction points to the existence of two logical forms of negation, depending on which part is negated. Coptic carefully distinguishes these two forms. Form (i) is much more common.

- i. It was not in the following way | that He revealed Himself.
- ii. It was in the following way | that He did not reveal Himself.
- i. It is not the words of God | that He speaks.
- ii. It is the words of God | that He does not speak.

In Coptic, form (i) is expressed by the negations noted in 137. Form (ii) is expressed by prefixing the sentence converter  $\epsilon\tau\epsilon-$  to an already negated basic sentence pattern. Thus

- (i)  $\bar{n}\tau-\alpha\varrho-\sigma\upsilon\sigma\eta\bar{z}-\bar{q}\ \alpha\bar{n}\ \epsilon\upsilon\sigma\alpha\ \bar{n}\tau\epsilon\iota\bar{z}\epsilon$   
It was not in the following way that He revealed Himself
- (ii)  $\epsilon\tau\epsilon-\bar{m}\bar{p}\bar{q}-\sigma\upsilon\sigma\eta\bar{z}-\bar{q}\ \epsilon\upsilon\sigma\alpha\ \bar{n}\tau\epsilon\iota\bar{z}\epsilon$   
It was in the following way that He did not reveal Himself
- (i)  $\epsilon\varrho-\chi\omega\ \alpha\bar{n}\ \bar{n}-\bar{n}\psi\alpha\chi\epsilon\ \bar{m}-\bar{p}\bar{n}\sigma\upsilon\tau\epsilon\ \sigma\tau\ \bar{n}-\epsilon\varrho-\chi\omega\ \alpha\bar{n}\ \bar{n}-\bar{n}\psi\alpha\chi\epsilon\ \bar{m}-\bar{p}\bar{n}\sigma\upsilon\tau\epsilon$   
It is not the words of God that He speaks
- (ii)  $\epsilon\tau\epsilon-\bar{n}-\varrho-\chi\omega\ \alpha\bar{n}\ \bar{n}-\bar{n}\psi\alpha\chi\epsilon\ \bar{m}-\bar{p}\bar{n}\sigma\upsilon\tau\epsilon$   
It is the words of God that He does not speak

When the negation  $\bar{n}-\epsilon\varrho-\sigma\omega\tau\bar{\pi}\ \alpha\bar{n}$  (or  $\bar{n}\bar{n}-\epsilon\varrho-\sigma\omega\tau\bar{\pi}\ \alpha\bar{n}$ ) occurs, it is focalizing; whereas,  $\epsilon-\bar{n}-\varrho-\sigma\omega\tau\bar{\pi}\ \alpha\bar{n}$  is circumstantial. But both conversions can be negated as  $\epsilon\varrho-\sigma\omega\tau\bar{\pi}\ \alpha\bar{n}$ .

## EXERCISES 18

A. *Review vocabularies 8–11.*B. *Reading selections from the New Testament.*

The possible meaning(s) of any focalizing conversion can only be discovered by reading the text that surrounds it, in order to understand the overall train of thought. In these translation exercises, each example is accompanied by enough context to enable you to make a “reader’s decision” about where to put the focus in the focalizing conversion. (If you can read Greek, you might also study the Greek originals from which these sentences were translated into Coptic. Is there something in the Greek original that led the Coptic translator to choose a focalizing conversion?)

*Translate the Coptic passages. Where do you think the focal point should be?*

- As for me (John the Baptist), I have baptized you with water.  $\bar{n}\tau\sigma\varrho\ \Delta\epsilon\ \epsilon\varrho-\bar{n}\alpha-\bar{b}\alpha\pi\tau\tau\iota\bar{z}\epsilon\ \bar{m}\bar{m}\omega-\bar{t}\bar{n}\ \bar{z}\bar{n}-\sigma\upsilon\bar{p}\bar{n}\bar{n}\alpha\ \epsilon\varrho-\sigma\upsilon\gamma\alpha\bar{b}$ . Mark 1:8
- And it (the demon) cried out, saying, What business do you have with us, O Jesus of Nazareth?  $\bar{n}\tau-\alpha\kappa-\epsilon\iota\ \epsilon-\theta\tau\alpha\kappa\sigma-\bar{n}$  Mark 1:24
- Let us go elsewhere, to the nearby villages, so that I might preach in them also.  $\bar{n}\tau-\alpha\bar{\iota}-\epsilon\iota\ \gamma\alpha\rho\ \epsilon\upsilon\sigma\alpha\ \epsilon-\bar{p}\epsilon\bar{\iota}\bar{z}\omega\bar{b}$ . Mark 1:38
- He said to the lame man, Arise.  $\epsilon\bar{\iota}-\chi\epsilon\rho\sigma-\kappa^{102}$ . Take up your bedding and go home. Mark 2:10–11
- Those who are well do not need a physician, but rather those who are ill.  $\bar{n}\tau-\alpha\bar{\iota}-\epsilon\iota\ \alpha\bar{n}\ \epsilon-\theta\tau\epsilon\bar{z}\bar{m}-\bar{n}\bar{\alpha}\bar{\iota}\kappa\alpha\bar{\iota}\sigma\ \alpha\bar{\lambda}\lambda\alpha\ \bar{n}\bar{p}\epsilon\varrho-\bar{p}-\theta\bar{n}\sigma\bar{b}\epsilon$ . Mark 2:17
- No one puts new wine into old wineskins lest the wine break the wine-skin and the wine spill out and the wineskin be ruined.  $\alpha\bar{\lambda}\lambda\alpha\ \epsilon-\psi\alpha\gamma-\bar{n}\epsilon\chi-\theta\bar{h}\bar{p}\bar{\pi}^{103}\ \bar{n}-\bar{b}\bar{p}\bar{p}\epsilon\ \epsilon-\theta\bar{z}\omega\tau^{104}\ \bar{n}-\bar{b}\bar{p}\bar{p}\epsilon$ . Mark 2:22
- And once He was walking in the ripe fields, and His disciples started to pluck ears of grain. And the Pharisees said to Him, Look at what they are doing on the Sabbath, which is forbidden to do. He said to them,

<sup>102</sup>  $\chi\epsilon\rho\sigma-\kappa = \chi\omega\ \epsilon\rho\sigma-\kappa$ .

<sup>103</sup>  $\bar{h}\bar{p}\bar{\pi}$  wine.

<sup>104</sup>  $\bar{z}\omega\tau$  wineskin.

Haven't you even read what David did when he and his companions were hungry? How he went into the house of God during Abiathar's priesthood and ate the sacred loaves, which it was forbidden for him to eat, and gave some to the others who were with him? He next said to them, ΠΑΒΒΑΤΟΝ ΝΤ-ΑΓ-ΩΠΕ ΕΤΒΕ-ΠΡΩΜΕ. ΑΥΩ ΝΤ-Α-ΠΡΩΜΕ ΩΠΕ ΑΝ ΕΤΒΕ-ΠΑΒΒΑΤΟΝ. Mark 2:23-27

8. And He came home, and the crowd once again thronged to Him, so they could not eat their food. And when His relatives heard, they came out to sieze Him. For they were saying, His mind is deranged. And the Scribes who had come from Jerusalem were saying, ΕΡΕ-ΒΕΕΛΖΕΒΟΥΛ<sup>105</sup> ΝΜΜΑ-Γ. ΑΥΩ ΖΜ-ΠΑΡΧΩΝ<sup>106</sup> Ν-ΝΔΑΙΜΟΝΙΟΝ ΕΓ-ΝΕΧ-<sup>107</sup> ΔΑΙΜΟΝΙΟΝ ΕΒΟΛ<sup>107</sup>. Mark 3:20-22
9. When the Sabbath came, He began to teach in the synagogue. And the crowd, when they heard, were amazed, saying ΝΤ-Α-ΠΑΪ ΘΝ<sup>108</sup>-ΝΑΪ ΤΩΝ. ΑΥΩ ΟΥ ΤΕ ΤΕΪΣΟΦΙΑ<sup>109</sup> ΝΤ-ΑΥ-ΤΑΑ-Σ Μ-ΠΑΪ. Mark 6:2
10. He said to them, The prophet Isaiah spoke accurately about you, O you hypocrites, as it is written: This people honors Me with their lips, but their heart is far from Me; ΕΥ-ΟΥΩΩΤ ΔΕ ΜΟ-Ι Ε-ΠΧΙΝΧΗ<sup>110</sup> ΕΥ-Τ-<sup>111</sup> ΣΒΩ Ν-ΖΕΝΣΒΟΥΕ Ν-ΕΝΤΟΛΗ Ν-ΡΩΜΕ. Mark 7:6-7
11. He said to them, For your part you are ignorant, for you do not realize that no external thing that enters a person can pollute him, because Ν-ΕΓ-ΒΗΚ ΑΝ ΕΖΟΥΝ Ε-ΠΖΗΤ<sup>111</sup> ΑΛΛΑ ΕΖΡΑΪ Ε-ΘΗ. Mark 7:18-19
12. [A healing miracle] They brought Him a blind man and begged Him to touch him. And He took the hand of the blind man, led him outside the village, and after He had spat into his eyes He put His hand on him and asked him, ΕΚ-ΝΑΥ Ε-ΟΥ Mark 8:22-23
13. He said to them, Whoever wants to follow Me, let him deny himself and take up his cross and follow Me. For whoever wants to save his life ΕΓ-ΝΑ-ΣΟΡΜ-ΕΣ<sup>112</sup>. And whoever loses his life for My sake and for that of the Gospel ΕΓ-ΝΑ-ΤΟΥΧΟ<sup>113</sup>-Σ. Mark 8:34-35
14. He said to them, What do you want Me to do for you? And they said to Him, Let one of us sit at Your right hand and another at Your left hand

<sup>105</sup> ΒΕΕΛΖΕΒΟΥΛ (personal name) Beelzebub, traditional name of a powerful demon.

<sup>106</sup> ΑΡΧΩΝ leader.

<sup>107</sup> ΝΟΥΧΕ ΕΒΟΛ cast out (through exorcism).

<sup>108</sup> ΘΙΝΕ find, discover.

<sup>109</sup> ΣΟΦΙΑ wisdom.

<sup>110</sup> Ε-ΠΧΙΝΧΗ in vain, uselessly.

<sup>111</sup> ΠΖΗΤ . . . ΘΗ (ΤΖΗ) the heart . . . the belly.

<sup>112</sup> ΣΩΡΜ lose.

<sup>113</sup> ΤΟΥΧΟ vivify, cause to live, save.

- in Your glory. But Jesus said to them, You do not know ΕΤΕΤΝ-ΑΙΤΕ Ν-ΟΥ. Mark 10:36-38
15. He said to them, You know that those who claim to be rulers of the people are their masters, and their superiors have authority over them. But this is not how it is among you. Rather, whosoever among you wishes to be the greatest, ΕΓ-ΝΑ-ΔΙΑΚΟΝΕΙ<sup>114</sup> ΝΗ-ΤΝ. And whosoever wishes to be first among you, ΕΓ-ΝΑ-Ρ-<sup>115</sup> ΖΜΖΑΛ ΝΗ-ΤΝ ΤΗΡ-ΤΝ. Mark 10:42-44
16. He was hungry. And when He saw a fig tree in the distance with leaves upon it, He went to it in case He might find anything (to eat) on it. And after He had come and had not found anything on it except leaves—for it was not the season for figs—He responded, saying to it, From henceforth, no one shall eat fruit from you . . . And when they passed it at dawn they saw that the fig tree was all dried up, roots and all. And when Peter remembered, he said to Him, Rabbi, look at the fig tree that You cursed. ΝΤ-Α-Σ-ΩΟΟΥΕ<sup>115</sup>. And Jesus answered them, saying, Have faith in God. Mark 11:13-22
17. And the Pharisees and Herodians sent some people to Him to trap Him by what He said. And when they encountered Him they said to Him, Teacher, we know that You are a truthful man and You are not worried about anything: for, You do not show favoritism to any people, ΑΛΛΑ ΖΝ-ΟΥΜΕ ΕΚ-Τ-<sup>116</sup> ΣΒΩ Ν-ΤΕΖΙΗ Μ-ΠΝΟΥΤΕ. Is it proper to pay taxes to Caesar, or not? Mark 12:13-14
18. She poured the jar (of costly ointment) upon His head. And some people were annoyed and said to one another, Why was this ointment wasted? For it could have been sold for more than three hundred staters and given to the poor. And they were angry at her. But Jesus said to them, Leave her alone. Why do you bother her? It is a good deed that she has done to Me. For, the poor are with you always, and if you wish ΕΤΕΤΝ-ΕΩ<sup>116</sup>-Ρ-<sup>116</sup> ΠΕΤΝΑΝΟΥΓ ΝΑ-Υ Ν-ΟΥΟΕΙΩ ΝΙΜ. ΑΝΟΚ ΔΕ Ν-ΕΪ-ΝΑ-ΒΩ ΑΝ ΝΜΜΗ-ΤΝ Ν-ΟΥΟΕΙΩ ΝΙΜ. Mark 14:3-7
19. And they came to a garden called Gethsemane. And He said to His disciples, Just sit down here until I have prayed. And He took Peter and James and John with Him . . . And He prostrated Himself and prayed . . . Abba, Father, You have power over everything. Let this cup pass from Me. Yet—not as I wish it to be. And He came and found them

<sup>114</sup> ΔΙΑΚΟΝΕΙ Ν-ΝΑ= serve.

<sup>115</sup> ΩΟΟΥΕ dry up.

<sup>116</sup> ΕΩ- or Ω- be able to, can. Cf. vocabulary 15.

asleep. And He said to Peter, Simon,  $\epsilon\kappa-\bar{n}\kappa\omicron\tau\kappa$ <sup>117</sup>. Weren't you able to keep awake for a single moment? Mark 14:32-37

20. And early in the morning on the first day of the week they (Mary Magdalene, Mary the relative of Jose, and Salome) came out to the tomb, after the sun rose . . . And when they had gone into the tomb, they saw a young man sitting on the right side, wearing a white stole. And fear overcame them. But he said to them, Fear not.  $\epsilon\tau\epsilon\tau\bar{n}-\kappa\omega\tau\epsilon$   $\bar{n}\varsigma\alpha$ <sup>118</sup>- $\bar{\iota}\varsigma$   $\pi\eta\alpha\lambda\alpha\rho\eta\eta\kappa\omicron\varsigma$   $\pi-\epsilon\tau-\alpha\gamma-\varsigma\tau\alpha\gamma\rho\omicron\gamma$   $\bar{m}\omicron-\gamma$ .  $\alpha\gamma-\tau\omega\omicron-$   $\gamma\eta-\bar{q}$ <sup>119</sup>.  $\bar{n}-q-\gamma\bar{m}-\pi\epsilon\bar{\iota}\mu\alpha$   $\alpha\eta$ . Mark 16:2-6
21. There are some who have enough faith to eat every kind of food, while the weaker person eats vegetarian. Those who eat must not scorn those who refrain from eating. And those who refrain from eating must not pass judgment on those who eat . . . Let everyone be content in his heart. Whoever is mindful ( $\mu\epsilon\epsilon\gamma\epsilon$ ) about the day's being a prescribed fast day,  $\epsilon\gamma-\mu\epsilon\epsilon\gamma\epsilon$   $\bar{m}-\pi\chi\omicron\epsilon\iota\varsigma$ .  $\alpha\gamma\omega$   $\pi-\epsilon\tau^0-\omicron\gamma\omega\mu$   $\epsilon\gamma-\omicron\gamma\omega\mu$   $\bar{m}-\pi\chi\omicron\epsilon\iota\varsigma$  . . .  $\alpha\gamma\omega$   $\pi-\epsilon\tau\epsilon-\bar{n}-q-\omicron\gamma\omega\mu$   $\alpha\eta$   $\epsilon\tau\epsilon-\bar{n}-q-\omicron\gamma\omega\mu$   $\alpha\eta$   $\bar{m}-\pi\chi\omicron\epsilon\iota\varsigma$ . Romans 14:2-6

*C. Translate rapidly into Coptic, using the focalizing conversion.*

I am revealing myself in this way  
 You (sing. masc.) are . . .  
 You (sing. fem.) are . . .  
 He is . . .  
 She is . . .  
 We are . . .  
 You (pl.) are . . .  
 They are . . .

*D. Translate rapidly into Coptic, using the focalizing conversion and giving alternate forms where possible.*

It is not in this way that I am revealing myself  
 " " you (sing. masc.) are . . .  
 " " you (sing. fem.) are . . .  
 " " he is . . .  
 " " she is . . .  
 " " we are . . .  
 " " you (pl.) are . . .  
 " " they are . . .

<sup>117</sup>  $\bar{n}\kappa\omicron\tau\kappa$  fall asleep, be asleep.

<sup>118</sup>  $\kappa\omega\tau\epsilon$   $\bar{n}\varsigma\alpha$ - search for, seek.

<sup>119</sup>  $\tau\omega\omicron\gamma\eta$  cause to arise.

*E. Translate rapidly into Coptic, using the focalizing conversion.*

It is in this way that I am not revealing myself  
 " " you (sing. masc.) are not . . .  
 " " you (sing. fem.) are not . . .  
 " " he is not . . .  
 " " she is not . . .  
 " " we are not . . .  
 " " you (pl.) are not . . .  
 " " they are not . . .

*F. Translate rapidly into Coptic, using the focalizing conversion.*

I revealed myself in this way  
 You (sg. masc.) revealed . . .  
 Etc. etc.

*G. Translate rapidly into Coptic, using the focalizing conversion.*

It was not in this way that I revealed myself  
 It was not in this way that you (masc. sing.) . . .  
 Etc. etc.

*H. Translate rapidly into Coptic, using the focalizing conversion.*

It was in this way that I did not reveal myself  
 It was in this way that you (masc. sing.) . . .  
 Etc. etc.

# LESSON 19

## CLEFT SENTENCE. REPORTED DISCOURSE AND THOUGHT.

**140.** A more precise way to signal focalization is the cleft sentence construction. [CG 461-63]

ἸΗΣΟΥΣ ΠΕ-ΕΝΤ-ΑΓ-ΤΑΛΒΟ-Ῑ = It is *Jesus* who healed me  
 Ἰ̄ΤΩΤῆ ΓΑΡ ΑΝ ΠΕ-ΕΤ<sup>θ</sup>-ΨΑΧΕ = For, it is not *you* who speak  
 ΑΝΟΚ ΕΤ<sup>θ</sup>-ΝΑ-ΚΑΤΗΓΟΡΙ Μ̄ΜΩ-Τῆ = It is *I* who shall accuse you

The focal point always comes first, and it is always an article phrase, independent personal pronoun, or the like.

### 141. Cleft Sentence Pattern 1.

Pattern 1 [CG 464] has two parts.

- i. A nominal sentence containing πε "It is . . .," in which either πε/τε/νε agrees with the preceding focal point

ΤΕΚΠΙΣΤΙC ΤΕ . . . It is your faith . . .  
 (ἄ-)-ΤΕΚΠΙΣΤΙC ΑΝ ΤΕ . . . It is not your faith . . .

or πε is frozen in the singular masculine form

ΤΕΚΠΙΣΤΙC ΠΕ . . . It is your faith . . .  
 (ἄ-)-ΤΕΚΠΙΣΤΙC ΑΝ ΠΕ . . . It is not your faith . . .

- ii. An attached relative clause, in which a personal pronoun agrees in number/gender with the focal point (bare ετ 130 also occurs)

ΤΕΚΠΙΣΤΙC ΤΕ-ΕΝΤ-ΑC-ΝΑΖΜ-ΕΚ  
 It is your faith that has saved you  
 (ἄ-)-ΤΕΚΠΙΣΤΙC ΑΝ ΤΕ-ΕΝΤ-ΑC-ΝΑΖΜ-ΕΚ  
 It is not your faith that has saved you  
 ΤΕΚΠΙΣΤΙC ΤΕ-ΕΝΤ-ΑΚ-ΝΟΥΖΜ̄ Ν̄ΖΗΤ-Ὶ̄  
 It is your faith through which you have become saved

## THE CLEFT SENTENCE

(ἄ-)-ΤΕΚΠΙΣΤΙC ΑΝ ΤΕ-ΕΝΤ-ΑΚ-ΝΟΥΖΜ̄ Ν̄ΖΗΤ-Ὶ̄  
 It is not your faith through which you have become saved

ΤΕΚΠΙΣΤΙC ΤΕ-ΕΤ<sup>θ</sup>-ΝΟΥΖΜ̄ Μ̄ΜΟ-Κ (with bare ετ)  
 It is your faith that saves you

Note that τε (i.e. πε/τε/νε) and the relative converter (ΕΝΤ-, ΕΤ<sup>θ</sup>-) are attached to one another: τε-ΕΝΤ-, τε-ΕΤ<sup>θ</sup>-.

**142.** *Elided forms in Pattern 1.* Very often πε (τε, νε) and the attached relative converter elide (ε-ε written simply as ε).

	Elided Form
ΠΕ-ΕΤq-	ΠΕΤq-
ΠΕ-ΕΤε-	ΠΕΤε-
ΠΕ-ΕΝΤ-	ΠΕΝΤ-
ΠΕ-ΕΤ <sup>θ</sup> -	ΠΕΤ <sup>θ</sup> -

The elided form is quite commonplace, and it looks misleadingly like an articulated relative 132 (i.e. Π-ΕΤs, Π-ΕΤε- Π-ΕΝΤ-, Π-ΕΤ<sup>θ</sup>-, etc. = the one who . . . ).

Thus, when you see a sequence of letters such as . . . ΠΕΤ . . . or . . . ΠΕΝΤ . . . or . . . ΠΕΤε . . . or . . . ΠΕΨΑq . . . or . . . ΠΕΤq . . . , you must always remember to ask yourself whether this is an articulated relative or a part of an elided cleft sentence. Both are extremely common. For example

ΙΗΣΟΥC ΠΕΝΤΑqΤΑΛΒΟῖ

means both (i) Jesus, who healed me (articulated relative, ΙΗΣΟΥC Π-ΕΝΤ-Αq-ΤΑΛΒΟ-ῖ) and (ii) It is Jesus who healed me (cleft sentence pattern 1, elided ΙΗΣΟΥC Π(ε)-ΕΝΤ-Αq-ΤΑΛΒΟ-ῖ). By thinking about the context, you should be able to make the right choice between these two alternatives. And the choice is yours.

Much more rarely, Pattern 1 contains a circumstantial clause instead of a relative. Ἰ̄ΤΟq ΜΑΥΑΑ-q ΠΕ Εq-ΑΝΑΧΩΡΕῖ Ζῆ-ΠΜΑ ΕΤ<sup>θ</sup>-Μ̄ΜΑΥ = It is *he alone* who is living as an anchorite in that place. [CG 470]

**143.** Pattern 1 can also be used as an opening formula at the beginning of a story, to introduce a character and circumstances: *There once was . . .* [CG 465]

ΟΥΡΩΜΕ ἄ-ΡῆΜΑΟ ΠΕΝΤ-Αq-ΤΩΒε ἄ-ΟΥΜΑ ἄ-ΕΛΟΟΛε  
 There once was a rich man who planted a vineyard  
 ("It is a rich man who . . .")

**144. Cleft Sentence Pattern 2.**

Pattern 2 [CG 468] consists of

- i. An independent personal pronoun (ἀνοκ, ἡτοκ, etc.)
- ii. Either  $\epsilon\tau\tau$ - (relative conversion of past affirmative) or  $\epsilon\tau^0$ - (bare  $\epsilon\tau$  130)

$\eta\tau\tau\text{οκ } \epsilon\tau\tau\text{-}\alpha\kappa\text{-}\tau\alpha\omicron\upsilon\omicron\text{-}\iota$	= It is <i>you</i> who have sent me
$\eta\tau\tau\text{οκ } \alpha\eta\text{-}\epsilon\tau\tau\text{-}\alpha\iota\text{-}\tau\alpha\omicron\upsilon\omicron\text{-}\kappa$	= It is not <i>you</i> whom I have sent
$\eta\tau\tau\text{οκ } \epsilon\tau^0\text{-}\chi\omega\text{-}\mu\mu\omicron\text{-}\varsigma$	= It is <i>you</i> who say it (with bare $\epsilon\tau$ )

After  $\epsilon\tau\tau$ -, a personal pronoun will agree in number/gender with the focal point ( $\eta\tau\tau\text{οκ } \epsilon\tau\tau\text{-}\alpha\kappa\text{-}$ ;  $\eta\tau\tau\text{οκ } \epsilon\tau\tau\text{-}\alpha\iota\text{-}\tau\alpha\omicron\upsilon\omicron\text{-}\kappa$ ).

Note that pattern 2 does not contain  $\mu\epsilon$ . Negation:  $\alpha\eta$  following ἀνοκ (etc.)

## REPORTED DISCOURSE AND THOUGHT

**145.** Reported discourse is the content of speaking or thought quoted after a verb of speech or cognition. [CG 509] Reported discourse is mostly introduced by  $\chi\epsilon$ -. The most common constructions are  $\chi\omega\text{-}\mu\mu\omicron\text{-}\varsigma\text{-}\chi\epsilon$ -/ $\chi\omicron\omicron\omicron\text{-}\varsigma\text{-}\chi\epsilon$ - say (say-it  $\chi\epsilon$ -) and  $\mu\epsilon\chi\alpha\text{-}\rho\text{-}\chi\epsilon$ - *he said* ( $\mu\epsilon\chi\epsilon$ -,  $\mu\epsilon\chi\alpha$ - 105).

Verbs of speaking and cognition [CG 510] include  $\epsilon\iota\mu\epsilon\text{-}\chi\epsilon$ - know,  $\mu\epsilon\epsilon\upsilon\epsilon\text{-}\chi\epsilon$ - think,  $\mu\alpha\upsilon\text{-}\chi\epsilon$ - see, perceive,  $\mu\iota\varsigma\tau\epsilon\upsilon\epsilon\text{-}\chi\epsilon$ - believe,  $\rho\text{-}^0\mu\omicron\epsilon\iota\varsigma\epsilon\text{-}\chi\epsilon$ - be amazed at the fact that,  $\rho\text{-}\mu\epsilon\epsilon\upsilon\epsilon\text{-}\chi\epsilon$ - remember,  $\varsigma\omega\tau\mu\text{-}\chi\epsilon$ - hear, learn,  $\varsigma\omicron\omicron\upsilon\gamma\text{-}\chi\epsilon$ - know,  $\tau\alpha\mu\omicron\text{-}\chi\epsilon$ - tell,  $\omicron\upsilon\omega\psi\bar{\omega}\text{-}\chi\epsilon$ - answer,  $\chi\omega\text{-}\mu\mu\omicron\text{-}\varsigma\text{-}\chi\epsilon$ - say,  $\chi\eta\omicron\upsilon\gamma\text{-}\chi\epsilon$ - ask,  $\beta\bar{\omega}\text{-}$  find out,  $\mu\epsilon\chi\epsilon$ -/ $\mu\epsilon\chi\alpha$ -  $\chi\epsilon$ - said, etc.

**146.** Formally speaking, most Coptic *questions* can't be distinguished from affirmations 4. [CG 511]

$\eta\tau\tau\text{οκ } \mu\epsilon\text{-}\rho\bar{\rho}\omicron\text{-}\eta\text{-}\iota\omicron\upsilon\gamma\alpha\iota$

= (1) You are the Jewish king, (2) Are You the Jewish king?

But some questions can be recognized because they begin with the interrogative initial morphs  $\alpha\mu\alpha$ ,  $\epsilon\eta\epsilon$ - or  $\mu\eta$ ; or contain an interrogative word ( $\eta\eta\mu$  = who?); or contain a verb meaning "ask" ( $\chi\eta\omicron\upsilon\gamma$ ).

$\alpha\mu\alpha$  = so, ...; pray tell, ...

$\mu\eta$  = is it true that ...?

$\mu\eta$  ...  $\alpha\eta$  (or  $\mu\eta$  + negated conjugation) = isn't it true that ...?

**147.**  $\chi\omega\text{-}\mu\mu\omicron\text{-}\varsigma\text{-}\chi\epsilon$ - "say" in durative conjugation strictly alternates with  $\chi\omicron\omicron\omicron\text{-}\varsigma\text{-}\chi\epsilon$ - in non-durative conjugation. [CG 514]

$\dagger\text{-}\chi\omega\text{-}\mu\mu\omicron\text{-}\varsigma\text{-}\chi\epsilon$ - *I say* versus  $\alpha\iota\text{-}\chi\omicron\omicron\omicron\text{-}\varsigma\text{-}\chi\epsilon$ - *I said*

In this construction,  $-\varsigma$  grammatically points ahead to the  $\chi\epsilon$ - clause. It should not be translated in English.

## REPORTED DISCOURSE AND THOUGHT

**148.** *Indirect and direct discourse* are two perspectives that an author can adopt when reporting a speaker's words or thoughts. [CG 519–24] *Indirect discourse* is a reporter's perspective, as though it were the report of an onlooker. Here is an example:

$\alpha\mu\text{-}\varsigma\omicron\omicron\upsilon\gamma\text{-}\eta\delta\iota\text{-}\tau\bar{\varsigma}\text{-}\chi\epsilon\text{-}\alpha\text{-}\tau\epsilon\omicron\upsilon\omicron\gamma\text{-}\eta\epsilon\iota$   
Jesus knew *that his hour had come*

If the author had chosen to report Jesus' words in *direct discourse* (as though the speaker's exact words) he would have written

$\alpha\mu\text{-}\varsigma\omicron\omicron\upsilon\gamma\text{-}\eta\delta\iota\text{-}\tau\bar{\varsigma}\text{-}\chi\epsilon\text{-}\alpha\text{-}\tau\alpha\omicron\upsilon\omicron\gamma\text{-}\eta\epsilon\iota$   
Jesus knew, "My hour has come"

What are the signals of indirect discourse compared to direct discourse? How does the writer compose the speaker's own words (direct discourse) so as to create the effect of indirect discourse?

- i. Indirect discourse can change the person (e.g. from first to third)

Direct: My hour  $\tau\alpha\omicron\upsilon\gamma\text{-}\eta\epsilon\iota$

Indirect: His hour  $\tau\epsilon\omicron\upsilon\gamma\text{-}\eta\epsilon\iota$

- ii. Indirect discourse can change the syntax of a command or request

Direct: He said, "Sit down"  $\alpha\mu\text{-}\chi\omicron\omicron\omicron\text{-}\varsigma\text{-}\chi\epsilon\text{-}\gamma\mu\omicron\omicron\varsigma$

Indirect: He commanded him to sit down,  $\alpha\mu\text{-}\omicron\upsilon\epsilon\gamma\text{-}^0\varsigma\alpha\gamma\eta\epsilon\text{-}^0\tau\bar{\rho}\epsilon\mu\text{-}\gamma\mu\omicron\omicron\varsigma$

- iii. Indirect discourse can change the form of a question about place or manner

Direct: He asked, "Where is she staying?"  $\alpha\mu\text{-}\chi\eta\omicron\upsilon\gamma\text{-}\chi\epsilon\text{-}\epsilon\varsigma\text{-}\kappa\eta\text{-}\eta\alpha\omega\text{-}\mu\text{-}\mu\alpha$

Indirect: He asked where she was staying  $\alpha\mu\text{-}\chi\eta\omicron\upsilon\gamma\text{-}\epsilon\text{-}\mu\mu\alpha\text{-}\epsilon\tau\varsigma\text{-}\kappa\eta\text{-}\mu\mu\alpha\gamma$

Unlike English, Coptic does *not* shift the tense of indirect discourse. Instead, indirect discourse has the same tense as the equivalent direct discourse. Here English and Coptic diverge, when talking about the past.

Direct:  $\alpha\mu\text{-}\chi\omicron\omicron\omicron\text{-}\varsigma\text{-}\chi\epsilon\text{-}\dagger\text{-}\omega\omega\eta\epsilon$  He said, "I am sick"

Indirect:  $\alpha\mu\text{-}\chi\omicron\omicron\omicron\text{-}\varsigma\text{-}\chi\epsilon\text{-}\rho\text{-}\omega\omega\eta\epsilon$  He said that he *was* sick (English signals indirect discourse by shifting the tense to *was*, but Coptic literally has "He said that he is sick")

Direct:  $\alpha\mu\text{-}\chi\omicron\omicron\omicron\text{-}\varsigma\text{-}\chi\epsilon\text{-}\alpha\iota\text{-}\omega\omega\eta\epsilon$  He said, "I was sick"

Indirect:  $\alpha\mu\text{-}\chi\omicron\omicron\omicron\text{-}\varsigma\text{-}\chi\epsilon\text{-}\alpha\mu\text{-}\omega\omega\eta\epsilon$  He said that he *had been* sick

# EXERCISES 19

A. Review vocabularies 12–13.

B. Take the following sentence as a basis:

He will give you a book.  $\text{q-na-}\uparrow\text{nh-t}\bar{n}\bar{n}\text{-ou}\chi\omega\omega\text{me}$ .

Translate into Coptic using the cleft sentence construction and giving alternate forms where possible.

1. It is he ( $\bar{n}\text{toq}$ ) who will give you a book.
2. It is you (pl.  $\bar{n}\text{twt}\bar{n}$ ) to whom he will give a book.
3. It is a book that he will give to you.
4. It is not he who will give you a book.
5. It is not you (pl.) to whom he will give a book.
6. It is not a book that he will give to you.

C. Reading selections from the New Testament.

1.  $\text{n}\bar{i}\text{m pet}^{\theta}\text{-na-}\psi\text{-ka-}^{\theta}\text{no}\bar{v}\epsilon\text{ e}\bar{v}\text{o}\bar{\lambda}\bar{n}\text{ca-pno}\bar{y}\text{te ma}\gamma\alpha\alpha\text{-q}$ . Mark 2:7
2.  $\alpha\psi\text{ gar pet}^{\theta}\text{-mot}\bar{n}^{120}\text{ e-}^{\theta}\chi\text{o}\bar{o}\text{-c}$ . Mark 2:9
3.  $\text{na}\bar{i}\text{ } \bar{z}\omega\text{-ou nent-}\alpha\gamma\text{-}\chi\text{o-ou}^{121}\text{ } \bar{z}\bar{i}\chi\bar{n}\text{-}\bar{m}\bar{m}\alpha\bar{m}\text{-petra}^{122}$ . Mark 4:16
4.  $\text{ta}\psi\epsilon\epsilon\text{re to}\bar{y}\text{p}\bar{i}\text{c}\bar{i}\text{t}\bar{i}\text{c t}\bar{e}\text{nt-}\alpha\text{c-na}\bar{z}\bar{m}\text{-e}^{123}$ . Mark 5:34
5.  $\text{ou petere-pr}\omega\text{me na-taa-q } \bar{n}\text{-}^{\theta}\psi\bar{b}\bar{b}\bar{i}\omega^{124}\text{ } \bar{z}\alpha\text{-teq}\psi\chi\text{h}$ . Mark 8:37
6. He rebuked the unclean spirit saying  $\text{pe}\bar{\pi}\bar{n}\bar{\alpha}$  . . .  $\alpha\text{nok pe-et}^{\theta}\text{-ou}\epsilon\bar{z}\text{-}^{\theta}\text{ca}\bar{z}\bar{n}\epsilon\text{ na-k } \chi\epsilon\text{-amo}\bar{y}$  (87 [box])  $\epsilon\bar{v}\text{o}\bar{\lambda}\bar{n}\text{mo-q}$ . Mark 9:25
7.  $\text{n}\bar{i}\text{m pe-}\bar{n}\text{t-}\alpha\text{q-}\uparrow\text{ na-k } \bar{n}\text{-te}\bar{i}\epsilon\bar{z}\bar{o}\bar{y}\text{c}\bar{i}\alpha\text{ } \chi\epsilon\text{kas eke-}\bar{p}\text{-na}\bar{i}$ . Mark 11:28

<sup>120</sup>  $\text{mot}\bar{n}\text{ e-}$  be easier than ( $\bar{m}\text{ton}$  to become rested, rest; stative  $\text{mot}\bar{n}$  be easy, be peaceful).

<sup>121</sup>  $\chi\text{o}$ ,  $\chi\epsilon\text{-}$ ,  $\chi\text{o}\bar{=}$  to sow (seed).

<sup>122</sup>  $\text{petra}$  rock.

<sup>123</sup>  $\text{no}\bar{y}\bar{z}\bar{m}$  to save.

<sup>124</sup>  $\bar{n}\text{-}^{\theta}\psi\bar{b}\bar{b}\bar{i}\omega\text{ } \bar{z}\alpha\text{-}$  as payment for, in return for.

## EXERCISES NINETEEN

8.  $\text{ou petere-p}\chi\text{o}\epsilon\bar{i}\text{c } \bar{m}\text{-pma } \bar{n}\text{-eloole}^{125}\text{ na-aa-q}$ . Mark 12:9
9.  $\bar{n}\text{twt}\bar{n}\text{ gar an net}^{\theta}\text{-}\psi\alpha\chi\epsilon\text{ alla pe}\bar{\pi}\bar{n}\bar{\alpha}\text{ pe et}^{\theta}\text{-ou}\gamma\alpha\alpha\bar{v}$ . Mark 13:11
10.  $\alpha\gamma\text{-}\bar{p}\text{-pme}\epsilon\bar{y}\epsilon\text{ } \bar{n}\bar{b}\bar{i}\text{-neqma}\theta\text{h}\bar{n}\text{c } \chi\epsilon\text{-pa}\bar{i}\text{ peneq-}\chi\omega\text{ } \bar{m}\bar{m}\text{o-q}$ . John 2:22
11.  $\bar{i}\bar{c}\text{ an peneq-va}\bar{p}\bar{t}\bar{i}\bar{z}\epsilon\text{ alla neqma}\theta\text{h}\bar{n}\text{c ne}$ . John 4:2
12.  $\alpha\text{nok et}^{\theta}\text{-na-kath}\bar{g}\bar{w}\bar{r}\epsilon\bar{i}^{126}\text{ } \bar{m}\bar{m}\omega\text{-tn } \bar{n}\bar{n}\alpha\bar{z}\bar{r}\bar{m}\text{-pei}\omega\text{t}$ . John 5:45
13.  $\epsilon\text{tve-pa}\bar{i}\text{ pa}\epsilon\bar{i}\omega\text{t me } \bar{m}\bar{m}\text{o-}\bar{i}\text{ } \chi\epsilon\text{-}\uparrow\text{-na-kw } \bar{n}\text{-ta}\psi\chi\text{h } \chi\epsilon\text{kas on e}\bar{i}\epsilon\text{-}\chi\bar{i}\text{t-}\bar{c}\text{. } \bar{m}\bar{n}\text{-laa}\bar{y}\text{ } \bar{q}\bar{i}\text{ } \bar{m}\bar{m}\text{o-c } \bar{n}\text{toot-}^{\theta}\text{. } \alpha\text{lla } \alpha\text{nok et}^{\theta}\text{-kw } \bar{m}\bar{m}\text{o-c } \bar{z}\alpha\bar{r}\text{o-}\bar{i}\text{ ma}\gamma\alpha\alpha\text{t-}^{\theta}\text{. } \text{John 10:17-18}$
14.  $\alpha\text{nok et}^{\theta}\text{-soo}\bar{y}\bar{n}\text{ } \bar{n}\text{-n-ent-}\alpha\bar{i}\text{-cotp-o}\bar{y}$ . John 13:18
15.  $\bar{m}\bar{n}\text{ } \bar{n}\text{tok e-naa-k e-penei}\omega\text{t } \bar{i}\alpha\text{kw}\bar{v}$ . John 4:12
16.  $\bar{m}\bar{n}\text{ } \bar{m}\text{-pa}\bar{i}\text{ an pe } \bar{i}\bar{c}\text{ } \bar{p}\omega\text{h}\bar{r}\epsilon\text{ } \bar{n}\text{-i}\omega\text{c}\bar{h}\bar{f}$ . John 6:42

D. Cleft sentences that begin with an extraposed word or phrase (98).

1.  $\bar{n}\alpha\bar{r}\chi\bar{i}\epsilon\bar{r}\epsilon\bar{y}\bar{c}$ ,  $\bar{n}\text{tooy nent-}\alpha\gamma\text{-taa-k etoot-}^{\theta}\text{. } \text{ou pet-ak-aa-q}$ . John 18:35
2.  $\bar{p}\psi\alpha\chi\epsilon\text{ ent-}\alpha\bar{i}\text{-}\chi\text{o}\bar{o}\text{-q, } \bar{n}\text{toq pet}^{\theta}\text{-na-krine } \bar{m}\bar{m}\text{o-q } \bar{z}\bar{m}\text{-pzae } \bar{n}\text{-zooy}$ . John 12:48
3.  $\bar{n}\epsilon\bar{z}\bar{b}\bar{n}\bar{y}\epsilon\text{ } \alpha\text{nok e}\uparrow\text{-eire } \bar{m}\bar{m}\text{o-ou } \bar{z}\bar{m}\text{-pran } \bar{m}\text{-pa}\epsilon\bar{i}\omega\text{t, na}\bar{i}\text{ net}^{\theta}\text{-}\bar{p}\text{-}^{\theta}\bar{m}\bar{n}\bar{t}\bar{r}\epsilon\text{ etvnh}\bar{n}\text{t-}^{\theta}\text{. } \text{John 10:25}$

CONDITIONAL SENTENCES.  
PURPOSE AND RESULT.  
CORRELATED COMPARISON.

Since you have been faithful with a few things, I shall put you in charge of many

<sup>128</sup> Since the *Then* clause is a preterit conversion, the preterit particle  $\pi\epsilon$  (116) can occur optionally, as seen in the first example below.

## ii. Past tense contrary to fact

If clause (if . . . had . . . ):

affirmative ε-νε-ντ-α-

negative ε-νε-μηε-

Then clause ( . . . would have): εωχπε, εωχε, or νεειςπε + past tense

ε-νε-μηπερ-ει . . . εωχπε ας-ωωπε ν̄βι-θαν̄ μ̄-πκοσμος

If He had not come . . . , then the end of the world would have come to pass

Authors sometimes mix different types of *If* and *Then* clause in a single sentence. εωωπε αν̄-ουσαβε, νεϊ-να-μεριτ-ῆ = If ever I am wise, I would love him [mixture of generalization and contrary to fact]. [CG 500]

## PURPOSE AND RESULT

## 153. Purpose (to, in order to, so that . . . might . . . ) [CG 502] is expressed by

ε-<sup>0</sup>infinitive or ετβε-<sup>0</sup>infinitiveε-<sup>0</sup>τρε-

χε- or χεκαας + optative

For example

ντ-ακ-ει ε-<sup>0</sup>τακο-ν = You have come to destroy usαϑ-ει ν̄βι-ῑς ε-<sup>0</sup>τρεϑ-χι-<sup>0</sup>βαπτισμα = Jesus came so that he might be baptized

αγ-εινε να-ϑ ν̄-zenwhe wnm xekas epe-tale-neqbix exw-oy = They brought some children to Him so that He might lay His hands upon them

## 154. Result (so as to, so that . . . ) [CG 503] is expressed by

ζωστε ε-<sup>0</sup>infinitiveζωστε ε-<sup>0</sup>τρε-

ζωστε + conjunctive

For example

αγ-μεζ-πχοϊ cnaγ ζωστε ε-<sup>0</sup>τρεγ-ωμ̄ς = They filled both boats, so that they sank

c-αωᾱ ν̄βι-ταγαπη ζωστε ανον ν̄τ̄ν-ωογωογ μ̄μο-ν = Love is increasing so that we ourselves are boasting

As in Koine Greek, expressions of purpose and result are sometimes used interchangeably.

## CORRELATED COMPARISON

155. Correlated comparisons *just as . . . so too . . .* [CG 505–6] are expressed byν̄θε (ν̄-τ-ζε) or κατα-θε *just as* + relative or circumstantial clause

answered by

τᾱι τε θε *so, so too* + relative or circumstantial clause

For example

κατα-θε εντ-αν-σωτ̄μ̄ τᾱι ον τε θε εντ-αν-ναγ = *Just as* we have heard, *so* have we also seenν̄θε εντ-ακ-χοο-с να-ν τᾱι τε θε εντ-αν-сотм-εс = *Just as* you told us, *so* have we heard

The two elements can also occur in the opposite order: τᾱι τε θε ετ̄ῆ-νηγ μ̄μο-с ν̄θε εντ-ατετ̄ν-наγ ερο-ϑ εϑ-να-βωκ εζρᾱι ε-тпе = He will come just as you saw him going up into heaven (This is how he will come: just as you saw him going . . . )

Telling time [CG 133]

(1) The week (ΠΑΡΑΒΑΤΟΝ ΟΓ ΝΑΒΒΑΤΟΝ ΟΓ ΤΖΕΒΔΟΜΑΣ):

Sunday = ΤΚΥΡΙΑΚΗ ΟΓ ΠΟΥΑ

Monday = ΠΕΣΝΑΥ ΟΓ ΠΩΟΡΠ̄ Ν-ΖΟΟΥ Ν-ΟΥΩΨ

Tuesday = ΠΩΟΜΝΤ ΟΓ ΠΜΕΖ-ΣΝΑΥ Ν-ΖΟΟΥ Ν-ΟΥΩΨ

Wednesday = ΠΕΡΤΟΟΥ ΟΓ ΤΚΟΥΙ Ν-ΝΗΣΤΕΙΑ ΟΓ ΤΗΝΣΤΕΙΑ ΨΗΜ

Thursday = ΠΤΟΥ ΟΓ ΠΟΥΩΨ ΟΓ ΠΟΥΩΨ Ν-ΤΜΗΤΕ

Friday = ΠΣΟΟΥ ΟΓ ΠΠΑΡΑΣΚΕΥΗ ΟΓ ΤΝΟΒ Ν-ΝΗΣΤΕΙΑ ΟΓ ΤΗΝΣΤΕΙΑ-Ω

Saturday = ΠΑΒΒΑΤΟΝ

(2) The twelve thirty-day months of the Egyptian calendar [CG 135]:

ΘΟΟΥΤ begins near the end of August (in modern reckoning)

ΠΑΟΠΕ begins near the end of September

ΖΑΘΩΡ begins near the end of October

ΚΟΙΑΖΚ̄ begins near the end of November

ΤΩΒΕ begins near the end of December

ΜΩΥΡ begins near the end of January

ΠΑΡΜΖΟΤΠ̄ begins near the end of February

ΠΑΡΜΟΥΤΕ begins near the end of March

ΠΑΨΟΝC̄ begins near the end of April

ΠΑΩΝΕ begins near the end of May

ΕΠΗΠ begins near the end of June

ΜΕΣΟΡΗ begins near the end of July

plus five intercalary days, each called an ΕΠΑΓΟΜΕΝΟΝ.

(3) The hours of day and night [CG 131] are twelve from dawn to dusk (approximately 0600h to 1800h), and twelve from dusk to dawn. Their names are formed with the prefix ΧΠ- (= at hour number . . . ) completed by a feminine cardinal number. Thus ΧΠ-ΨΟΜΤΕ (at hour number 3) = at 0900h/nine o'clock a.m., and = at 2100h/nine o'clock p.m.

## EXERCISES 20

A. Review vocabularies 14–15.

B. Translate.

## REFERENCE LIST OF COPTIC FORMS

Numbers (e.g. 77) refer to paragraphs of the grammar except where "vocabulary" is specified.

Greek alphabetical order is followed, except that θ, φ, χ, ψ are filed as τ<sub>2</sub>, π<sub>2</sub>, κ<sub>2</sub>, πс. The Greek letters are followed by ω ρ x 6. († is filed as τ<sub>1</sub>; digrams ει and οϣ as ε + ι and ο + γ.)
